Step 3 - Find and download videos If you've logged successfully, then you're looking for the Facebook video you want to download. In the video, choose SD Download or HD Download. For those of you who have limited internal memory and are lazy to find a way to reduce the size of the video, download videos with standard quality that are smaller in size, gangs. Step 4 - Wait until the download process is complete last, the Facebook video download process will work and you'll have to wait for it to finish. Later, this video will be automatically stored in the HP gallery. The benefits of a Facebook video uploader from InShot Inc. are the ability to upload multiple videos at the same time. So just pick some of your favorites and download them through this app, yes! How to download videos on Facebook without apps (Android) For those of you who are lazy to install the app, you can also try how to download videos on Facebook without the app using the site of downloading videos on the Internet that can be used for free! At least Xhaka has found some trusted Facebook video download sites, such as: SaveFrom.Net (FBDown.net (DreDown.com (These three sites you can use on both Android and PC. As? Let's just read the steps below! 1. How to download videos on Facebook Android For you Facebook app users on HP Android, you can download Facebook videos without using additional third-party apps at all. All you have to do is take advantage of video download sites as you mentioned earlier. For example, here Jaka will use FBDown.net that you can try by following steps like downloading a video on Facebook on the next Android. Apps Social and Facebook Posts, Inc Step 1 - Open the Facebook Android app First, you open the Facebook Android app and find the video you want to download. Also make sure the video is public. Step 2 - Copy the video link After finding the video you want to download, then you copy the video link by clicking the triple point icon at the top, then choose to copy the link. Step 3 - Go to FBDown.net next step, you FBDown.net the site in the HP browser app and insert a link into the available fields. Then click Download. Step 4 - Choose the following quality video, you can choose to download the video in normal quality or download videos in HD quality, gang. Choose from two options. Step 5 - Download the video After clicking one of the links, you will be taken to the video preview page. In the This you click and hold on to the video until the 'Download' menu option appears. Finally, you choose the Download menu. 2. How to download a video on Facebook Lite Although for users of Facebook Lite app that is more quota effective, you can still download videos from Facebook by following the path as below nih! Basically these two apps still have the same functionality, which means that as long as the overall video is public, you can still download it. Here are the steps that you can follow as you download the video in FB Lite 2020. Facebook Lite 197.1.0.17.125 Social Apps and Facebook Posts, Inc Step 1 - Find and copy the video link Open the Facebook Lite app on your Android phone and find the video you want to download. Then copy the video link by clicking on the triple point icon at the top right of the video and then selecting the Copy link option. Step 2 - Go to SaveFrom.net step, you visit the site SaveFrom.net (and insert a video link into the box provided. Finally, you choose the MP4 Download button to directly download the Gang Facebook video. How to download a video from Facebook through SaveFrom.net you've finished doing it. It's simple, isn't it? How to download a video on Facebook PC / Laptop Still remember with three jaka sites to tell above earlier? This time, Xhaka will explain one by one how to download Facebook videos on PCs from all three sites. To date, these three websites can still be used to upload videos from a wide variety of sites, including Facebook. Yes, the ways that Xhaka will explain below may also be the solution for those of you who want to download Save FB gang videos. Given the Save FB feature doesn't really save the video on the mobile gallery. Want to know how to steps? Here's more information. 1. Download the video on Facebook PC SaveFrom.Net first, Jaka will tell you a tutorial to download videos on Facebook through SaveFrom.Net. This site is already well known as a reliable site for downloading videos from anywhere, including how to download Youtube videos. Step 1 - Log up FB account and copy the video link then copy the video link to the address of the browser bar app you use, Gang. Step 2 - Go SaveFrom.net next, you SaveFrom.Net (site and insert a link into the box provided. Automatically there will be a download button like this. Step 3 - Download the Facebook video PC Last, you click the MP4 Download button to start downloading the Facebook video. 2. Download the video on Facebook PC FBDown.net Next, Jaka will tell you how to download a Facebook Chrome video using FBDown.net. How to take a video on Facebook using this site is pretty simple, almost the same previous site. Step 1 - Copy the link and go to the site FBDown.net first, you copy the video link to Facebook then visit the site FBDown.net (and copy_link_ in the available fields. If you clicked Download. Step 2 - Choose the quality of the video Next Step, you just have to choose between downloading the video as normal as an option for standard video quality or downloading videos in HD quality for HD video quality. Step 3 - Download the FB video After that, you will be redirected to the video preview page. To save the facebook video, you just right click on it and click Save the video as .... 3. Download Facebook Videos on your PC through Dredown.com, you can also use Dredown.com which is also known to be able to upload videos from different platforms. Step 1 - Copy the video link First, you copy the Video Link Facebook then visit the Dredown.com website (. Insert a link into the available column and click the Dredown button. Step 2 - Choose the following quality video, you just have to choose the quality of the video you want to download and automatically your video will be stored directly into the download folder. Now, as you download the FB video on your PC through FBDown.net you've finished doing deh. Of the three sites above, unfortunately Dredown.com many ads on their sites. In SaveFrom.net or FBDown.net that don't have annoying ads, gangs. After all, this is how you upload videos to Facebook without apps or using additional apps that you can try. It's simple, isn't it? Now you can collect videos on Facebook. But remember, don't collect the odd video yes, gang! Hopefully the information jaka share this time is helpful for all of you and see you in the following articles.
