

# WARNING LITES OF MINNESOTA, INC

## JOB DESCRIPTION

**Position Title:** Traffic Control Laborer

**Reports To:** Shop Foreman

**Position Summary:** A shop laborer generally works in the shop area or in the yard helping to load and unload rental equipment, preparing equipment for the drivers, and repairing rental equipment.

**Responsibilities:**

- Repairing rental equipment.
- Staging equipment for drivers.
- Helping to load and unload trucks.
- Assembling rental equipment.
- Helping to keep the shop clean and orderly.
- Going to job sites with drivers to assist in placing or removing rental equipment.
- Filling sandbags when necessary.
- Always working safely and efficiently.
- Other duties and direct by the supervisor.

**Working Conditions:**

- Lifting and moving awkward equipment up to seventy pounds regularly
- The shop and yard tend to get dusty and very warm in the summer.
- There are many hand tools and presses that are used in the maintenance and assembly of equipment.
- Noise levels from machines and vehicles can be loud.

**Requirements:**

- Good physical condition
- Ability to adapt to changing situations
- High School Diploma or equivalent
- Current Minnesota Class D driver's license

**Required Values:**

- **Pride** - our work reflects our immense pride in our company's history and leadership position in our industry.
- **Humble** – we admit when we're wrong and strive for continuous improvement.
- **Professional** – we carry ourselves with a professional attitude and appearance because it's a reflection of the company.
- **Dependable** – what I do matters. We answer our customers' calls no matter the circumstances.
- **Problem-solver** – we find solutions to the problems thrown in our direction.
