

Per Aspera, Ad Astra - Through Hardship To The Stars

Clinton & Anne-Chloé's News February 2024

Dear Friends,

Until you can be <u>present</u> as 'yourself', your next step cannot be effectively revealed and empowered by your <u>Archetypal</u> resources. Doesn't this make sense? If you are not <u>centered</u>, <u>grounded</u>, and <u>bubbled</u> in a <u>NOW</u> that is too small for <u>stories</u>, then your energy and <u>attention</u> are hijacked by the stories, opinions, and 'needs' of the <u>survival strategy</u> of your <u>Box</u> and <u>Gremlin</u>. You remain <u>hookable</u>, easily sucked into <u>Low Drama</u> Gremlin feeding frenzies. You probably already know this from your own experience. The result is an ordinary 'human' existence, determined by your circumstances, defined by your culture and times. This, of course, is not 'bad'. But you would probably not be reading these words if something else was not calling to you.

There are so many <u>potentials</u> waiting for extraordinary Teams to hop in, press down on the accelerator, and take off into new human territories, territories which themselves are merely launching pads for further currently undefined exploration and development. Yes, <u>Teams</u> of <u>Possibilitators</u> are already exploring together, for example in <u>Bridge-Houses</u>, <u>EHP Dojos</u>, <u>Rage Clubs</u> and <u>Fear Clubs</u> doing amazing work. Yet these are first steps. Here is an invitation to consider taking next steps in which you provide the <u>Nonmaterial Value</u> of what you already are. You are already precious beyond measure.

For example, think about a group of people trying to live together on the moon, or not long after that, on the planet Mars. If these people use Standard Human Intelligence Thoughtware (S.H.I.T.), how long before a military-style <u>patriarchal hierarchy</u> will be enforced to suppress <u>projections</u>, <u>contaminated egostates</u>, <u>competition</u>, <u>jealousies</u>, <u>expectations</u> and <u>revenge</u>? Astronauts do not know the difference between the <u>Old and New Thoughtmap</u> Of <u>Four Feelings</u>! Astronauts do not distinguish between <u>Feelings</u> and <u>Emotions</u>! They don't know about <u>Torus Technology</u> or the <u>Purple Card</u> or <u>Resistance Decision Making</u>, and they do not distinguish Psychopaths or people with <u>Disjointments</u>.

A Mars colony will fail unless its cultural thoughtware is matured out of Patriarchy and into <u>Archiarchy</u>. But such a shift includes building <u>Matrix</u> through many <u>Emotional Healing Process</u> (EHP) <u>Liquid States</u> and <u>authentic adulthood initiatory processes</u>. NASA does not know about any of this yet. However, *they are now researching to find out!* Read the following excerpt from the <u>official NASA website</u>:

NASA is looking for healthy, motivated U.S. citizens or permanent residents who are non-smokers, 30-55 years old, and proficient in English for effective communication between crewmates and mission control. Applicants should have a strong desire for unique, rewarding adventures and interest in contributing to NASA's work to prepare for the first human journey to Mars.

The deadline for applicants is Tuesday, 2 April 2024. https://chapea.nasa.gov

Crew selection will follow additional standard NASA criteria for astronaut candidate applicants. A master's degree in a STEM field from an accredited institution (STEM stands for Science, Technology, Engineering, and Math. These four fields share an emphasis on innovation, problem-solving, and critical thinking.) with at least two years of professional STEM experience or a minimum of one thousand hours piloting an aircraft is required. Candidates who have completed two years of work toward a doctoral program in science, technology, engineering, and mathematics, completed a medical degree, or a test pilot program will also be considered. With four years of professional experience, applicants who have completed military officer training or a bachelor of science degree in a STEM field may be considered.

Can you imagine what could change if one or two of the candidates were Possibilitators using upgraded <u>Archan thoughtware</u> from <u>Possibility Management?</u>

This NASA invitation is only one of thousands of <u>doorways</u> standing before us right now. What do you need for your next steps? What do you need to become present as yourself and take action?

As has been said, "Ad astra." Why not? We are stardust.

A Comet Shower of S.P.A.R.K.s

SPARK 243:

Your mind is incapable of protecting you from feeling fear.

Even if you love your mind and your ability to talk to yourself inside of your own head... even if your mind was overfed information at school and rewarded for confining your thinking to the school's thought limits... even if you regard your chattering thought-world as a comfortable and familiar home for yourself... your 'bothersome' heart continues...

SPARK 244:

Saying what you feel changes nothing unless you use your feelings to change something.

Hitting Bottom and staying there is your graduation from Phase 1 to Phase 2 of Feelings Work. Whereas in Phase 1 of Feelings Work you learned how to Consciously Feel and say what you are feeling, in Phase 2 of Feelings Work you use the energy and information of your Conscious Feelings to change things ...

SPARK 245:

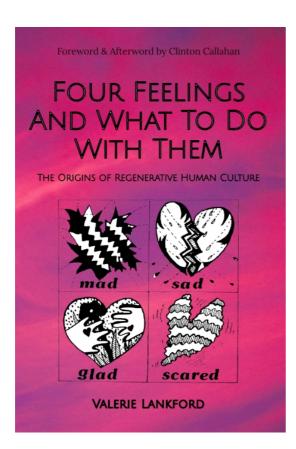

Radical Relating becomes possible the moment you Hit Bottom.

The 'Bottom' is not something that you 'hit'. It is something that you feel. Few people can Practice or Experiment until they have Hit Bottom and are forced to acknowledge 'the horror' of their situation. [...] From the viewpoint of the ordinary sleeping world, to 'Hit Bottom' means to be a 'failure'...

Women! It is time for us to start over.

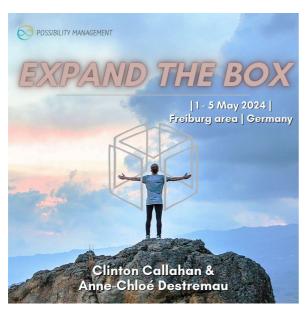

We start over in a different cultural context. Our new beginning originates in consciousness, radical-responsibility, and interdependence. Our new beginning

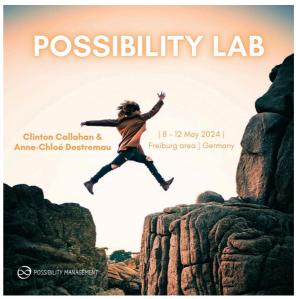

is born from our reclaimed <u>Dignity and Arrogance</u>. When Women respect their Feelings, their Bodies, their Voice enough, what emerges is a stand for a regenerative culture on Planet Earth.
