

# PAA Access Consultants

## Onsite. Virtual. Desktop.™

### Compliance Assessments

Assessments of key components in the built environment.

PAA™ can review the design and documentation of stairs, ramps, toilets, passenger lifts, doorways, signage, and other similar elements to ensure compliance with the BCA, DDA, and AS 1428 standards. Our assessments help identify potential issues early, support smoother approvals, and promote safe, inclusive, and accessible environments for all users throughout the project phases.

### Accessibility and Universal Design

**PAA Access Consultants**
