Downloads: 144,500 - Customer Rating: (4.3/5) Mad Bullets Mad Bullets App - this is an arcade, action takes place in the Wild West. You, as a good guy, will have to destroy the bandits, save the unfortunate girls and collect gold and money as a reward. Gameplay and rules. First-person action in the app. The movement is automatic, you don't need to push the arrow forward or do any other manipulation. All it takes is to shoot the suddenly appearing bad guys. There are also civilians on the road and you can't shoot them. You will find boxes and bags everywhere. They contain money and you will take points for them. Be careful! Armed criminals attack you in return. If you don't have time to kill the enemy before he attacks, the target on the weapon flies at you - so you will remain unscathed. Mad Bullets has tips: the bullets are over - tooltip will show that you need to top up the store. There was a strange character - a green line around him will say that it is a civilian. You can also choose arcade levels from a light run-in with a small number of bandits to a complex game in which an attack occurs every second. By fulfilling the mission, the surroundings around and the enemies will change. Design. The graphics in the app are pretty simple. However, this does not deprive the game of color and atmosphere. Characters perform only one repetitive action (at high speed you won't notice minimal animation of characters trying to focus on the mission). The melody of the game is thematic and adds excitement during the shootout. Downloads: 75,700 - Customer rating: (4.4 / 5) MAD ZOMBIE MAD ZOMBIE IS A first-person shooting range where you need to confront a crowd of walking dead. Act as the last protective barrier between healthy people and zombies. Take a cool gun and fight back against enemies. Try not to let the dead close, aim and shoot only in the head, earning more points. Move through the dilapidated streets of major cities, look into buildings, help people who find themselves in a difficult situation. Pistols, sniper rifles, rapid-fire machine guns, shotguns, grenades and more will be in the hands of the main character. Complete tasks, earn game currency and spend it on buying new weapons, equipment and improve the basic characteristics of your warrior. In general, MAD ZOMBIE is an entertaining action game, although the concept is not original. And while this game doesn't stand out in any particular area, it offers a good gaming experience. And indeed, in the war, which we are offered by the developers of this game, there are heroes, and there are many of them, given the scale of the battles. This game will bring a lot of fun to all fans of games similar to Dota, although not everything is worked out in such detail, as it was done in the aforementioned game. However, the developers are trying to make it more perfect. Gameplay. You are offered a multiplayer strategy in real time, in which you and your team will be offered to break through the enemy's defenses and crush his base. There are many game modes and team-ups, but the essence is always the same - there are two teams of heroes, who are given three routes to lead their way to victory. Each character is unique and has unique abilities, strengthening, commanding or attacking, but never repeating. Choose your hero, and hone the skill of its use in combat conditions to the ideal, and then no battle will be lost. Is there an unquenchable desire to think through some cunning tactical plans and put them into practice? Then you need to download the legendary heroes on Android and go to the gun shop for a brand new weapon - the enemy is coming... Brave soldiers, trained in army art, can be found in the daytime, and then there are not enemy soldiers, and some monsters devouring people! Combat system. BloodWarrior is a fantastic action movie with increased cruelty and unusually realistic graphics. Events are progressing slowly - some places need to be transferred several times to extract the best items and gain additional experience. Battles are active - the hero famously waving his sword, activates his abilities and turns into an overgrown killer who cuts his enemies to pieces. Development and regimes. For every level passed in BloodWarrior for Android you will get a reward - magic pants, wooden boots, sweet potions, in general, any items that increase the starting characteristics and increase the chances of winning. The more time is spent in battle, the stronger the character becomes. Unfortunately, behind the interesting mechanics is often a void - there is only one class, and rivals Repeated. And yet BloodWarrior on Android is worth downloading, at least because of the bloody mess! Downloads: 22,000 - Customer rating: (4.2 / 5) 5
