Cerebral palsy pdf journal

(Go to content) Pattern to determine the causal link between acute events and cerebral palsy: an international consensus statement. *BMJ*. 1999; 319: 1054-1059View in Scopus article (545) PubMed Crossref Google ScholarDefining pathogenesis and pathophysiology of neonatal encephalopathy and cerebral palsy. *Obstet Gynecol*. 2003; 102: 628-636View in Scopus article (198) PubMed Crossref Google ScholarNeonatal encephalopathy and neurological results. American College of Obstetricians and Gynecologists. Washington, DC2014View in the article Report Western Australia Cerebral Palsy Register of Birth 1999. Telethon Institute for Child Health Research, Perth (Australia)2006View in the article Cerebral Palsy. I. univariate risk analysis. *Am J Dis Child*. 1985; 139: 1031-1038View in Scopus article (152) PubMed Crossref Google ScholarAntecedents cerebral palsy: multivariate risk analysis. *N Engl J Med*. 1986; 315: 81-86View in Scopus article (676) PubMed Crossref Google ScholarIntrapartum asphyxia: a rare cause of cerebral palsy. *J Pediatrician*. 1988; 112: 515-519View in Scopus article (399) PubMed Abstract full text PDF Google ScholarCerebral paralysis and application of international criteria for acute intranatal hypoxia. *Obstet Gynecol*. 2006; 107: 1357-1365View in Scopus article (73) PubMed Crossref Google ScholarIntrapartum Risk Factors for Newborn Encephalopathy; West Australian Case Control Study. *BMJ*. 1998; 317: 1554-1558View in Google's PubMed Crossref Article ScholarCerebral paralysis is the following term for newborn encephalopathy: population-based research. *Dev Med Baby Neurol*. 2005; 47: 293-298View in Scopus (103) PubMed Crossref Google ScholarGenetic understanding of the causes and classification of cerebral palsy. *Lancet Neurol*. 2012; 11: 283-292Whole-exome sequencing indicates significant genetic heterogeneity of cerebral palsy. *Mole Psychiatry*. 2015; 20: 176-182View in Scopus article (68) PubMed Crossref Google ScholarGathering evidence: umbilical gases and placental histology for birth with low Apgar scores. *Aust N and J Obstet Gynaecol*. 2011; 51: 17-21View in Scopus article (18) PubMed Crossref Google ScholarCorrelation neonatal acid base status with Apgar fetal rate scores and tracking. *Am J Obstet Gynecol*. 1986; 154: 1306-1311View in the article PubMed Abstract full text PDF Google ScholarApplication criteria developed by the task force on neonatal encephalopathy and cerebral palsy to acutely choking newborns. *Obstet Gynecol*. 2011; 118: 824-830View in Scopus article (15) PubMed Crossref Google ScholarContinuous cardiotocography (CTG) as a form of electronic fetal monitoring (EFM) for fetal evaluation during childbirth. *Cochrane database Syst Rev*. 2006; 3: CD006066View in the article of maternity services in England. Report of the Comptroller and the Auditor-General, State Department of Health, United States 2013 Summary 1.17. Available by: . Access June 24, 2015.View in the article cerebral proceedings: change course or abandon the ship. *J Child Neurol*. 2015; 30: 828-841View in Scopus article (24) PubMed Crossref Google ScholarDaubert v Merrell Dow Pharmaceuticals Inc. *Bloomberg Law*. 509 US 579, 113 S Ct 2786, 125 L Ed 2d 469, 1993 USA. View in the article cerebral palsy: epidemiology and cause-and-effect pathways. Volume 151. MacKeith Press, London (United Kingdom)2000View in the article Case-control study of antenatal and intranatal risk factors for cerebral palsy in very premature single children. *Lancet*. 1995; 346: 1449-1454View in Scopus article (320) PubMed Abstract Google ScholarAn update on the prevalence of cerebral palsy: a systematic review and meta-analysis. *Dev Med Child Neurol*. 2013; 55: 509-519View in Scopus article (453) PubMed Crossref Google ScholarCerebral paralysis and congenital malformations. *Eur J Paediatr Neurol*. 2008; 12: 82-88Is of cerebral palsy associated with other defects other than cerebral defects?. *Dev Med baby Neurol*. 2007; 49: 252-258View in Scopus article (30) PubMed Crossref Google ScholarAntecedents cerebral palsy and perinatal death in time and late premature singletons. *Obstet Gynecol*. 2013; 122: 869-877View in Scopus article (64) PubMed Crossref Google ScholarMaternal infection and cerebral palsy in infants of normal birth weight. *Jama*. 1997; 278: 207-211View in The PubMed Crossref Google ScholarEpidemiologic associations with cerebral palsy. *Obstet Gynecol*. 2011; 118: 576-582View in Scopus article (68) PubMed Crossref Google ScholarChorioamnionitis and cerebral palsy in short- and short-term infants. *Jama*. 2003; 290: 2677-2684View in Scopus article (386) PubMed Crossref Google ScholarFetal exposure to intraamniotic inflammation and cerebral palsy at the age of three. *Am J Obstet Gynecol*. 2000; 182: 675-681 Silver paralysis and fetal inflammatory syndrome: review. *J Perinat Med*. 2006; 34: 5-12View in Scopus (125) PubMed Crossref Google ScholarAssociations between inherited thrombophilia, gestational age and cerebral palsy. *Am J Obstet Gynecol*. 2005; 193: 1437-1443Sin between inherited cytokines polymorphisms and cerebral palsy. *Obstet Gynecol*. 2006; 194: 674.e1-674.e11View article Scopus (47) Google ScholarFetal growth restriction and risk of cerebral palsy in singletons born at least 35 weeks pregnant. *Am J Obstet Gynecol*. 2015; 212: 520.e1-520.e7 Silver paralysis in infants with asymmetrical growth restriction. *Am J Perinatol*. 1997; 14: 211-215View in Scopus article (10) PubMed Crossref Google ScholarCustomized Growth Curves. *Clin Obstet Gynecol*. 1997; 40: 715-722View in Scopus article (36) PubMed Crossref Google ScholarReproductive technologies and risk of birth defects. *N Engl J Med*. 1803-1813View in Scopus (482) PubMed Crossref Google ScholarPotentially suffocating condition and spastic cerebral palsy in infants with normal birth weight. *Am J Obstet Gynecol*. 1998; 179: 507-513Crotosing funisite. *Obstet Gynecol*. 1992; 79: 64-70View in the article Severe placental vascular fetal lesions in term infants with neurological disorders. *Am J Obstet Gynecol*. 2005; 192: 452-457Citomegalovirus and Epstein-Barr virus may be associated with some cases of cerebral palsy. *J Matern Fetal Neonatal Med*. 2012; 25: 2078-2081View in the article Scopus (12) PubMed Crossref Google ScholarUrinary tract infection during pregnancy: risk factor for cerebral palsy?. *J Obstet Gynecol neonatal nurse*. 1996; 26: 405-413View in the article Scopus (35) Abstract full text Full text PDF Google ScholarTreatable innate metabolic errors, presenting as cerebral palsy imitates: a systematic review of literature. *Orphan J Rare Dis*. 2014; 9: 197View in the article Scopus (35) PubMed Crossref Google ScholarGenetics considerations in cerebral palsy. *Pediatr Neurol*. 2008; 15: 21-26View in the article Scopus (34) Abstract full text Full text PDF Google ScholarFetal and the mother candidate of the SNP associations with cerebral palsy: case control research. *Pediatrics*. 2012; 129: 414-423View in Scopus article (28) PubMed Crossref Google ScholarChild apolipoprotein E gene variants and cerebral palsy risk: assessment from the case of the parents of the triad. *Eur J Paediatr Neurol*. 2015; 19: 286-291A autosomal recessive form of spastic cerebral palsy (CP) with microcephaly and mental retardation. *Am J Med Genet*. 2006; 140: 1504-1510View in Scopus article (20) PubMed Crossref Google ScholarDeletion gene ANKRD15 at 9p24.3 reasons for parents of origin depends on the inheritance of family cerebral palsy. *Hum Mole Genet*. 2005; 14: 3911-3920View in the article Scopus (83) PubMed Crossref Google ScholarMutation in the AP4M1 gene provides a model for neuroaxonal trauma in cerebral palsy. *Am J Hum Genet*. 2009; 85: 40-52Homozygosity for missense mutation in 67 kDa isoform decarboxylase glutamate in a family with autosomal recessive seubary cerebral palsy: parallels with hard man syndrome and other movement disorders. *BMC Neurol*. 2004; 4: 20View in Scopus article (34) PubMed Crossref Google ScholarHigh family risks for cerebral palsy implies partial intrusive etiology. *Paediatr Perinat Epidemiol*. 2007; 21: 235-241View in the article Scopus (44) PubMed Crossref Google ScholarA gene for autosomal recessive symmetrical maps spastic cerebral palsy chromosome 2q24-25. *Am J Hum Genet*. 1999; 64: 526-532Mutations qC4H2 are associated with mental disability and multiplex congenitis arthrogyposis through impaired central and peripheral synaptic plasticity. *Am J Hum Genet*. 2013; 93: 681-695Watch in Scopus (37) Abstract full text Full text Full text PDF Google ScholarNKX2-1 mutation in a family diagnosed with attackis attackis cerebral palsy. *Eur J Med Genet*. 2013; 56: 506-509View in Scopus (11) PubMed Crossref Google ScholarGenic intolerance to functional changes and interpretation of personal genomes. *PLoS Genet*. 2013; 9: e1003709View in the article Scopus (512) PubMed Crossref Google ScholarA is a common basis for assessing the relative pathogenicity of genetic variants of humans. *Nat Genet*. 2014; 46: 310-315View in Scopus (2514) PubMed Crossref Google ScholarRare variations in the number of copies with cerebral palsy. *Eur J Hum Genet*. 2013; 22: 40-45View in Scopus article (32) PubMed Crossref Google ScholarCopy number of variations in cryptogenic cerebral palsy. *Neurology*. 2015; 84: 1660-1668View in Scopus article (36) PubMed Crossref Google ScholarDouble-stranded RNA is pathogenic in Thehrophile model of advanced re-neurodegenerative diseases. *Hum Mole Genet*. 2011; 20: 3757-3768View in Scopus article (39) PubMed Crossref Google ScholarExome sequencing and functional verification in zebra to identify GTDC2 mutations as the cause of Walker-Warburg syndrome. *Am J Hum Genet*. 2012; 91: 541-547A Higher mutation load in women supports the female protective model for neurodevelopmental disorders. *Am J Hum Genet*. 2014; 94: 415-425Hipology for the treatment of neonatal hypoxic ischemic encephalopathy. *Apka Pediatr Adolesc Med*. 2007; 161: 951-958View in Scopus article (143) PubMed Crossref Google ScholarCesarean Delivery and Cerebral Palsy: a systematic review and meta-analysis. *Obstet Gynecol*. 2013; 122: 1169-1175View in Scopus article (25) PubMed Crossref Google ScholarA timely cesarean decision time does not prevent fetal traumatic brain injury. *Am J Obstet Gynecol*. 1999; 180: S112Magnesium sulfate for women at risk of preterm birth for neuroprotective fetus. *Cochrane database Syst Rev*. 2009; 1: CD004661View in the article Definition and classification of cerebral palsy. *Dev Med baby Neurol*. 2007; 49: 1-44View in the article Database of Brain Disorders (DBDB): curated neurogenetics of the knowledge base with clinical and research applications. *Am J Med Genet A*. 2014; 164A: 1503-1511View in Scopus article (11) PubMed Crossref Google ScholarA without the fault of cerebral palsy pension system will benefit all Australians.Aust N J Obstet Gynaecol. 2011; 51: 479-484View in Scopus (5) PubMed Crossref Google ScholarAustralian Cerebral Palsy Register.Report. 2013; () in the article cerebral palsy journal pdf. cerebral palsy journal articles. cerebral palsy journal of child neurology. cerebral palsy journal research. types of cerebral palsy journal. causes of cerebral palsy journal. indian journal of cerebral palsy. cerebral palsy indian journal of pediatrics
