Some stores in Hillsborough Village Hillsborough Village are a neighborhood of Nashville, Tennessee, located 3 miles southwest of downtown. The centre of Hillsborough village is located along Hillsborough Road, the main thoroughfare dating back to the Civil War. It is a former tram suburb, and a shopping and entertainment district containing vintage clothing stores, a second-hand bookstore, art galleries, a nonprofit Belcourt Theater, and independent restaurants. In the heart of hillsborough is the Acklen Avenue Post Office, marked by a wall of autographs of country music stars. Local musicians Ben Folds and Matt Kearney also want to be here. Hillsborough Village is close to Vanderbilt University School of Medicine and next to Belmont University and the music range. The village is popular with college students. Hillsborough Road also divides the area into two blocks: Hillsborough West End in the west and Belmont Hillsborough in the east. Throughout the 19th century, the neighborhood now known as Hillsborough-Belmont was then part of one estate containing the Belmont Mansion. Much of the land between Hillsborough Pike and Grandma White Pike was farmland at the time. Hillsborough Village began to form in 1920, when two groceries and a pharmacy opened next to a trolley line that ran along Hillsborough Road (21st Avenue). Between 1910 and 1940, residential buildings were mostly built. The Acklen Estate architecture was founded by Joseph and Adelia Aklen and originally consisted of a Belmont mansion built in Italian architectural style (built in 1853), a zoo, a greenhouse, and grounds that were open to the public. This space helped to correct the fact that at that time there were no public parks in the area. Construction of residential development in the area began in 1890 after the sale of the Aklen estate. In the same year, the Belmont mansion became the central building of the University of Belmont. The University of Roger Williams was founded in 1865. His campus ran from a creek south toward Belmont Avenue. The most notable building on campus was a socially religious building built in 1920 on 20th Avenue South, which was later renamed the Wyatt Center when the university was acquired by Peabody College and then Vanderbilt University. The building can be seen from the blocks and is easily recognizable by its column exterior and large domed roof. Most of the subsequent events were dormitories and houses surrounding Vanderbilt University. Links to TeSelle. Gene (2009). Belmont and Hillsborough village. The four-block-long Hillsboro Village can't take a more comfortable place: It's sandwiched between Midtown, The West End, and Vanderbilt and Belmont University campuses and has a number of free parking lots scattered around it (and a few coveted street locations, if you're lucky). So he's always alive with shoppers and diners who want to poke around cutesy boutiques like Flawless Pig, Posh, Pangaea, and Revv; Grab a coffee at the Fido Cafe or a short stack in the Pancake Pantry; or watch an indie film at the iconic Belcourt Theatre, which opened in 1925. Expanding the village, the new residential retail hill center Acklen project is now home to Janie Ice Cream, Relevator Coffee Company, Pilates Garage, and more.
