Pharmacology clear and simple

The basic review of mathematics helps students learn to perform the calculations necessary to administer the drugs correctly. The Master the Essentials tables cover side effects, precautions, contraindications and interactions for each classification. The drug classification review tables reinforce the information needed to know in each class. The Boxes A closer look examine important information in detail. Review questions throughout each chapter promote understanding and help students preserve and apply information. Coverage of specific drugs provides context for learning drug classifications. Critical thinking exercises encourage students to think beyond the chapter and apply their new knowledge to real life scenarios. The application exercises and review questions at the end of each chapter reinforce learning. 2 books in one! - Pharmacology - Dosage calculations Save time and money with two books in one!
