Bollywood actress Priyanka Chopra is set to marry her rumored Los Angeles boyfriend if the media is to believe it. Rumors are abuzz with speculation that Chopra, who is currently busy filming for the American TV series quantico, has been dating non-residents indian (NRI) based in the US, according to Pinkvilla.Seeing, as her wedding is going up, and supposedly soon, you may be surprised to have. Since Siddharth will attend his sister's wedding and will serve as one of, you will probably want more information about him. Siddharth is Priyanka's only brother, he is younger than her, and they have the sweetest kinship. All you have to do is scroll through Priyanka's Instagram to see how much she adores her family, especially Siddharth. The Baywatch actor has shared several photos with her brother, and she also can't help but praise him in the process. For example, in July she published a series on Siddharth's birthday. Next to the images, she sweetly wrote: 'Hey, hey lil bro. The happiest birthday and all my love and luck. You've become such a special person. I'm so proud of you and I love you. You remind me of my father like that. Thanks for your kindness and epic party last night! I'll see you when I get back. Make sure you scroll through the messages because Priyanka also shares two boomerangs that show your funny side as a sister and brother. As for her comment about their father, it was understandably a heavy loss for the actor. In September 2014, she told The Hollywood Reporter how she directs her grief: Every night I come home and my mom would say, just go into the bathtub and I cried. Every night I'd say 'I don't think I can do it. And every morning I would wake up and say, Why not? I can do that. No matter how hard her father's death was, there was a family next to her. In August, she posted another Instagram with her younger brother and wrote: 'I have an army of brothers and this @siddharthchopra9 turns out to be the leader of the pack (default) :p Happy #Rakshabandhan! Who priyanka Chopra Is one of my favorite festivals where a sister ties a sacred thread around her brother's wrist for protection, a symbol of the beautiful bond between siblings. I can't imagine life without my brothers in my corner. Love you guys! Apart from their close relationship, little is known about Siddart. Still, as far as she can. During an August panel called Calling the Status quo and forging new paths (via E! News), Priyanka said: My whole life - my personal life - is not for public consumption. Ninety percent of my life is for public consumption, but 10 percent for me. I'm a girl; I have the right to keep it to myself. She continued: My family, my friendship and relationship things I don't think I need to defend or Anyone. I'm not running for president, so I don't think I need to give an explanation.' As she told E! News in September: We've known each other for a few years, but we've been dating for a while. But I think that's one thing we really connect on is our love for family and knowing faith is so important to us. There is no denying that family is important to her. It's beautiful to see how much she loves Siddharth and how close the bond they share. One can only imagine how special Priyanka's wedding will be for both of them.
