Clamo di Fronte ad un Personaggio Che Reprime Le SueA situation that is easy for many people to hear for fear of being ridiculed by others. The character of the Kanji comes from this fear and is forced to make up for it with a supermaxolic attitude. Following some plot events, you will find out if he can cope with his fears and above all what happens at the end of his social links! To understand kanji, I think you also need to understand and observe a specific relationship with a direct person, but I have to look at this, so I don't add anything! To start the social link, wait until June 9 before heading to the second floor of the Learning Building. If a student is found near the central staircase, it can be said that kanji threaten some people. You will find the boy on the first floor of the practice building.
