A New Era of
Movie Theatre

The Samsung logo consists of the word "SAMSUNG" in a bold, black, sans-serif font, centered within a blue, horizontally-oriented oval. The oval has a slight gradient and a soft shadow, giving it a three-dimensional appearance. The entire logo is set against a solid black background.

Ōma Redefines Your Cinema Experience

Whereas all the cinemas built for more than 50 years now are similar and reproduce the same seating arrangement of the spectators, this concept of movie theatre creates a cinematographic experience at the same time intimate, spectacular and immersive, making **Ōma** unique in the global cinematographic landscape.

Pierre Chican
Cinema architect, Founder & CEO Ōma Cinema

An Unforgettable Experience

Much more than just the spectacular nature of the architecture, the original configuration of the room has been designed to offer viewers an exceptional audio and visual experience, projecting an image free of any distortion. Ōma is an experience that you will never forget.

Treat Your Audience

The unique configuration of the **ō**ma cinema allows highly personalized services: VIP-Corporate hospitality boxes, table service on all of selected platforms and exclusive VIP access to lounge and bar.

Design Your Own Ōma Cinema

Platform distribution allows Ōma to meet your very specific needs in existing structures or new projects alike. Choose the size of each platform, number of levels, platforms per level, etc.

Pierre Chican

Architect

Specialized in the realization of cultural arenas and more particularly of cinemas for more than 20 years no, Pierre Chican designed two of the most successful cinema theaters in France: UGC Les Halles (4.5 million tickets sold in 2016) & UGC Bercy (3 million tickets sold in 2016) in Paris and many other projects in France (Pathé La Valette with the first IMAX laser cinema in France) and abroad.

Nicolas Chican

Business Partner

Nicolas Chican has a Masters in Science of Management at EM LYON Business School. He majored in Services Marketing and developed strong skills in the entertainment and tourism industry. During his studies, Nicolas worked on a revenue management oriented solution for cinema tickets.
