[Chorus]

I can just watch you dance all night
And you would never let me down (down)
You could never let me down (Crush)
I can fall in love wit' you all night
And you would never let me down (down)
A crush is my favorite sound (Crush)

[Verse 1]

I never planned to crush
But I'm saying all them things to make you blush
(blush)
This is such a rush (hum)
Blood to the **head** like I'm upside down
Let you cool down, you ain't a tough guy (Say that)
Unless you looking for a rough ride
Poppin' wheelies in the sunshine, play that
Put you on my BMX, feel like a Maybach
Ooh, throw it back just like a 8 track

[Pre-Chorus]

Marvin Gaye, we do it your way

Usher Raymond, do it my way

What happens when you stick that jam in the middle
of the yams ?(Crush)

[Chorus]

I can just watch you dance all night

And you would never let me down

You could never let me down (Crush)

I can fall in love wit' you all night

And you would never let me down (down)

A crush is my favorite sound (Crush)

[Verse 2]

You just running through my **brain**

On it like dew on the window pain

7AM, we was up all night

I was watching you dance in pale moonlight

Everything looked good, easy

I don't wanna get misunderstood, believe me

I've been crushing way too long, I can't wait no more

Get the horses out the stables, now we really taking

off

Usher Raymond, do it my way

What happens when you stick that jam in the middle
of the yams ?(Crush)
