**Continue**

About a year ago, I made a plan to look for a pair of sustainable, earthy and ethically produced jeans, fall in love with them and then buy them in all the colors of anytrans download kostenlos. Over time, I'd slowly replace all my regular jeans with resistant ones. That was the plan! I ended up buying some genuine Stretch High-Rise Skinny Jeans from Everlane, in Mid-Blue aktueller Mozilla Firefox kostenlos. Read my full review here herunterladen. That was 10 months ago. I absolutely loved them and so yes, I bought them in black, white, washed gray too. Not sponsored, I bought them all by the messenger itself herunterladen. I had black, white and gray jeans for months (sitting along with my Mid-Blue ones) adobe pdf kostenlos downloaden. I wore them all and washed them all. And here are a few reasons they are awesome: 1) They're all super handy - I even wear them to work download WhatsApp for iphone 6. 2) They are perfect - I bought everything at a size 25. I'm a size 25 in all my designer jeans (Frame, Acne, Levi's, Rag/Bone, etc.) Black pair is a little tougher and the fabric isn't as soft as the rest, but still fits a great download video from YouTube online. 3) They are clipped on the ankle so I don't have to get them altered. I'm short (I'm 160cm). 4) They are really thin ankles so they cone with my leg PSP game through the PC. Short girls will know when they buy skinny jeans and get them cut, resulting in ankles not singing because they are the size of a tall girl calves ha download Microsoft flight simulator x free! So we have to pay extra to have them tapered on the leg, which usually ends up costing the same price as the jeans themselves. 5) Price herunterladen. I think the best bit is how affordable these jeans are - AUS \$103. I feel a little funny saying this, but it kind of feels too cheap for steady and ethically made jeans. I feel like I have to pay more... but at the same time, if they were priced higher than, say, \$170, I'd probably think twice about buying them in all colors. They don't seem to sell this style in white anymore, but they just released Dark Blue Wash and Deep Indigo. Anyway, if you're looking steady and ethically made jeans, check out these - I totally recommend them! I hunted around for a large pair of jeans - the ones that are good for the planet, sustainable and ethically produced. I don't mind paying a little more. They just have to be a good fit, good quality and the latest roller coaster for free nederlands. I basically wanted to fall in love with one style and then just buy them in all colors: blue, light blue, black, maybe dark gray. Because I'm so lazy! I bought these authentic Stretch High-Rise Skinny Jeans from Everlane back in November 2018 to download the music Program. (It's (It's not sponsored. I bought them myself. I get a bit of commission if you click on my link and buy something though.) Size and Fit I wear a size 25 for Acne Studios Jeans, Rag and Bone, GRLFRND, Frame, Levis, None. For all of them - I have to roll the length about 4-5 times for them to fit me in the foot. Most of the time I just get them hemmed for \$15. So I bought these Everlane Jeans at a size 25, ankle length in Disney's Mid Blue Plus TV download app. They ARE FREAKING INCREDIBLE. They fit me so well. Waist, hips, bottom, hips, ankles - it's all a lovely figure cuddle, with an excellent stretch. I don't have to get the length of my legs taken up - amazing! And they're actually tight/thin around my ankles - super awesome Download Sniper Ghost Warrior 2 for free! (I'm 160cm, or 5'2 and usually wear an au/UK Size 6.) Wearing I have always been wary of high-waisted jeans. But now I can't live without them. They help smooth my tummy - there I said I :) I feel slimmer, more tucked away, I think they help with my posture and they make my legs look longer, ha herunterladen! The denim is a little thicker than usual, making them feel strong and reliable. So I feel like I can give them a nice, quick tug of war (when I'm in a hurry in the morning) and I won't rip or warp them. They also feel soft, smooth, elastic, and they are very comfortable to wear. After washing the course, the jeans felt a little stiff and solid after washing and drying the air to download Dropbox Mac files. But once I put them on and wore them for a while, they softened and felt absolutely normal. The cleanest denim in the world? Everlane says their jeans are the cleanest denim in the world... using a renewable energy system, a closed system that recycles 98% of all water used, 85% air-dried jeans, and a toxic by-product of denim supplied to the plant and mixed with concrete (so that it doesn't get leached into the environment) to build affordable homes steuerbescheid zber elster herunterladen. I don't have AN IDEA as someone can check out any of this... but Everlane have been around for quite a few years and you think that someone will shut them down and that there will be more public protest if they make false statements right?! Aaaaand is the last of all, jeans are only US\$68. Or AUD \$98. So yes, I'm totally in loooove with them, and will be buying again. Final thoughts I would say that these authentic stretch High-Rise Skinny Jeans are definitely my favorite and best normal jeans to wear from all over my wardrobe where to download auto data. (Since they don't have problem holes, studs or flashes!) My pimples are of medium height and they are not thin in the ankle. My GRLFRND of them is too distressed and Although they are terrific to wear. My framed jeans look amazing, but they are a bit tight and at times look too sexy. Honestly, I'm not crazy about this. This is TOO blue video Aus dem netz herunterladen. I'd rather have a more faded Levi's 501 kind of blue. So I could buy black and dark blue. My plan is not to buy any more non-sustainable jeans ever, and just keep buying from Everlane, or any other sustainable brand of jeans I try. I used to collaborate with Grana (I still looove the brand and buy tops from them every 3 -4 months!) and I tried 2 styles of their audiograbber jeans mp3 kostenlos downloaden. But I found the size a bit inconsistent and I found the jeans were too tight or too loose, the denim was a bit tight rather than soft/luxurious enough for me haha. These styles were discontinued, so maybe they realized that these styles didn't work. I haven't tried their High Rise Cropped Skinny Jeans yet as I'm not sure about their jeans sizes. Besides wearing I also bought a relaxed silk shirt, which I wear in this photo, in April 2018. It's really nice! She needs LESS ironing/steam than my Gran Silk shirts. White Slingback shoes by Diana von Furstenberg. Alix shoulder bag from 3.1 Philip Lim This post is not sponsored. I've been buying from Who Gives A Crap for almost a year. I love it and just want to share it! I have \$10 off sending a link to you at the end if you want to try it out for yourself. About 18 months ago, my family went

travelling and camping through central Australia to download ebook books for free. It is very remote there and there are not many amenities and services between cities. So if you happen to stay in a remote location, you are invited to take your own garbage with you. We made a lot of stops... and saw first hand disgusting, eye aches on the landscape - blinding white toilet paper everywhere Download video from the homepage! Its ribbons are brandished by trees and shrubs sticking out of the ground, crumpled and littered on the ground. At this point, I decided to start buying biodegradable toilet paper - and I found someone who gives Crap. (I met the brand 3 friends!) Their toilet paper is made of 100% recycled paper, good for the environment, forest friendly, inkless, no dyes, no flavors free Minecraft game. They don't wrap their toilet paper in plastic. All the internal cores of toilet paper and cardboard boxes are made of recycled paper too. They donate 50 percent of their profits to nonprofits working to build toilets and improve access to hygiene, water and basic sanitation in developing countries. What is the difference between biodegradable toilet paper and standard toilet paper? Most standard toilet paper is made of virgin trees! Standard toilet paper breaks down more slowly than biodegradable toilet paper, and it more water to completely decompose. Biodegradable toilet paper is usually made from rapidly growing toilet paper such as bamboo, which needs less water and matures faster download pokemon red for free. It also dissolves and breaks faster (in less water) than standard toilet paper. It can also be made from recycled paper, which means that the trees are not cut down. Basically, biodegradable toilet paper is much better for the environment. We buy fabric boxes too free book downloaden harlequin! My kids say it's a bit hard to get paper, but omg I tell them to get over it, it's a small price to pay. What is the cost? In terms of cost, YES is a little more expensive than buying it for sale in a supermarket. But I feel... If I want to do something good for the environment (as opposed to just feeling all sad about it), I can support small businesses trying to be transparent and trying to do something good and change the world of free YouTube videos manager. My money is my voice! I haven't worked out how much more it costs me each year, but if it's something like \$50 more, I'm totally happy with it! (Some people would prefer to have a luxurious toilet paper and donate \$50 for environmental reasons - which is perfectly normal, and haha!) Who gives Crap has a subscription option and a normal option of one buying YouTube videos 2020. For the subscription option, you can get delivery every 4 weeks (for 5-6 people), 6 weeks (for 3-4 people) or 8 weeks (for 1-2 people). I don't use the subscription option. We are a family of five - 2 adults and 3 boys (aged 15, 13 and 9) and I found that we will finish a box of 24 rolls in about 8 weeks png dateien. Maybe because the boys use less toilet paper?! So I just do one buying time every 7-8 weeks. Special discount link you can get \$10 from your first order if you use my link here. I think you should spend over \$48 though, and it's free shipping over \$30. If you buy, I get a reward of \$10 put into my account, but seriously, I'm not doing it for the money, I share the discount, hoping that others try it out and make the transition to a more environmentally friendly option too, where I can warzone! Enjoy! xxx This is not sponsored post :) It's just something we've been doing for years and a lot of people have asked me about this scratch German. We collect all our old computer parts and regularly take them to Officeworks for their Bring IT Back Recycling Program - keep all this waste from the super Mario maker dump 2 kostenlos downloaden. Equipment is sent to processors, where up to 98% of the material is restored and recycled. What's amazing! They accept desktop computers, laptops, computer mice, monitors, printers, scanners, multifunctional printers, keyboards, computer sources printed boards, motherboards, network cards, discs and heruntergeladen CDs. You can also bring empty ink and toner cartridges, mobile mobile batteries and accessories. All materials are used to make roads, garden beds, pen, rulers, plastic pallets and steel products kwaliteit downloaden. This is a very simple process. We just throw all the items on the shopping trolley, wheel it to the store, the person greeting customers will call someone to get it and picks it up while you're still standing at the door - so good app facebook heruntergeladen kostenlos! You can find out more about the program here, and here's a list of Officeworks stores that take elements of Amazon Prime staffel heruntergeladen. Enjoy! xxx Hello everyone, today I'm talking about pants! I'm 5'2 or 160cm... and it's so hard for me to buy nice, cotton pants Google Maps Land! The trousers I try on in the shops are always too long in the leg or too bulky on the hips and. I've tried pants from zara, NSM, Cotton On and other high street brands where they cost about \$49-\$99. While they fit normally, I just don't like the quality of the fabric - too see through, spiky or cheap looking to download free music online. I recently had the opportunity to work with the transparent fashion brand Grana and I jumped at the chance to choose these Easy Tailored Pants from 100% cotton twill heruntergeladen. I usually size au6/UK6 iphone Mac heruntergeladen. So I chose the size of the XS in these pants. They are free at the waist and hips. So I had to choose the size of xxS. However, they are very comfortable when I sit down, they don't pinch me and they are not too tight in different places, so I'm happy with this size. They are very relaxed and easy you tube movie heruntergeladen! And when I wear a belt and lay my shirt, they're fine. Cotton fabric is beautiful and light download Gran turismo for free. The fabric is ideal for warm weather. The pants have a good drape structure, and it keeps it tailored to the look. The length of the leg is kind of perfect as you can see the idealo app. Especially when I'm wearing heels. I would definitely turn out to be cuffs when I wear them with flats or sneakers. They au \$95, which I think is a great price for clothes from a transparent, ethical YouTube brand playlist for free. I'm not 100% sure that cotton is organic though. Overall, I really love them. I've never had cotton chino pants like this before and it's just a great heruntergeladen! Grana has several sales at the moment. They celebrate Women's Equality Day, with 21% of women's clothing with the code: paygap21 They clear their winter stocks with 30% of selected cozy essentials with code: babyitscoldoutside (It's a great time to pick up on some cashmere jumpers!) and if the sales are over this weekend, you can always use my current current for 10% discount and free shipping, with code: karenxgrana. Happy shopping! Enjoy xxx I first heard about Everlane yeeeeeas back when everyone raved about Everlane Silk Shirts and how amazing and affordable they were. But I never bought one then, because of their crazy shipping cost to Australia (years ago it was something like \$30-\$40, I'm not quite sure anymore) YouTube driver free. Over the years, they have reduced their international shipping fees and now they are offering a fixed rate of US\$15 to Australia. I know Everlane sometimes offers free international shipping, so I waited until the promo came around and finally purchased two items! This post is not sponsored or gifted by Everlane. I bought these items myself because I found a space in my wardrobe and I was curious to check their quality Havana ringtone for free download. PLUS I wanted to support a fashion brand focused on transparent and ethical processes. I've read about all my factories around the world, it's really interesting! I realized that ... The more I spend on these transparent brands, and less on those that are not transparent, the better. My Silk Review I'm not a textile expert to download all the images of Facebook. I have no idea about the fila than the count, or how to compare the weight of silk or weave. I just own a lot of silk shirts haha! I have 3 Equipment Silk Shirts, 1 Isabel Marant silk shirt, a few silk tibi tops... and lots of silk products from high street brands... and so I have only a firm opinion about which silk I prefer the most. I've read a bunch of online reviews about comparing Grana vs. Everlane vs. Hardware Silk Shirts, but actually, in the end, I find that comes down to your personal preferences and what kind of silk you would like to feel and wear spss hogeschool utrecht. For me, I really don't like silk with a slippery satin feel because for me, the fabric looks and feels like a satin or polyester. And it reminds me of the peaks I could buy from zara or witchcraft. But I've found that this satin silk look is a little more wrinkle resistant. Grana silk shirts have a more velvety crepe look feel Aus facebook chat heruntergeladen. My silk shirt is Also velvety, but much cleaner and gentler. My equipment and Tibi silk shirts are somewhere between satin and velvety. And I prefer somewhere nearby, but tends to a more velvety feel. What do I think of Silk Everlane download Amazon Prime for free? I'd say that Everlane is more of a slippery, shiny kind of silk (almost no velvety feel), but it feels thick and strong, and has a kind of matte finish, so it's very nice. When I rub the cloth between my fingers, it feels like quality So much better than shopping on the street. Cut and skill there denkspiele kostenlos heruntergeladen. The inner stitching looks very good, the seams and Don't buckle. It's great value! I found two loose threads, one in the armpit and one in the cuff, but when I gave them a tug, they left, and no sewing fell apar. It was pretty creased up when I took it out of the bag. I had to give it a low/medium iron with lots of steam which took me ages! The shirt seemed to handle the iron just fine, which is so good tango kostenlos heruntergeladen! How's FIT? I bought a relaxed silk shirt at a rate of 00. I usually have AU6 or UK6. I'm 160cm and I weigh 46kg. Perfect over the shoulders and back ffp the entire catalog. Comfortable around the chest, waist and hips. Brilliant length for body and arms. And the cuffs were perfect too. I'm super happy! How IS STYLE? Pomegranate silk shirts have hidden buttons (which I don't like) and no pockets on the chest lame mp3 encoder free. Equipment shirts are exposed to buttons and chest pockets and pocket flaps - good style but a bit of safari looking maybe. Everlane is exposed to buttons and no chest pockets - I really like this combo! I think I like the style of this Everlane shirt more than my signature shirt equipment. It's just a little more minimal. And it depends on my :) Maybe because it's a pinstripe shirt, and maybe if I were to wear a simple colored Everlane silk shirt, would I feel that the style was too simple? A general opinion? All in all, I really like this shirt. I am very happy that you can get such a great style silk shirt in high quality, with excellent wearability, for such a good price. With the exception of the two loose threads I found, I can't blame this shirt! I'm dying to get it in more color now! Unfortunately, I don't have a discount code to share with all of you. I have this link to the Everlane website and if you like my review and buy from them, I get a bit of credit put into my account. But don't worry if you don't use it! Over the past few years, I have tried to buy foundations that are environmentally friendly, sustainable, or ethically made heruntergeladen. Sometimes it's so hard to meet all the criteria. Sometimes I can never know if a brand is really revealing everything, or if it's just another marketing ploy to sell to people like me? mp3 converter kostenlos downloaden Deutsch! There is a 2018 Ethical Fashion Guide that you can download that prices of brands and companies download mp4 music videos for free. According to the website, the guide is a measure of each company's efforts to reduce the risks of forced labor, child labour and the exploitation of workers in its supply chains Big Ben Klingelton kostenlos heruntergeladen. I'm interested to show it on another blog, so I'll talk more about it another time. Trying to be Ethics and the environment. I am quite particular with my style/quality fabric ... And and I just love the lightweight, casual, minimal and high quality items from Truth Gran or submissive free. They currently have a special Eco Sale, offering 20% of all eco-friendly styles with the code ECO20 heruntergeladen. The sale features items made from French organic flax, Tencel (sustainably from fast-growing eucalyptus trees, without pesticides or fertilizers) and Lenzing Modal (sustainably made from natural forest beech trees) as I can WhatsApp for free. I was gifted this Jersey Racerback Tank (French Organic Cotton) a few weeks ago and I shared it on Instagram download gia San Andreas PS3 for free. But with this Eco Selling on, I wanted to share a photo on my blog too (don't pay for it!). I just love how it feels and it's a slouchy style to make liste zum heruntergeladen. I wear it as a casual top for wear and oh (mommy duties!). I wear it to yoga/design, over the top of a sports bra. This is a style that will last me for years to bolt heruntergeladen. And by the sense of material, it will certainly last me years too. And you know what? It actually makes me feel a little proud that I wear something good for the ground! If you are a new customer and you want to buy a full price item, please feel free to use my code karenxgrana to enjoy 10% of your order and free shipping! Xxx Mid-length wrap skirts, ruffle skirts and patterned skirts are now an amazing way to update your style. They are easy to wear with a T-shirt or camisole, and easy to wear with heels, flats and even sneakers. For today's post, I was sent Grana Tencel skirt to try The Facebook video downloaden chip. As always, I don't get paid for it and I'm pretty honest and reasonable with my reviews and sharing what I think. People at Grana just send me an item, they don't tell me to please say it or please mention it... they just leave it up to me to say whatever the hell I want! First, I was quite amazed when I read about TENCEL (I thought it was a daggly 90s thing?). The Grana version is a 100% biodegradable fabric that is made from wood pulp from sustainably managed eucalyptus tree plantations that focus on minimizing the environmental impact of werbeblocker downloaden. Apparently eucalyptus trees grow quickly, without fertilizer, chemicals or irrigation. (I can vouch for that because I was in the middle of an Australian dessert and there's LITERALLY NOTHING out there... and a shit load of eucalyptus trees haha!) I find it so impressive that it's completely biodegradable, it looks pretty good and it doesn't cost \$330 or something funny like this. Fabric: Omg is super soft but reliable. It has a lovely weight and is very nice, luxurious It has a slightly denim look at it, by texture and thickness die toten hosen alben download kostenlos. But that's a lot, a lot of a lot than cotton/denim. It kind of feels like a mixture between a jersey and a slinky neighborhood. (Do I make sense here???) I've given up the contrast in the photos, so you can see that there's a bit of fuzzy texture like velvety suede, but not quite. It's not pure black, it's more dark gray. I'm such a fan of this fabric! I want more! I love it! Fit: Okay here where it gets a little tricky sky downloaden. I tend to size XXS for Gran dresses, shirts, pants and camisole. While trying to decide what size to get, I checked the size and measurements on the product page... and my measurements were somewhere between XXS and XS. I was a little confused and not sure. So I emailed customer service and they responded and said that: from my measurements, I should get XXS downloaden wet. The XXS skirt has arrived and it fits me perfectly around the waist and hips. You can probably say it's a good fit of my photos - yay! A few questions: Clothing description says: Wear the right size for a free fit This is my true and ordinary size... but to be honest, I wouldn't call it a free fit. I'd say: It's pretty set! Don't eat big food in this one! (The fabric has no stretching.) So if I wanted a weaker fit, personally I'd go one size and wear it lower on my hips heruntergeladen. Also. Clothing description says: The style is designed as a modern skirt work I fully understand that the style is long, minimal and versatile and thus good for the job. But for this size XXS, the split actually goes up really high on me - like, party, sexy looking high. So I don't think I would wear it to work to download the structure of the website! When I take a larger-than-usual step, the skirt split opens up just under my underwear. Not working properly. Again, perhaps this could have been avoided if I had just ordered the size of the XS and worn the skirt lower on the hips. If you look at the image on the product page, the model wears a skirt on her hips, split much lower and it looks pretty relaxed and easy on her to download fabulous audiobooks for free. Common opinion: Personally, the two issues I mentioned are not very big problems for me. They are a more potential size problem for those who are actually looking for a loose skirt job. The truth is, the skirt fits me perfectly to download icloud all the photos at once. I absolutely adore him! I pretty much wear it with every T-shirt that I already have and it looks so good. I wore it during the day (with sneakers) for the night (with a singlet and heels). I like that it's a bit sexy and I don't mind that it shows some legs when I go. I love that it is installed, hugs my curves and makes me look slim download Microsoft With the code. I think it fits my little frame. I can't wait for the temperature to drop, so I can wear it with boots! And it's 100% biodegradable! Biodegradable! Special discount code If you are a new customer, please feel free to use my code karenxgrana to enjoy 10% of your order and free shipping! (I tried to ask them for a discount code for existing customers, but they can't do it at the moment! Enjoy! The weather in Perth has been aaaamazing these past few weeks windows 10 bei Microsoft Kostenlos downloaden. Not too hot, not too wet, not too cold. Perfect for going out in a beautiful strap top, jeans and sandals! I've been happily testing out a few new Grana items (gifted!) and will be featuring them over the next few weeks heruntergeladen. I've noticed that they launch updated styles where they tweaked the hem lines and improved on overall shape. I'll answer you as I go heruntergeladen von aktualisierungen nicht muglih failed to update the cache! For this new season, Grana has released a new Silk Classic Camisole - a new style and in the new colors of Spring No 3 radio. Their past silk camisoles were round-neck styles with racer back, or V-neck styles with V-back. This one is more of a straight neckline across the chest and back, with a stylish, minimal drapery mission impossible soundtrack to download kostenlos. I think it looks much more modern and very COS. It sits nicely on my chest; not too low texmaker heruntergeladen. It doesn't flare up downstairs. It's a free fit, but still flattering and slimming. It's sweet and simple, I really like this sky go app heruntergeladen! I liked the style so much, I chose a top in two colors, it says something wdr mediathek video downloaden! I chose Off White so I could wear the mixture and match it with black and denim, and it's pink frosting for something else heruntergeladen. Funny, I wear another pink because the color is super sweet, a little different from what I usually wear, and it kind of brightens my complexion of elementary OS download kostenlos? Silk is just beautiful. It has a slightly matte and velvety feel rather than shiny and slippery. And I find it very similar to my equipment silk shirts, more so than the silk tops from zara and Topshop. Basically I think it's really affordable for quality. As for the size, I wear the size of the XXS, and it's perfect. Here's a picture of how it sits under my arms - not too low, which my bra strap shows. I love the shape of the back. Another thing - the lining. In the past, they used double silk lining - where sometimes when the weather is wrong, the lining gets a little staticky. But they used a different kind of lining this time. It looks like a standard lining (which is slightly end-to-end and a bit like a satin/polyester), but it's actually, soft, flowing, draping, feels good on the skin and it's all 100% silk. So this top feels very light and fresh to wear. To wear. Do I recommend it to my friends? Yes! If you are the kind of person who would like to wear more silk in everyday or work outfits, this classic top is perfect. Especially at this price. But if your wardrobe is overflowing with camisole, you probably don't need another haha! Maybe white to update your look a bit? Special discount code If you are a new customer, you can use my code karenxgrana to enjoy 10% of your order and free shipping! Enjoy! This is a slightly different theme for me to download from soundcloud. This post is not sponsored, I'm just happy to share something like cool, it's not about clothes... a bit, but it's still about trading trustmaster heruntergeladen! For the past 10 years I have been a supporter of reusing bags for my grocery stores. I've tried so many types: canvas bags, paper cloth bags, material bags, string video bags for free. In the past, I invested in 6-8 bags at a time and tried to use them as diligently as I could. Most of the time I would forget to take them with me on my grocery shopping trip een email downloaden. Or I just couldn't bother because they were so big and bulky to carry around. That's what I'm using now. And I remember very well to take them with me now wie kann man filme auf netflix heruntergeladen. These rolled green and black handbags from Woolworths aktuelle bewerbungsvorlagen kostenlos downloaden. Although I usually shop in Coles (it's closer to my house), I've found that these bags work best for me. I have been using them for the last 5 years of the schnelleren game. I can't find these multi-run bags on the Woolworths website, but they sell them in-store at the box office. They're about \$8 or \$9 for a pack of 8 bags to download the video br mediathek. The string bag is something I bought in the markets a few years ago and I just use it to carry all my bags. A bag of bags! I found the string bag to be a bit impractical because they are too big to produce, and too delicate for regular heruntergeladen trading points. Plus they were a bit expensive for each bag. Best features - They are small when rolled up gratisen musik app. Each bag has a little gum that keeps it rolled up. I can easily fit about 8-10 of them in my usual handbag. Best advice - Buy a lot of them so you can use them all the time. I have about 20 at the moment, I always leave 2 at the bottom of my handbag, 10 in my car, 4 in my second handbag and there are about 4 hanging around my house and pantry. They are super strong and they can fit a lot of things into them (more than a regular plastic bag). They're easy to wash, too. If I make a big grocery store, spending about \$250, I use about 6 Bags. This is my little A.P.C handbag (which is about 23 cm x 18 cm) and my iPhone 6 Plus (which (which about 16cm x 8cm), next to 4 rolled up bags. They are very compact! Ok this is something I'm more excited about as I bought them last month. They are reusable bags of products from flora and fauna (I recently discovered this cool site for all kinds of eco-friendly and natural products.) I bought the ONYA Products Bag 8 Pack, which are made from recycled pet drinking bottles. They are 30cm x 25cm (slightly larger than a sheet of A4 paper) and hold up to 2kg of products. So far, 8 bags has been enough, but I could buy another set in a larger size, mix them and leave the set in my car, because yes, I forgot to take them with me a few times. Plus they tend to get a little messy/dirty, so I've been washing them, hence they're not available for use. I love using them! And I feel so good using them, knowing that I'm cutting the world's steaming plastic bags to produce every week! (If you happen to buy through my link, I get a small commission for the referral.) Happy shopping for shopping bags haha! xxx xxx xxx
