Workbox 3.0 chile

The image is not available forColor: The image is not available forColor: Tuyet T.I love how organized I am with dreambox. It wasn't hard to put it all together. One part was defective and I asked for a new piece. Customer service was great. They immediately sent out a new play. I love that I can personalize it the way I like it. Renata W. Whoever invented this genius!! It's the best thing ever!! I'm still in the process of moving everything in so the picture is a bit of a mess, but I'll soon have it! Everything is so conveniently located!! Thank you so much!! stu c.I really needed space to work on my models, paracord and beaded projects and the kitchen table was just not working. I honestly wasn't sure I wanted to make such a great purchase, but since it arrived it's been amazing to have a place to work and have everything in one place. It was worth every penny. I also had pre-service and I highly recommend that the service as putting it together took everything around 15 minutes, it will take a lot longer to install shelves and bins getting them exactly where I wanted. The lightweight kit is perfect and really keeps the workspace very well lit. Yvonne W. This dream box is awesome!! I'm disappointed I didn't get the box handles though. Customer100% satisfactionCharito T.I has always wanted one of this for so long. I finally bit the bullet and bought one. I'm sorry not to buy one sooner. Best thing ever!! I love it and finally started crafting again!! I highly recommend it and the extra charge for its pre-construction is worth it. Thank you! Sarah R.Really love my dream box and all the other items I bought. I bought it pre-built and was so glad I paid extra money. It was worth it! It took me two days to put it together with the addition of vinyl on the front and back walls and put shelves and drawers and cutting inserts for the fronts of all the bunkers. I love it! Katie M. Everything is great! From order, confirmation, delivery and delivery notices!!! Sharon S.I thought I ordered everything I saw in the actual Dreambox 3.0 picture, but unfortunately to say the side table in the picture is actually completely different. As well as a small closet with an image they say comes with buying while buying not or didn't come with it either. So check your order carefully and what you see is not what you get. Susan D.I absolutely love my dreambox and wish I had bought it before! Let me tell you about all my experiences! First, let me say that I was very concerned about the whole delivery process as there were so many negative reviews about disembarking on the side of the road! My old Dominion driver was amazing! I live in a very rural area and my house is 400 feet from the street; he delivered straight to my front road and helped my unload it! Second, the packaging was the best I've ever seen, with very detailed detail Third, the customer service was amazing as I had a few spots and one was quite noticeable in the crown! They fixed the problem very quickly and were awesome! Now for the best part!! This box of VENHIT! If you are on the fence, just do it; Funding is very reasonable! There is so much space and the organization is incredible! Thank you Create a room for creating such an amazing product! If you order, spend extra money and get extra shelves and sweepstakes; it's money spent well!! I couldn't be happier! Valerie R. This unit helped me become organized with my business. I have a personalized candy wrapper business that includes a lot of small pieces. Boxing has cleaned my office. I am thrilled with filling orders because I am now organized. Nancy H.I live this block- actually there is space unused so far Tracy E.I love Dreambox! I waited for years to have a room to buy one and finally got there and it was worth every minute! I love it when all my crafting/scrapbooking items are together in one space and organized! Diana J.I am so pleased with my dream box. This made my room much easier to have a spare room at the other end of the room and all my sewing accessories altogether. We're glad we got a pre-built option, it made putting together a lot easier. The only problem was it wasn't delivered to the house, we had to pick it up, luckily we had a truck and a trailer. Husband wasn't happy that.nancy b.I wish I knew about it years ago! Now all my stuff is in one place and makes my craft much easier because I don't have to put it away because it's sharing another area I need (like my desk). It doesn't move around as easily as the ones I've seen in the ads, however, I may have put some heavy things in it :) Need to do some permutationsvice B.I in awe, and so are all my friends who have seen it. Park M. This is the best!! All my crafts that have been scattered over now fit in one place!! The only thing I can find wrong is an electric hole. It's mine on my right. I need it on the left. Maybe putting it in the middle or one on each side of Charles M. Purchased for my birthday present, she absolutely loves it. She has been crafting for years and has a significant collection of items and is able to have everything organized and in one place. I highly recommend it. Theresa F. I saved for this forever. I'm in love with him! Loretta G. Love works in my new craft room. I still get it organized. We recently moved into our nursing home and I found things I forgot that I had so much fun. He's still going to get it all on himself. Gone for two weeks, and with waiting to get home so I can finish getting things organized. Christine S. Wau! I love this Dreambox!! I'm still moving in to it, but I have plenty of room for all my supplies. I'm not sure. I can even fill it all the way. I thought some of the empty sweepstakes might be for projects that are in the process. Katherine P.I managed to organize my sewing equipment and it was all in one place. It's so nice to need buttons or rewind bobbins or elastic and they're all in one area ready to go. The table is good in size, but adding side tables to it really increased the work area. When it is closed, it becomes a beautiful piece of furniture. I was so excited to be able to purchase my Dreambox this year, I'm enjoying it so much. Joyce W.AMAZING is the only word for this scrap box. CustomerThe DreamBox and DreamCart will transform my office! I can match my blogs with materials, craft materials, and homeschool materials all in one very organized place. Mary T. Built beautifully heavy I mean very heavy. The love concept has several areas that can be tweaked. I don't think I'll order boxes and 2 tables with it. I have no idea why little deep cubbies have how hard it is to reach back even with sweepstakes. I like shelves but hate the way they go, I finally bought metal pegs, even if they don't hold the shelves tight they are easier to get them in a particularly narrow area. External door shelves are not the best for me. I would use regular wood shelves and plastic strips to go down to the bottom, so if you don't use jars things won't slip out when you open and close the doors. I've said in my other reviews about totes, drawers, tables. And the crown. I am happy with Dream Box.Mary Jo D.I with such pleasure of doing things since I got my dream box! It's like having a craft shop in your own home. Everything is where you need it. This is my new happy place. :)Vendy V.Everything in one place I Luvin my Dreambox! Karen P.It nice to have everyone in one place ready to be used whenever I want! I no longer have to hunt things down, it saves time and frustration. Makes being creative a lot more enjoyable! CustomerSo is glad I got it pre-built! Definitely worth the price! Doris M.Love DreamBox, waited 3 years to buy it as we sold our house and made extensive travels over the last 3 years. We settled this year as the Kovida virus put an end to our travels. I will use my Box to create memory books from our travels. Can't wait to get started. Customer service was excellent and the delivery went without any problems. The box is well made, sturdy! Thank you! Russell G. That's what I really want. Sheri G.I has wanted this for a long time and it's so nice to have everyone in one place so conveniently ready to use... crown light to go with it must love itDebbiei love dream box. I had so many items in the bunkers that I couldn't believe how much fit into it. Things have their own space and I can find everything. Lisa Lisa love my dream box. Everything fits and I have my own place to go now. So glad I got itSarah P.In love with my new DreamBox. It's already inspired me to get back to tacking in a big way. I'm joking with my kids that his wardrobe that leads to Narnia's mom. :)Dab AM I reserved my opinion a few months before giving my review on Dreambox. I wanted to use it and live with it first. So here's my informed honest opinion.... I love him! I, like many of you, worked from several bins and drawers in several rooms in the house. A studio in the basement and craft/sewing rooms on the second floor. You know who you are, lol. We are really converting the 10x20 screen porch into an entire seasonal room for my studio. Crown Jewel in my Dreambox room. I can sit down and get to any item I need. I can also leave projects until I get back to them. I love maps, so it's no wonder I cut out maps for the fronts of my dirtier bunkers and totes. Then used the label manufacturer to identify the content. It's so beautiful! Each section has like elements, and over time I'm used to accustomed to where everyone lives. I don't repeat shopping anymore when I run out of a product I know there are no others in the box somewhere. I keep a list of essential products next to my Dreambox, and I'm sure no longer overpurchase. The design of the box is very sturdy and the product is well done. My husband even re-used the drawer he came to create me a dryer for my paintings! Honestly, I wish I had bought a Dreambox years ago. Dreambox has given me more organization and more time to create, and if you do anything like me, creating feeds my soul. Customer You won't be disappointed!!! Luz R. This dream box is that, my dream, but it's so expensive. And every extra thing is a real darling, too. Maria M. Still in the process of marking my bunkers. Love is all about except for one tiny plastic pin-shelf thing. And don't keep in - had to buy metal ones from Home Depot that are perfect, so now it's greatEmily K.Best money that I've ever spent isn't kidding!!! This is not an Ikea flat pack stuffola. It's hard wood. High quality. Stunning best ever! Carolyn S.I love my Dream Box, as soon as I finally got the shelves in. I bought a pre-assembled version of Thank Goodness. The pegs will not go into the holes, otherwise they will fall out. I had to use a wooden hammer to get them to stay put and then I couldn't get the shelves to snap in, they won't fall out. I finally gave up the narrow as I couldn't get my hand inside the hole. Anyway I finally got it filled with my craft supplies, and I like it a lot. Maybe I just got a lemon, like most most it seemed like there were no problems, I did Jennifer A.I organized all my jewelry making, most of my quilted and sewing, and all the few other crafts I do. I never dreamed that all my stuff fit into DreamBox. The best part now is I know where everything is! Cherie M. I like the box of my dreams. I didn't realize how many crafts I had until I added it to the dream box. My only complaint is the table. I could care less about the standing table position. However, the edges and sides of the table are sharp. When I lean over the table or wash my hands on the table, I feel that my hands will be cut to the edge if I move my hand. I'll have to see if I can sand edging so it's not as drastic. Debra B.My husband and I got Dreambox to use together for our art projects. We both love him! The storage space is incredible!! We had a problem with the table not staying completely in its folded position, but they sent us spare table hinge parts which cured the problem immediately. Dreambox exceeds our expectations!! Diana L.All in general I am very excited and pleased with my DreamBox. It's so nice to have what I need in my reach. Love it! The only thing I'm not happy about are clips for attaching shelves. I spent a lot more time getting the shelf to click in, also another one that I can't order extra totes and shelves. Especially small totes I would love to have a lot. Other spaces I can deal with. Rachel R. I love him! It keeps everything in its place and there is so much space and so many options to store. Lara T. First things first: very worth buying and helping me tremendously. But there were a few details that I found myself very disappointed that I wanted to be improved: 1: the edges of the table are very sharp. I have side tables and the smoother curved corners of the top edge much better so as not to hurt me and not get chipped. I wish the main table was it as well. 2: I wish the pegs continued higher in the main compartment. I really needed at least one long shelf there and I was considering donating one of the lower shelves, but then it was too low for my machine without adding more holes (which I'm afraid to do myself) and shouldn't be a problem to have. This left me very disappointed because I was hoping there would be more flexibility with this space, but even the upper center compartment does not give you an area where you can create a large long shelf that could fit great artwork or computer. 3. Opening and closing the table was harder than I expected, the mechanism didn't always catch right and its pretty painful when it falls on me 4. Opening and closing table becomes painful, and they are pretty stuck at the beginning and pinch their fingers when try to open and close it. Also, one leg is strangely loose and opens halfway when I try to close it (but then also gets stuck there and pinches your fingers when opening anyway) 5. No problem, but the suggestion, I saw that you sell magnetic door boards, about would love to buy a cork board that fit right there. I ended up painting one and taping it, it's almost perfect, but I'd like to get one with more tight support and in a way that it can fit in easily. 6. It would be nice to choose which hand the electric cord hole on is not a serious problem, but it would be helpful. In the photos I saw that it was on the left, and in the mine it is on the right, leaving my exit too far. 7. Delivery was not as easy as in the video. Instead of three separately packaged parts that can be brought inside separately. Instead we got all 3 pieces packed in one box that couldn't fit through the doorway. It required us to uns disclose and open all the outdoor packaging and roll the pieces separately across the street to get them inside. This resulted in minor damage to the wheels and lower parts of the doors. 8. Plastic pegs designed to keep the shelves centered are really fragile, many break when trying to insert shelves and many shelves won't sit securely after all. The metal pegs are great, it would be nice to have those for everything. (Or at least be able to). After all, this closet is a great solution, having a workspace in a small apartment that can close and leave space for living space at the end of the day. I just think there's still some room for improvement to make it really comfortable and comfortable as I hoped it would be. Christina B.It it's great to have all the storage, but some parts are hard to use. Shelves are either too tight or too loose. Shona M. Dreamy (as I lovingly called my DreamBox) is everything. She is, as she claims, a dream. It's real. And I love her with everything I have in me!!!!!! That's it. Clete L.Received our order and everything was well put together except laminating on one if the side tables were not fully complied with. Tried several times to contact anyone for help and tried many ways, but no one everyone responded. It is really disappointing that there is no effort to reach us. TREMAINE G.I wish I had room for another. I just love him. Constance G. The first time I ever bought me anything and it was the best I ever did Jeanne I.It's pretty awesome. I have serious jealous friends. It just arrived this week, so glad I went pre-built. Don't get me wrong, pre-built didn't mean setting up. I'm all had a lot of un packaging and set up to do, but nothing like it would be. After assembling a sewing station, I know it could be a nightmare. It will take me a few more days to get this the way I do in and start crafting again. MARILOVE IT! Best for organization and an unorganized person. Now I know where things are when I need them. LORETTA H.The doors don't close all the way, I have a desk all the way, so I don't know why it won't close all the way, except that all is well , Virginia L.I. has been for 3 years. I love it. How am I ever dispensed with it. It took me about 1/2 hour to create and that the duration of the time to clean. Now I can just close it and go back and not have to go find all my materials to just get started. They're all there at my fingertips. You'll never wish you'd bought this. Karen M.I. replaced the big door magnets. Much better now. I also added magnets to keep the doors safe. Made it harder for young children to open up. I've added boxes and I love them. But right now, my sewing machine doesn't fit. I have to keep it downstairs. It takes away my material storage. There's a great light over your head!!! I wish I had a storage room for the tables inserted. Saving space indoors is ideal. We put together the device. Three of us are 14 hours old. Instructions where great. The packaging is excellent. I give it 4 1/2 stars out of 5. I highly recommend it. Nancy P. Love is my dream box. I have more than enough room. Jo A.All I can say that I love my DreamBox and you should get one now! The best investment I've made in a long time! Debbie S. Love him. Very well done, holds a ton. Can't wait to see what other products you develop carina W.I absolutely love my dream box! My husband used the top of the drawer he was sent to make me a custom movable craft table. Patti B. Believe me.... I WILL HAVE A WONDERFUL REVIEW WHEN I AM DONE... But.... I have a question, so it will look like I want. Some people have a colorful front on the plastic boxes? I would do it, is there any I can see how they do it. Thank you very much, look forward to my photos to follow. Patti Bruno Carroll R.I love it! I'm amazed at the amount of ship deliveries it will keep and it will all be easy to access! Finally! :) Kimberly P.I. collected completely myself in two days. For the most part the destinations were excellent. There was a couple of drawings ago that misled me, but other than that, not a bad collect. Assembling can be more challenging for those who have no experience with manual tools and mechanical abilities. Judy M. Happy, happy, happy! Michelle D. Love it! A room for everything! It's all at my fingertips! Valerie W. I'm in love with the box of my dreams. This solved all my office/crafting needs. From the versatility of adjustable a lot of storage space under the table, up to the acrylic boxes they really thought about! Ashley L. I absolutely love my dream! I was able to arrange all of my crafting supplies to make it easier to be creative! Karen Karen could have been much clearer. I'm pretty happy with my dreambox idea... The biggest complaint I have is... The shelves are too loose, they fall out too easily, the shelves are not wide enough to barely fit on pegs, causing a huge problem. Diana G.Dream box dream came true. I know it's easy to close, but every time I close it I open it back and I craft away I never have to look for anything. I suggest you add label bags to bins, as once arranged I found that I need labels to facilitate the search for different items because I have covered the fronts of all my binsLielani T.I love my dream box. I had an original scrapbox, but it fell apart when we lovedIris S.I don't know why I didn't buy dreambox before. I went from a very large craft room to a small room. I've never felt organized like I am now with Dreambox. Thanks for making my crafts world much more enjoyable. The best product ever! CustomerReceived my office pretty quickly, my husband put it together I fill it! Love it and couldn't be happier with my purchase! This is exactly what I needed in my life!! So very happyMegan B.LOVE LOVE LOVE it!!!! it should be no matter what type of craft you make. Carolyn K.It it's true that the organization helps creativity. I like to see all my stuff and don't need to rebuy or later destash anything - I know what I have and can use it. Susan R. Kevet postponing, but during this pandemic decided to do something completely for me! Best buy ever! I'm not attached any photos because it's still in the works, but if you can figure out how to get one done! Customer service is the best! Jennifer L.. Were wanting this longer than I remember and feeling so lucky to finally own it! I have a small room (10 x 12) and with making jewelry, wedding bouquets, scraps, paint potting, card-making and other things, I tried to do it all in one place crammed with totes, cubes, bins and rolling storage. This is the best acquisition I've ever made. Everything finally has its place!!!! Michelle S.I waited about 10 years wanting a workbook then DreamBox came out and I was in absolute paradise. I love working on projects in my happy place and having everything in one place. Thank you! Katie K.I would like to say thank you to Dora H.This is absolutely gorgeous and the best thing since sliced bread ... Seriously, if you haven't got one.... Consider it.... Will your crafting life change forever!!! Barbara L. It's such a wonderful investment! It gives me joy every time I use it. It is beautifully made and of very high quality, not an eye-to-eye. In fact, I leave it open all the time because I just love looking at it. It was easy enough to put together (I decided to have it built and just made the rest put together, which took about three hours The compartments are very well designed, and only the right size for what I need to store (paper product, pens, office supplies). Perhaps best of all, it saved me so much time. When I need to prepare orders, I know exactly where everything is. Because everything is at home, it remains organized! I also don't buy duplicates of things because I can find everything now. Couldn't be happier with this purchase. Laura C.I is in love with this piece of furniture! I keep looking at it because it's beautiful and functional. Lynette I.Overall I love it. I really like the concept and have so much space. I'm just really disappointed on the shelves. The pegs are very cheap. They won't stay. They keep breaking. The shelves are very difficult to get and some do not stay put. Several shelves were chipped during installation because of it. Melinda B. Changed my life m.it Karen M. I love my box. I needed more shelves and ordered 12 of them yesterday and now get an email 30% of the approved today in an email. It makes me angry. Karen McFall Barbara L.I. couldn't be happier with my DreamBox! It saved me so much time - Everyone has a house and I don't foreclosure items because I can't find them. It is also a beautiful piece of furniture that looks great in the room. Outstanding quality and worth every penny. Melanie H.This cabinet is so much fun to have in my craft room. I could easily need two, but who can afford it? Thanks for making my craft much more organizedMarie S.I love how versatile this box is. I put it together for maximum storage and then I was able to customize to match the products and some of the storage containers I wanted to continue using. I'm going on weekend ship trips and being able to use some of the current storage containers so conveniently. Cheryl D.My Dreambox arrived very quickly and it was one exciting day in Baton Rouge! The rain threatened and we all jumped up to get the Dreambox unloaded and inside. I bought a pre-built one and highly recommend it. Even with pre-built there is a lot to do. I bought all the accessories that I might want at the same time. Some of my favorites are: the crown (light is wonderful and necessary), additional totes (I used all but two), side tables (I had to buy one instead of two as my room is small), built-in drawers (very useful), concepts trays and small totes are good for small and/or coordinating items, and a power pack. With the power pack. With the power pack, I really like the speakers. One thing I didn't get and wish I had a magnetic board. For me it was years in the making. I've been hoping for Dreambox for years. In 2016, our city (home) was hit by huge floods in that's never threatened before. At the time, I gave up hope of ever getting a Dreambox. I don't take it. gift and really feel blessed to have it. Now my plan is to use it every day.... and that's exactly what I'm trying to do! It fits in a room that should be an office and a guest room. So I like it when a close-up is just a piece of furniture. Patty C.I. will write more as soon as I get all the pieces. The delivery was quick. Their suppliers to deliver on the big one. They have great communication. He was taken at 12.30pm. I had the drawer open and brought inside at 2pm. There are no comprehensive instructions or a box checklist included. By 2:30 we appreciated the bundle missing and tried to contact as soon as possible. There was no answer. I followed the instructions there and emptied my garage to take delivery, cleared the room attempts to create a construction area. Now I may have useless rooms during the week waiting for the door to answer them. At the same time, the projects I've been working on also need to be implemented. The priority project is the manufacture of masks. I hope they open on Saturday and deliver the missing item soon. I'll update the reviews as we go. Sandy H.It that's all I was hoping for. Rhe H.I love my dream box more than I could have imagined. One suggestion when putting it together ends are quite sharp and there were small cuts all over my hands. Christina P.I enjoy my craftbox. As my grandson says: Granna is a refrigerator, lol. But it really helped me to be better organized. I have 5 different crafts since my family would say I have a lot of things. But with my new craftbox at least most of them are now all tucked away in style. Style.
