AU MADE IMPLEMENTS

Farming Equipment Distributors takes immense pride in presenting a range of cutting-edge implements that are not just tools but a testament to our commitment to the Australian farming community. At Farming Equipment Distributors, we have embraced the 'Australian Made' spirit to its core. Our implements are manufactured right here on our home soil, ensuring superior quality, durability, and performance. We support local industries and farmers by providing them with tools crafted with precision and care.

Quality Assurance: Our implements are built to withstand the rugged conditions of Australian farms. With locally sourced materials and effective quality control measures, we guarantee a level of durability that stands up to the toughest challenges.

Customisation for Australian Conditions: We understand the diverse nature of Australian landscapes. That's why our implements are designed and customised to meet the unique needs of farmers across various regions. Our tools are versatile and adaptable from the outback to the lush farmlands.

Supporting Local Economy: By choosing our Australian-made implements, you contribute to the growth of local industries and support employment within our communities. We are committed to fostering a sustainable economic ecosystem that benefits everyone in the farming sector.

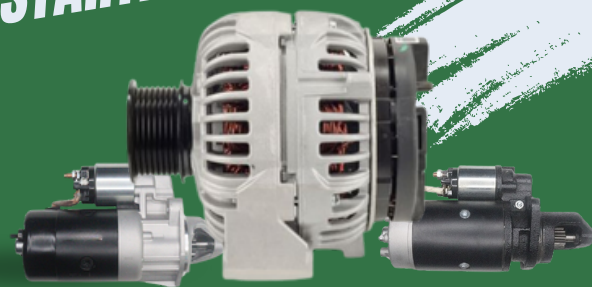

Swift Availability and Support: Need a replacement or assistance? With our manufacturing facility right here, you can expect swift availability of spare parts and dedicated customer support. We understand that downtime is not an option for farmers, and we are here to keep you moving forward.

Custom-Made Implements: At Farming Equipment Distributors, we take pride in offering tailor-made solutions for your agricultural needs through our custom-made implements.

NEW AT FED

AGRICULTURAL ALTERNATORS & STARTER MOTORS

At Farming Equipment Distributors, we are thrilled to usher in a new era of agricultural efficiency with our latest product line – Tractor and AG Equipment Alternators and Starter Motors. Engineered to deliver unmatched performance, reliability, and longevity, these power-packed components are designed to meet the evolving needs of modern farming.

Farming Equipment Distributors takes great pride in introducing our Tractor Alternators – a powerful solution designed to redefine the performance and reliability of your agricultural machinery. Built with precision engineering and a commitment to excellence, our alternators are tailored to meet the demanding needs of modern farming operations.

Farming Equipment Distributors proudly introduces our Tractor Starter Motors – a revolutionary solution engineered to redefine the ignition experience in agriculture. Designed with precision and a steadfast commitment to performance, our starter motors are crafted to meet the rigorous demands of today's farming landscape.

HIGH BACK BALE FORK 4-TINES

AUS MADE IMPLEMENT

Optimise your hay handling efficiency with FED's Square Bale Fork Implement, a purpose-built solution designed for the seamless and secure handling of square bales. This implement attaches effortlessly to your equipment, providing a reliable and efficient means to lift, transport, and stack square bales with precision. The FED Square Bale Fork has sturdy prongs and a robust frame, ensuring stability and preventing damage to the bales during handling. Whether you're a farmer working in the field or managing hay in a storage facility, trust in FED's commitment to quality and innovation for a dependable square bale handling solution that enhances your workflow.
