# DISCO *Revolution*

The premium live show that turns your event into a dance floor — and keeps it there from the first guest to the last.

Capability overview · for event partners & agencies

WHAT IT IS

# We turn your event into a **dance floor.**

A seven-piece live disco-dance powerhouse — two lead voices, a full horn-driven band, and a DJ who keeps the energy alive between every moment. Not a DJ set. Not a tribute. A live show built to move a room.

## WHY DISCO REVOLUTION

# Built to move any room

### 01 A full 7-piece live band

Real musicianship and real energy — drums, bass, guitar, sax, percussion and two front singers. The difference between background music and a night people talk about for months.

### 02 Dual male + female lead vocals

The complete disco and funk songbook, every era, every crowd — coverage a single-voice act simply cannot deliver.

### 03 Zero dead air

DJ Diggz opens, bridges every set change, and closes out. The floor never empties and the energy never drops.

### 04 Scales to your event

From an intimate function to a flagship gala with dancers and full production — the show flexes to the room and the brief.

TRACK RECORD

## THE EXPERIENCE

# What the night feels like

A designed arc, not just a set. The DJ warms the room as guests arrive, the live band builds through the songbook, the floor peaks, and every transition is seamless — one continuous rise from arrival to encore.

- 1 Guests arrive — the DJ sets the tone
- 2 The live band opens, the room warms
- 3 The songbook builds, the floor fills
- 4 Peak dancefloor — full energy
- 5 Seamless close, the DJ carries it out
