This app is a slot machine game disguised as an action oriented Viking game. For the timeless zone out, the master coin is a match. Coin Master is a free slot machine playing the game. It's easy to learn and hard to put down. Play as a guest or connect to Facebook to play with your friends. Name your Viking. The game does not include random Viking names, so enter your own Astrid or Arvid. Choose a hilarious horned avatar helmet to go with it. Playing Coin Use slot machines to earn coins, attack and attack other villages. This is where the Viking theme ends. Coin Master has no plot or history. The goal is to keep earning coins to build, improve or repair your village and steal coins from your neighbor. If you are connected to Facebook, what neighbor you are stealing from may be yours coins by clicking on the slot machine. Three in a row matches net you big wins. But you won't always get coins. The game tutorial gets you up to speed, but the controls are simple enough, you don't need it. You'll start by throwing down \$60,000 at the sweet little straw house. Each item you build rewards you one star. You need twenty stars to get to the next level of the village. As the stars of your item increase and bump up the level, your village will look less like something from how to sing your dragon after an attack. It's going to turn into something more impressive. Golden statues, anyone? But it's also pointless. Each level opens up a new type of village and they have nothing to do with the Vikings. Seeing stars How do you get stars? Every hour you will receive five free spins of slot machines. They can accumulate, so you don't have to check in every hour. You can hold fifty spins in total. When you spin the wheel, your slot machine win may not be a bunch of coins to slap down on your next village upgrade. Spin the pig in the mask? Raid! You get to attack the Coin Master.The Coin Master friend (if you are connected to Facebook) or a random player with most coins. Raiding is fast. Four different attack points are automatically highlighted in the crosshairs. The game encourages you to ignore the cozy house and deer, and directs your attention to the catapult. Destroy it at the touch of a button and earn coins. Only three of the four dots will contain coins. Choose well. You will dig three times hunting for gold. When you're done, you'll be back to the slot machine. Torroll Thor's hammer hammer, and you leave for a nearby village. If you've connected Facebook, it could be your friend's village or a casual player. Attack the village or you can click Revenge or Friends at the top of the screen. You can either bash and smash your friend's village or browse the list of people who trashed yours. You will see a list of their names and how many stars they have so you can decide who is most worthy of your anger. Sweet Revenge is the best part of The Coin Master.Your village is not immune from fighting. You will lose a star from your shared assembled stars. The element of your village will lose the star and return to the previous level. Click on Fix to fix this. If you rotate the Viking shield, you have earned your village automatic protection. The next attack will keep your village safe and earn the raider smaller coins. It's a pity that the three shields are your max. If you roll up the extra shields, you'll get to re-roll. With only three shields, and millions of players, your village will not the way you left it. You're going to lose the stars. As levels progress, it's a frustrating process. You have to save money in order to upgrade your village, but you can't with frequent attacks. Why are stars important? The stars keep the rank and put you on the leaderboard. Earn one star for every upgrade in your village. Once you get a high enough level, you can earn stars by collecting cards. Frequent paywalls distract and encourage you to spend money for faster alignment. It is almost impossible to play without payment. Bonanza collection cardDe you find cards? Once you hit Level 3, which is a slow grind, you can find maps in the chests of neighboring villages. The kind of village you are in will determine the type and rarity of the cards you get. Nine cards form each collection. Fill your collection for the number of stars displayed at the top of each card and other prizes like free spins. You won't get items for duplicates. Play long enough and you can unlock pets like rhino, fox, or tiger. They don't sit there and look beautiful. Each type of pet offers different village bonuses. Where can you run this program? Download Coin Master for your Android phone or Apple products using iOS 9 or later. Is there a better alternative? Pirate Coin Master and Smash Island Crazy Cards offer the same cutesy graphics and coin awards fun without the Viking theme. There are still coin theft raids on neighbors. Pirate Coin Master offers different ships to build and maps to collect. Smash Island uses a wheel rather than a slot machine to rotate and build different islands. You can still attach your Facebook account so your friends can help you (or not). These games are so close in style and mechanics. It comes down to whether you prefer one format to a slot spinning and a hilarious theme over another. Coin Master thoughtlessly and repetitive buttons clicking on the edge of entertainment.
