Versuche es nicht auf der site sparks epic games and an epic games in the creative epicgames in the crippled essan of the Epicgames in the internet. Wenn es deepen nocht funktioniert mus du einen anderen namen wahlen. Hello ich habe vorh... Page 2 Fortnite Credit: Epic Games This is the last week of Season 8, so if you want the prestigious Ruin or Luxury sheets, now your chance. It was a strange season, with plenty of downtime, an explosive new Avengers down, a strange UFO and a hint of some great things still to come. But we're here now for challenges, and if you're waiting until later in the season to start knocking off some of your list, it's definitely your chance. The season 8, Week 10 challenges are now available, and it's a pleasant little way to shut down the season: some non-combat challenges there, as well as a return of the flaming hoops we see appearing every time in a while. Continue Reading for the full list and how to solve it: Free Challenges Launch by flaming hoops with a cannon (0/3) – 5 Battle Stars Stage 1/3: Harvest (500) Wood in a single game - 2 Battle Stars Stage 2/Battle3: Harvest (500) Brick in a single game - 1 Battle star Stage 3/3: Harvest (500) Metal in a single game - 2 Battle star Eliminates (3) opponents at Towers or the Block - 10 Battle Battle Pass Challenges Deal (500) damage with an Infantry Rifle or Heavy Assault Rifle - 5 Battle Stars Stage 1/2: Search the treasure card drawing post found in Junk Junction - 2 Battle Stars Stage 2/2: Search the X on the treasure card signing post in Junk Junction - 3 Battle Star Deal (100) damages within 10 seconds of landing after using a Volcano Vent - 10 Battle Stars Eliminate (2) opponents closer than 5m away - 10 Battle Stars launch by flaming hoops with a cannon - read here for our guide. Harvest a lot of fabrics: Pretty simple, that. Land somewhere out of the way and go to town with the pickaxe: rinse and repeat. Convert 3 opponents at chantled towers or the Block: Take this opportunity to visit cheled towers because it may be your last chance to do so. It looks like the venerable Fortnite drop zone is likely to get equal with the huge Volcano eruption (probably Saturday), and so it's a chance to drop in and get some eliminations. As usual, respawn modes are a much easier way to do these things. Trade 500 damage with an Infantry gun or heavy assault rife: Both of these are medium-range weapons, although they function fairly differently. The infantry gun is about precision, so choose your shots well, squat and make sure zero the faces in. The Heavy assault ceiling should also be aimed at, but it is an automatic weapon. This means that you can probably wreck some damage by hanging out near a firefight in Team Rumble and just leaving. Find the Treasure Map Post: See here for our guide. Trade 100 damage within 10 seconds of landing after using a Volcano Vent: An interesting one, this one. Team Rumble, as usual, is your friend, but it's a challenge that clearly wants close range. I'll get a shotgun or something similar and then just try to land as close to the back of someone's head as possible. 10 seconds gives you a little leeway, but not much. Switch 2 opponents closer than 5m away: Shotgun, shotgun, shotgun. Honestly, the best strategy for this is the same as the volcano vent challenge: try to sneakily land right next to someone and then fire away. Away.
