QUICK GUIDE

INSAIT  **JOY**

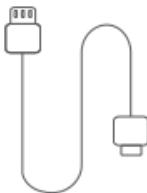

Your INSAIT JOY Smart Football

Your INSAIT JOY Smart Football

Wireless Recharging Base

USB Cable

2402MHz-2480MHz @ -14.08dBm for BT
100-148kHz @ 20.47 dB μ A/m H-field @3m for WPC

► Charge your INSAIT JOY Smart Football

Important Notice:

Your smart football is in an uncharged state at the time of shipment; therefore, please ensure that it is fully charged by following the steps below before use.

1. Connect wireless recharging base to a power outlet using the provided USB cable.

Note: use only with a 5V/1.5A output power adaptor.

2. The LED indicator will turn green, meaning it is ready to start charging your INSAIT JOY Smart Football.

3. Place your INSAIT JOY Smart Football on the wireless recharging base. Make sure the charging mark on the ball is facing down to match the charging mark at the centre of the charging base.

4. Once the LED indicator turns orange, your INSAIT JOY Smart Football is being charged.

Note:

a. Your INSAIT JOY Smart Football should be fully charged after about 2.5 hours. The LED indicator will turn green once the ball is fully recharged.

b. We suggest you recharge your INSAIT JOY Smart Football at least once a week.

c. A blinking orange LED indicator refers to an error during recharging. Usually misplacement of the smart football over the charging base or improper contact between the smart football and the charging base may cause this situation. Please make sure the charging base is not being placed on a metal object, and no foreign objects placed between your smart football and the charging base. If you are using several wireless chargers or wireless charging bases at the same time, make sure each two of them keep a distance of at least 30 centimetres.

Getting Started

► Download INSAIT JOY app

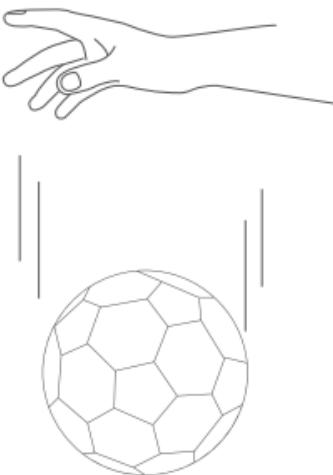

1. Scan the QR code on the package to download INSAIT JOY app, or search “INSAIT JOY” in App Store (iOS) or Google Play (Android) to download the INSAIT JOY app.

Minimum OS requirement: iOS 11.0 / Android 6.0

2. Follow the on-screen instructions to sign up or login to the app.

► Use Your Smart Football

1. Wake up your INSAIT JOY Smart Football: before connecting to your phone, wake up your smart football by bouncing it a few times on the ground.

2. Pair the INSAIT JOY Smart Football with your smartphone: turn on Bluetooth of your phone. Open INSAIT JOY app, login and follow the on-screen instructions to connect to your smart football.

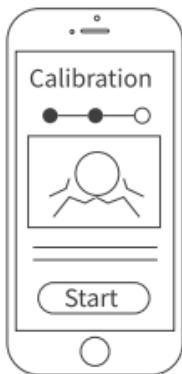

3. Calibrate your INSAIT JOY Smart Football: sensor calibration is needed if you are using the ball for the first time.

4. Play with your INSAIT JOY Smart Football: choose the drill you like and start playing!

Note: Keep the ball still for a while and it will turn off automatically. If you are not using it, make sure the ball stays still to avoid activating the ball accidentally and consume power.

Sensor Calibration

1. Read the on-screen calibration instructions.

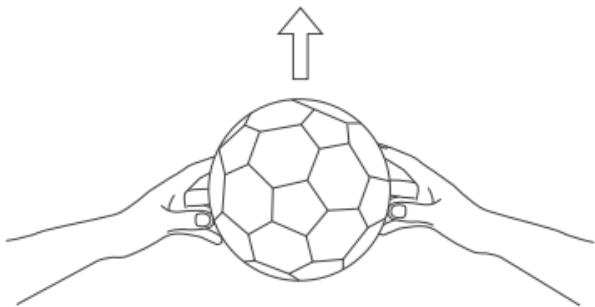

2. Hold your ball still at shoulder height for at least 1 second.

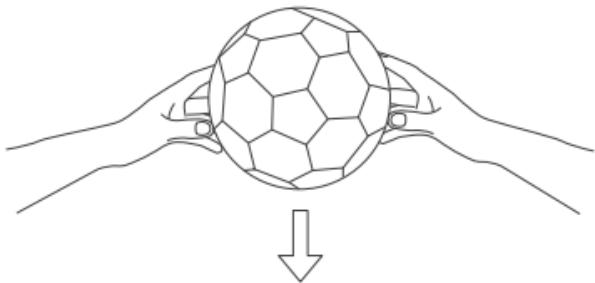

3. Let the ball fall on the ground and let it bounce a few times. Try not to let it spin.

4. Hold your ball still with the valve upwards for 2-3 seconds. Tap the button on the screen once the ball is kept still.

5. Hold your ball still with the valve downwards for 2-3 seconds. Your calibration is finished now.

NOTE: In case calibration fails, go back to Step 1 and retry. Calibration helps collecting the data more accurately, so we highly recommend you complete these steps before playing.
