## REScoop PLUS Workshop Deutschland

*BürgerEnergie Berlin, EWS Schönau and REScoop PLUS would like to invite you to the Forum Factory Berlin for a National Workshop on Energy Efficiency.*

REScoop PLUS is looking to make REScoops in Europe go beyond their activities of producing and supplying energy and take up energy savings for their members as a new pillar in their organisation.

The Energy Efficiency Toolkit brings together selected, tested and graded best practices to support Energy Efficiency in REScoops. The National Workshop Tour is bringing the Energy Efficiency Experts of REScoop PLUS in 6 European countries to present the Toolkit and help REScoops to deploy those best practices.

The first part of the day will be spent with presentations of the tools of the REScoop PLUS toolkit. While during the second part of the day, you will get the opportunity to discuss personally your energy efficiency projects with our experts.

**Datum: 19.10.2018**

**Forum Factory  
Besselstr. 13- 14  
10969 Berlin**

**Anreise:**  
U6 – Kochstr./ Checkpoint Charlie
