ISBN: 978-0-932367-23-5 Book DescriptionAmerica is at war. But this is not a conventional war waged with tanks, battleships and planes in conventional battlefields—at least not yet. It is a secret, insidious type of war whose battleground is the people's minds. Its main weapons are mind viruses disseminating propaganda and mass brainwashing by disinformation, cunning, deception and lies in a large scale not used against any people since Nazi Germany. Though important, these elements are just part of a series of carefully planned and executed long and short-term psychological warfare operations. In synthesis, it is a psychological war—a PSYWAR.If an unfriendly foreign power had carried out against the American people the actions carried out by Wall Street bankers, Oil magnates and CEOs of transnational corporations entrenched at the Council on Foreign Relations and its parasite organizations, we might well have considered it an act of war. Unfortunately, most Americans ignore that they are under attack. The reason is because, like Ninja assassins, the main weapon used by the conspirators who have managed to infiltrate and take control of the U.S. Government and most of American life has been their invisibility. For almost a century, this small group of conspirators have been waging a quiet, non-declared war of attrition against the American people, and it seems that they are now ready for the final, decisive battle. Unfortunately, as the last two presidential elections showed, the brainwashed American people reacted by changing the puppets, leaving the puppet masters in control.This book studies in detail the origins of the conspiracy, who the conspirators are, the main elements of this PSYWAR and, what's more important, how we can fight back and win.Editorial ReviewsServando Gonzalez' exposé of the Alien Queen, known as the CFR, could easily alter the future of Western civilization and America for the good. These are times when a single man may make great contributions to the cause of human dignity and freedom.—Kevin E. Abrams, co-author with Scott Lively of The Pink Swastika.Thoreau wrote, "There are a thousand hacking at the branches of evil to one who is striking at the root." Servando Gonzalez didn't waste any time hacking at the branches, and reveals the very crooked roots of evil. This is a most impressive book. A must read. —G. Edward Griffin, author of The Creature from Jekyll Island.Servando Gonzalez has studied in detail the men and organizations that rule the world.. It is one of the most important books of this decade. Read it and learn about the invisible forces that direct the course of world affairs —Stanley Monteith, author of Brotherhood of Darkness.Read this book. It not only tells you what's happening today but, with very well chosen historical perspective, it lets you look down the road of the recent past for proof of what it says. That is the best way to learn to look at the future in order to fathom what is coming your way. And what is coming our way is riddled with grave dangers, pitfalls and perils.—Adrian Salbuchi, author of El cerebro del mundo: la cara oculta de la globalización.Servando Gonzalez, masterly divulges the machinations behind many historical and contemporary events and he reveals who is really managing the presidential puppet strings. The new American Revolution is a conflict without guns. Rather, the ammunition is lies and psychological warfare and every American citizen is a target. It's a fabulous book, a must-read!—Deanna Spingola, author of When the Power Elite Rules.
