The high prevalence of asthma has been associated with a number of adverse effects, including airway obstruction, and respiratory infection. Asthma has also been linked to an increased risk of developing other conditions such as obesity and diabetes, possibly mediated by effectors in the hypothalamus. Thus, reducing the inflammatory response may have therapeutic value. The anti-inflammatory properties of inhaled corticosteroids and beta(2)-agonists have been shown in adults and children. Whether this translates to improved clinical outcomes in children with asthma has not been established. This article reviews the effects of inhaled corticosteroids and beta(2)-agonists on the respiratory tract and systemic inflammation in childhood asthma.Historical markers Category Archives: History Today is the 130th anniversary of a massive riot in Oakland. The event is known as the "The Battle of MacArthur and Broadway" and saw more than 12,000 people take to the streets of Oakland. In many ways, the Battle of MacArthur and Broadway was the largest confrontation of the Chinese Civil War. In October of 1887, on the streets of Oakland, protesters clashed with police. At least three people were killed and over two dozen injured. The violence continued for days, continuing to tear the city apart. For more information on this topic, I recommend an article on Telegraph California: Why do so many Americans seem to be shocked or in disbelief when they read about the terrible job conditions and environmental and human rights violations that occur in China? It's not that China is an ideal country. It has long been a problematic country where the Communist Party's control over the government is pervasive and deadly, particularly for the country's persecuted Uyghurs. However, the scope and severity of the human rights abuses and environmental disasters that are occurring in China has not been on the American public's radar until recently. More importantly, many of these issues are not 520fdb1ae7
