Oh She Glows Amazon Vegan title, Angela Liddon's book is perfect for those who want to introduce healthy options slowly - it encourages comfort products like mashed potatoes, dough and cake in a way that many other books in the genre don't, but all with a healthy twist, which means they still do you a lot of good. From chocolate muffins full of secret courgettes, to baked nacho cheese sauce that you'll want to make over and over again, Oh She Glows will really leave you looking better and brighter, and with a greater appreciation of vegan cooking than you ever thought you would.
