If you like the game, please consider supporting developers. If you're here because the proxy told you to upgrade, go to the Download page. Fri, 06 Sep 2019 06:41:04 GMT Got It Works With a Forge Again. The only thing you need to enter the forge version file (e.g. .minecraft/versions/1.14.4-forge-28.0.93/1.14.4-forge-28.0.93.json), and find around line 36 where it says url: Put some URL between these quote marks. It doesn't matter what, but I'd like to use Unfortunately, you'll need to do it every time you install a new version of the forge. I can find a way to automate it in the future, but it works at the moment. Thu, 05 Sep 2019 17:16:58 GMT Alright 1.14.4 must work now Thu, 05 Sep 2019 00:31:37 GMT I think Mojang has changed something about the format of their metadata files because even the vanilla Java launcher is not working anymore. You can still use 1.14.3 and any version before, but 1.14.4 will trigger a freeze. I don't think they're going to fix it because they don't support Java launcher anymore. Not quite sure how to fix it yet, but check back in a bit. W, 27 Aug 2019 19:02:42 GMT Skins did not work for some people who also do not have a cloak set. Sorry about that, but it's fixed now. In addition, you can choose a normal or thin character model to better match your skin. St., 09 May 2018 01:14:59 GMT I'm not sure what the value was, but Mojang did a small update that broke some things with the launcher. I just pushed out a new launcher and it has to work again. Log in with any username or password you want. Servers should ask you to log in again as soon as you connect. Please note that you cannot connect to official servers using this. Only open servers or servers that use authentication plugins will work. Note: If you see a message Error: can't find or download the main class info.mineshafter.GameStarter follow these steps. Open your catalog .minecraft Copy catalog saves on your desktop Delete catalog .minecraft Start launcher Once the .minecraft catalog has re-emerged, place the backup saves the catalog back inside it.
