

Educator Profile:

Angela Day,
Stoke

Hi, I'm Ang, I live in a great home in the heart of Stoke, Nelson with my husband Greg and our three children, Lily (16), Ronin (12) and Maddie (8).

I am an early childhood educator supported by a wonderful company called Village Kids, owned and operated by Kirstie Van Houtte.

We believe it takes a village to raise a child and therefore provide loving environments focused on safety, stability and trust.

At my place the children are encouraged to be themselves, try new things, practice self-care skills and make lasting friendships.

We offer a program of activities and opportunities that allow the children to crawl, run, climb, jump, dance, sing, paint, bake, discover and much more.

I have a calm and relaxed manner and absolutely love being a part of the children's lives, supporting them emotionally and physically to grow into wonderful little people. I am also currently studying towards my certificate in Early Childhood Education Level 4.

If you would like to come around and meet me, my family and a few of the children in care, give me a call or txt 021 578 751. I would love to show you this wonderful environment I have created for the children.

Have a lovely day

Ang
