Bounding box outline reloaded

Home page of Minecraft Fashions Related Box Outline Reboot Mod 1.16.1/1.15.2 (Highlight Different Structures) Author: Irti | July 11, 2020 | 54,007 views Associated Box Outline Reboot Maud 1.16.1/1.15.2 highlights in different colors and styles of different structures and features of the game. Features: Nether Fortress; Red boxes are connected to each individual area where Blaze, Wither Skeletons and normal skeletons will appear. Time for beacon methinks! Witch Huts; blue boxes reveal everywhere only witch caviar. Witch Farm anyone? Desert temples; orange boxes envelop the pyramid and towers. Go grab some loot, but beware of TNT boob traps! Jungle temples; dark green boxes surround the temple. Indiana Jones would've loved them! Ocean monuments; cyanide boxes indicate where the guardians are spawning. New sea lantern and prismarine type FTW unit. End cities; Purple boxes show rooms, corridors and airships at the end. Time to fall with style! Strongholds; yellow boxes show every room in the fortress. Does anyone do anything with silverfish spawners? Woodland Mansions; brown boxes show every room in a forest mansion. Here's Johnny! Mine mines; light gray boxes illustrate each of the mine shafts. Cobwebs... grrr! Villages; multicolored spheres surround the village, with boxes of markings, if and where the iron golems will spawn, and additional lines denoting each door in the village and its center. You have to see the iron titanium ... Crazy! Slime pieces; Dark green boxes highlight where the mucus will spawn, with a dynamic box that rises to where players have feet to help find them from the surface. Inflatable... Inflatable... World Spawn and caviar pieces; red boxes outline the world of caviar pieces (active and lazy) Igloos (!); white boxes show where the needle is. Maybe you can convert a zombie villager back shipwrecks (me); cyanide boxes like a beacon these cautious sailors wish they had. Is it time to find buried treasures? The ruins of the ocean (c); cyanide boxes show the different structures of the ruins of the ocean. Watch out for those pesky sinks tho! Buried Treasures (C); cyanide boxes emphasize where the heart of the sea is. Wire anyone? Mob Spapers; Bright green boxes show where the crowds spawn, where the mobs will be spawned, and the red/orange/green lines help the player see if the spawner is nearby and activated. Pillager outposts; grey box outline where crossbow-wielding pillagers will spawn. Beware of the bad omens of Tho! (In): Because of the way Minecraft generates these structures, they will initially float higher where they should be, however when re-registered they should fall to the correct height. Unfortunately (or fortunately?) The buried treasure will always appear on y-90 (if change is what is there!) Screenshots: Required: Minecraft Forge Fabric Modloader Fabric API How to install: Make sure you've already installed Minecraft Forge. Find the Minecraft Minecraft app On the windows open Run from the Start Menu, enter %appdata% and click Run. On the Mac open finder, hold the ALT and click Go then library to the top bar menu. Open your app support folder and look for Minecraft. Place the mod that you have just downloaded (jar file) in the Mod folder. When you run Minecraft and click the mods now you have to see the mod installed. This is what you will be able to get accurate information about the boundaries of different playing areas. For example, if you need to get accurate information about Mob Spinner, you can easily do so. So why do you need such a feature? The fact that some players have to create spinner mobs, or farm mobs. This is a great opportunity because you will have all the data on your hands! Features of fashion: Displaying with the help of comfortable squares on the map. Hide and show fashion possibilities. Download Related Box Outline Reboot Fashion for MineCraft 1.16.2 - 1.15.2 - 1.14.4 - 1.13.2 - 1.12.2 Credit: Irti Source: CurseForge I'm trying to find a good mod that can show the boundaries of the box. So far I've tried Related Box Outline Reboot and MiniHud, but none of them work properly. I play on Fabric Server, and whenever I try to use the Related Box Outline Reboot, it shows no charm boxes for nothing, despite me turning all of them. MiniHud Just Straight Up Crashes whenever I try to run it. Is there any other fashion I should try, or is there any troubleshooting tips that anyone can give me?
