

Precious Hannah

Founder + CEO of Mister OK's Essentials™

Precious Hannah is the Founder and CEO of Mister OK's Essentials, which specializes in home and body care. Precious believes that the experience is the process of the product. "Breathing is severe, and we do it without thinking twice about what's in the air, especially when a candle is burning. We never question what chemicals might be filling the space. Instead, we examine what scent it is that instantly brings us joy or creates a mental note of what experience that scent brought". In addition to creating experiences for consumers through Mister OK's Essentials, Precious is a multi-disciplinary designer across Accessories, Apparel, Footwear, and Retail Design. Precious has over nine patents in product design across footwear and accessories.
