Instant power main line cleaner walmart

The majority of kitchen sink clogs are often the result of the accumulation of grease in the sewer pipe. Even if you pour hot water into your drain as soon as the grease is poured, it will still harden and turn into solids that block your pipe especially if it sticks to other particles that you have thrown into the system. The Main Cleaner Series Contains Sodium Hydroxide NaOH and Potassium Hydroxide KOH. These two chemicals react with grease in drain pipes and transform them in Soap (Dissolved in water). If the line is clogged, you must use a snake through, so that the machine unclog it. In some serious causes you have dismantled some parts of the tube, and after using this product. When the water in your kitchen sink flows slowly use this product. Used 4 times by 1 quart portion it is better than using all 1 gallon container in one treatment. Remember that the treatment transforms the grease in water-soluble soap, but the water melt washes the soap, so you need at least 4 treatments for slow-draining kitchen sinks. The best use of this product is prevention; use 16 oz parts every r 3 weeks or so, so that it does not disturb Overnight.Keep in mind that there are other mechanical obstructions of the drainage pipe, in the most common case the roots of plants. In this case, if you don't re-run a new sewer line, that costs me up to \$35000 you have to cut down the tree, if it's too big and near the sewer line. In my case, I had to cut off three giant mulberry tees, kill stumps and roots with a mixture of TORDON and Ethylene Glycol, and kill the roots inside the sewer with Copper Sulfate, and Baking Soda using a special foam nozzle. After many treatments, Roto-Rooter Plumbing inspected my 100Ft sewer line and established it clean. (don't forget to use your camera to record the display at Rooter Plumbing Monitor). Every month, or as needed, I treat the kitchen and bathtub with Instant Power Main Line Cleaner as a preventive care. I treat the drainage line with copper sulfate every 2 months or so. Copper Sulfate is very expensive, but I bought it on the wholesale line in large quantities for a fraction of the retail price. The cleaning of baking soda is cheap but if you want to use this procedure to be aware.1 - If part of the drain line is iron, you must pass this section through a Pex.2 tube - the procedure with nozzle, which I did alone with 4 plastic tubes and accessories, was operated very carefully if you did not want to finish with a foot , dark blue foam, throughout your basement. The secret is, first inject soda, and after copper sulfate (alternating with quarterly amounts, saturated solutions). Read what others are saying I do not know how I can thank you. Three times now I've had a blockage and it always seems to be a weekend or a period when calling a plumber, it costs a fortune. But without fail every time, your product (cleaner mainstream) has always come across for me me saved me a ton of money!!!! As I said, can't thank you enough!! -Amy C. Typically, I have observed that dissatisfaction with a service or product is immediately acted through verbal/written complaints to management or by returning goods to get money back. However, the use of the product on reference (crystal lye drain opener) has proven to be above average in reducing clogged condition, and, I am forced to speak up my overall satisfaction—the availability of such a fast acting product at a reasonable cost!! I know that many other independent elderly people experience simple to moderately clogged drains, and, not knowing what else to do, they will often dial up a plumber from yellow pages and end up paying high service call fees and other unnecessary expenses. As part of various cognitive sources, I will get literacy about this new product found that can also be applied sometimes to prevent sluggish buildup in the drainage system. Patricia Buford from Rome, Georgia I bought a bottle at Walmart. Pour it down the drain at my lunchtime. Back home after work and the drain has run great! This tool really works. Mitch K. Dear Sir, I don't regularly send an e-mail to a company regarding their product whether it's good or bad but I just have to let you know that this week I tried 3 different products to open a drain in my sink and you are the only one that works. I tried Draino, Liquid Plumr and yours. Yours succeeded!!!! I have a small private show dog c dog and some times have problems with the accumulation of hair in the cede sewer. Your product will be on my shelves in the future. -Paula R., Who Reached Kennels This is the best product I've ever used for a clogged drain. The result is immediate. I did, however, leave it overnight and pour hot water down the drain as instructed the next morning. Just unbelievably bright great product. -Linda M from Meadville, PA After Roto Rooter asked for \$699 to open my mainstream I went online. I found your product and bought two bottles a gallon. I poured them into the main sewer and waited about 20 hours, discharged it and the drain was cleared. Thank you. (costs less than \$23.00) I have seen some reviews that show that it does not work and are reimbursed for their purchase price. What will be some reason that congestion remains? I suspect that it is not because they did not follow the tutorial as there is really no direction other than dumping it down the drain. -Thomas Ragusa I bought an Instant Power Slow Drain vase and used it on a very slow drain bathroom sink. I tried some products from time to time for this problem and no one worked. With your guarantee I tried your product for each tutorial and WOW!! It dynamics such as ads. I've been a Happy Camper ever since! Thank you Instant Power Corp! Peter D. from Mt. Holly, Ohio Hi. I tell you I'm a very happy I have very long hair that actually clogs my sink and bathtub. I bought your product (hair removal clogging) based on the advertising guarantee on the bottle. I let it work overnight and it worked incredible. I will always make sure I have your product on hand for when a blockage occurs again. Thank you! -From Chris Bishop I rarely take time to express appreciating for a product that does what it is advertised to do, but I'm making an exception today. I bought Instant Power Hair and your Grease Drain Cleaner to open a shower drain that was against all other attempts to fix. I tried a double shot of Liquid Plumber Heavy Duty so that unsuccessfully, the drain would have standing water after trying to flush out the blockage. No amount of tuberculosis, or even using a snake will release the drain. The cable comes out covered with black fat, built from what I don't know. I tried your product after being urged by a friend, and after reading other people's reviews on your site. I don't usually believe all those reviews as I know that many companies pay to have someone write them. But they were convincing enough to try your product. I used to have the bottle as directed, let it sit for about 6 hours and pour a hot teapot down the drain, (did this often with the liquid plumber so that to no end there was no result). When the water started filling the sewers into the shower counter, I was worried that your product wasn't working, then suddenly, the water just came out like I was flushing a toilet. I kept running hot water and it was drained like a new pipe. I used the other half of the bottle on the slow drain bathroom sink, and it too cleared the blockage partly. Thank you for saving me from paying some uprooting companies, who know how much, to do something that your great product has to take care of easily. -Bill P. from Covina, CA Hi I just wanted to give a brief testimony about your product, hair and fat. I woke up to find no water in my home this past Friday, 20/20/2015 due to a deep freeze we are having on the East Coast. I immediately thought it was pipe freezing so I said oh boy I would have to pay a lot of money to fix this problem. So then I looked online for tribute openers and after looking at a few products, I came across a bottle of Instant Power Hair & Grease and after reading it, I went to the local Home Depot and bought it. I then took it home and poured it into the bathtub and bathroom sink and after waiting 15 minutes I was surprised to see water flowing all over my house! This product works great! it is one of the best products I have ever brought and it has saved me hundreds of dollars! Thanks again! Ivan. Galloway, N.J. I just want to thank you for your product. My household had a blockage that was just past the junction where the laundry/gadget sank the feed into the pipe that came down from the kitchen This has caused sink gadgets to back up whenever we have made dishes or laundry. We tried liquid plumber and draino crystals. I tried to snake it with a handheld snake, but because it took over a T-bend the snake wouldn't turn the corner. We own a few cats and dogs and wash blankets, beds and carpets. I suspect a combination of clay dust from garbage, pet fur, grease from the kitchen sink, and other things do quite a blockage that we just can't seem to get to parting. Water will eventually drain, but should never be slow. We've been holding back on doing laundry for quite some days now because of congestion. Tonight my mom went out in a snowstorm and came back with your hair & fat clogging liquid parting. It finally worked. There is no standing water when we use it. After we used it, we ran a laundry load and the water just flowed down like a whirlpool. I was surprised when I had to call my mother down to the basement to see the water go down. I was very pleased with the effectiveness of your product, I had to write to say thank you. Next time we have a blockage I will save money and remember to get your product right away. -Melanie F from Baltimore MD I've never done this before but your heavy duty tribute opener worked so well that I wanted to thank you. Your product advertised that it would work no matter what and it did. My bathroom sink has been clogged so it will barely drain anymore, it now works better than the new thank you so much I will be using your company's products from now on. -From Joshua C. Just want to tell you how your disposer and cleaner drain work. We bought this house about a year ago. It was built in 1950 and still has the original pipeline. We had the new kitchen installed with a handle. I think since I have been using disposal for a year I should clean it. Well your product not only disposal cleaning it cleaning that old pipes very well I had to replace them. OMG mud that's in those lines is terrible, smells bad and a big pan of crap literally stops up pipes. I'm glad we used your product because it adverted a much bigger problem. I'll use your product monthly now so this doesn't happen again. It definitely does the job! -Pat P. from Baltimore, Md. I just want to let you guys know that your product is awesome! I tried everything, and nothing seemed to make the drain in my shower really drain. I was initially hesitation about buying your product since I had no previous experience with it nor have I heard anyone mention it. I was also an avid couponer, so I hated that I had to pay the sale price on something I wasn't sure about. After using products that clog my hair remover, my drain is back to perfect! Your product will definitely be on my radar from now on and will be my first choice if I ever need it again! I'll be spreading the word to those around me as well! Good! you a lot! -Amber D from Stantonsburg, N.C. This is a thank you for such a great product. I had a completely clogged drain and tried many things to fix it. Drano, pistons, hot water, auger drains, acids, etc. And nothing effective. I bought your heavy drain cleaner and after two applications and let it sit for about an hour, the drain was clear. Thank you for such a great product and save me hundreds on an upcoming plumber. Will definitely recommend this to everything I know. - From M. Bass I live in a house built in 1927. I've lived here a year. Six months in, my main sewer plugged in. So I did the natural thing and called a service to run a motor drain auger to clean it out. It works but costs about \$400. But, the line has been deleted and works properly. Six months later, the same thing happened. I did a load of laundry and realized as the washing water emptied that the mainstream was blocked again. I went online to see if there were any other options as I really didn't want to spend another \$400. Lo and behold, I found your mainstream clean mentioned on a few different large box store sites. I noticed that the reviews are mostly very positive. For \$11 and a full money back guarantee I figured I couldn't take. I poured the whole gallon down the cleanout and let it sit in the drain overnight for 8 hours. I woke up to see no improvement. Taking a chance, I started running hot water from the nearest tap. After about five minutes, I heard a gurgling sound coming from the basement. Sure enough, the water in the basement quickly went down to the floor drain!! It succeeded!!! I couldn't be happier with the performance of this product and would highly recommend it to those who are in this situation. -Joe B., Rochester, N.Y. I bought hair and grease drain cleaner over the weekend. After spending a ton of money on drano and liquid plumbers over the past year with complete inaction, I think this will just be a waste of money. However, to my surprise this product really worked!!!!!! I wish that I had found this product before I spent all that money on products that didn't work. Thank you so much for clearing my bathtub and sink drain. I would defiantly recommend this product to anyone and buy it again. -Roby R from Fairview Park, OH A few years ago, I bought a bottle of your Instant Power Hair Clog Remover. I bought it just in case I'll ever need it and because, the way the bottle looks, it looks like it's a good product (LOL). My kitchen sink has been slow for quite some time, and this morning it was completely clogged and we could do anything to get it to unclog. My husband said, "We're going to have to call the repairman. Water. I told him to wait for me to find what I had in the house. I think it may not work because it's already too old. I did not read the utorial properly and I poured down the sewer with water not in it yet. A few seconds later, I found that I was suppose to get rid of water. It didn't matter that I was leaving water in it, because within a few minutes my problem was solved. These are absolutely the best plumbing products I've ever witnessed, and I've been around for some time. Please do not change the formula. Usually, when I find a good product, they change the recipe and mess it up! -Vetrea, R from Harvest, Alabama It took four gallons (of the cleaner mainstream) and three applications, and we got it!!!! We fought it for six days, during Thanksgiving, I was very little, so I was the rat sewer, it was 23 degrees outside, and I wasn't recommended! Another trip to Home Depot, add 2 gallons, apply all at once, 8 hours later, LOTS hot water, it backs up and backs up, and then it cuts loose! Have! I'm 74 years old and I'm not having any more fun. So thank you!!! -Jigger D. from Neilton, VA I had a drainage problem in our bathtub for almost 2 months. I tried Drano, liquid plumber and many other products until I saw Hair Clog Remover. I thought to myself why not try it, it can not hurt. Well, I did and I'll tell you which is the best blockage remover. You saved me from calling the plumber. I just want to say Thank you -Laura M. from Pacoima, CA I'm forced to share a little positive feedback with you. For the background, a few years ago, I used your Main Line Cleaner product on my heavily stuck main sewer line. Three applications, carefully for each tutorial, did not open it, and I was forced to make concessions and call a plumber. As it turned out, it was a fairly heavy root encroachment that required a heavy industrial snake to drill it out. Disappointed, I took advantage of your guarantee, sent you receipts for three gallons of the product, and you kindly and quickly sent me a full refund of my purchase price. If I'm not happy with the product, I was definitely more than impressed with your support for it, and your quickness in honoring my claim. With that in mind, last week I had a complete congestion in the side line from my laundry room. I tried a few doses of crystal drano, my cheap host snake and a lot of elbow fat, and absolutely couldn't budge it. I was down to call a plumber, an act I feared. Based on your level of support for your product last time, I decided to try your Main Line Cleaner again, feeling assured that I had nothing to lose. I let it sit for a day, hit it with hot water, and it broke free and drained! I just finished testing it with a load of laundry, and it seems perfectly healthy now. Time it "did" do its job, did it well, and it saved me a costly visit from a plumber. I'm "very" pleased, and I just think I should let you know. John Eads. I was skeptical when I bought this product, but I think with 100% money make sure it either has to work or I'll get my money back. I bought 2 bottles of maximum drano gel and 1 bottle of liquid plumber and couldn't remove the blockages I had. I poured the whole bottle of hair and fat down my drain. I had no idea what kind of blockage I had, but it must have been bad if other products didn't work. Well the next morning when we took our bath, I was surprised there was no water filling the bathtub. IT SUCCEEDED! This is the ONLY product I will ever use again and recommend to all my friends. Thank you -Marisa E. from Greensburg, PA I just bought a house without knowing I was literally constipated, there was a solid 6 feet of congestion waste in the sewage sewer. After searching around for a tool that I can hire, I came across your website and cleaned your mainstream. After following your instructions, and waiting 8 hours for it to do its job, I poured boiling water into the sewer. I was shocked to see how quickly the sewer was empty. I opened the plug clean and the pipe was cleared. I defiantly would like to introduce this product. P.S. I have a mixture of cast iron and cpvc tubes and none of them have been affected. -Joseph J. from West Warwick, R.R. Just wanted to let you know that I recently bought your product at Walmart because we had a big hair clogging in our shower. I bought it because it is the only product for sale that is specific to hair clogs and also because of the guarantee. Honestly, I really don't think it will work because hair congestion is pretty bad. I figured I had nothing to lose because of money back guarantees but thought I would just call a plumber. Well, I can say ... I was surprised!!! It took two different apps to get the drain cleared but it worked! I can't recall a time in my life when I was more impressed by a product!! I will definitely recommend your product to my family and friends. - Debi C. from Kennewick, WA It's FABULOUS..... You're my last hope before you call the plumber. We bought our home in August and have suffered with slow drainage in the main bath. I tried other products without success and decided to try a final store product before spending big bucks to get it fixed. I followed the instructions and left the product clogging the hair remover for more than the night and the next morning to my surprise the drain was completely unclogged. We're believers! -Beverly J from Peoria, AZ OMG!!! it worked, it worked exactly as you said it would. . I was extremely skeptical, even read all the reviews ... I bought 2 bottles of mainstream detergent at Home Depot AFTER, snaking the line, taking the kitchen sink apart, and trying to clean vents on the roof. add a bottle of drano somewhere in it and NOTHING!! 1 bottle of your product, 8 hours, and 2 pots of boiling water and we are on the fast track again... thank you very much, I'll keep other bottles on hand.. Hand.. am going to recommend your product to EVERYONE I know. from a single mother on a tight budget, THANK YOU!!! - Jennifer Kettler from PA I told myself to do this for several weeks and just put it off. I'm writing to tell you how GREAT your hair Clog remover works. I'm tired of using Drain o some time in my bath and while it drains a little better in a while never do great drains. Well, we were at Walmart to get a bottle drain o my wife & I saw your product with guarantees on the bottle so we both said why not if it doesn't work it's free. Well after using it ONCE I can understand why you guarantee it. It cleared the blockage completely and didn't even have to use it again and was a few weeks ago, where if it had been drained o would have done it again. Thanks for a great product, we told many people about it. -Sincerely George Anderson I just want to let you know that I am really happy with your product. We have lived in this house for 18yrs and have always had a problem with the way the bathtub drains in the bathroom. We tried all kinds of products and we had snaked drains, we changed the pipes in the drain and the slope and day and day. We used your heavy drain cleaner and let it sit for an hour, nothing, water just sat there. I let it figuring we would have to take the pipes apart again, a few hours later I went to the bathroom and noticed the bathtub was empty and dry, so I ran the water and it went down the drain, I let it run for a few minutes and it never once lumped in the bathtub. The best part about your product is that it is not a one-time product, there are enough products for four uses. Thank you so much for having such a great product that really works. -Margaret R. from Neosho, MO I am very impressed with your product (clogging remover hair)! We had a very bad blockage in our bathtub. Twice we tried Drano and used the whole bottle to no end! I let your product sit overnight and have great results! NO MORE CONGESTION! I also use it in our sink and work very well too! Your guarantee is great but I won't be using it. Thanks again for a great product! Will be using it again. -Kevin H. from Southgate, MI Dear Instant Power Corp., Want to let you know I don't need a refund nor do I have any complaints. I had a fat jam at least 15 feet down my drain. I know this because that's as long as my drain auger is and I still can't make it unclogged. I know it's fat because the auger's head has fat in it when I pull it out. Your products Instant electric hair and grease remover) work like a charm! Be sure to know that I want to use it again and I'll make it a point to tell everyone I know. Tell your marketing and advertising department that they can take a break the next few weeks, Dougs out plugging in (no pun intended) your product. Thanks again. -Doug Langeberg This product Bowl Restorer) is the best I've ever used. Where can I get it locally? I bought it originally from a store. - Hilda L. from Wynnewood, Pa WOW!!!!!! YOUR PRODUCT, INSTANT ELECTRIC HAIR CLOG REMOVER REALLY WORKS!!!! I let it sit in the sewer overnight and WOW, no clogged drain! I tried other products and nothing seemed to work. It is nice to see good products on the market that do what they claim to do. Thank you for such a good product. - Beverly from Sun City West, AZ I can't believe it! I fought with rust stains in my bathroom for 12 years! We even removed the toilet and put in new ones because the stains were so bad, and we tried everything. Now my NEW toilet is terrible! Your products (toilet bowl restorer) clean them in two treatments! Thank you, Thank you!! -Bobbie Pierce I'm writing to tell you what a great product this is. I have been using it for a few years now and it is super. The first time I used it, I was standing ankle deep in the water but after pouring some into the drain it was cleared out in just a few minutes. Good job -Mary D from Solon, Ohio I want to congratulate you on the great product that I just discovered. I'm not sure if I've just skipped your product or if my store has just started carrying Clog hair products but I'll use nothing but you from now on. My daughter has an Australian Shepperd miniature being trained as a farm. No need to say, Izzy needs to be bathed regularly and usually in my bathtub. I've used many of your competitors to try unclog tribute, nothing! But the first time I used your product ... Wow! The congestion is gone. Again, thank you for a product that really doesn't like it promises. -Patti E. from Munfordville, Ky. Just wanted to drop a message and say thank you for the great product. I've been fighting my bathtub drain for a while now with different dranos, trying to push water through it on both heads, etc. I bought bleach clogging your hair at Walmart that says guarantee or my money back. Just wanted to say thank you, my bathtub is well drained now. -Mark P. from Louisiana Just thought I would comment that I am 100% satisfied with your product (duty heavy drain opener) and would like to thank you for saving me the cost of having a plumber clear a stubborn blockage from the washing machine sewer. It only takes one app. Donald E. to Hair & Grease, to wit, Fixodent Sticky Dentures. I had clogs periodically in my bathroom sink where I cleaned my dentures on old adhesives every night. I tried boiling water, baking soda and hot vinegar with

indifferent success. A four-hour soak with Instant Power Hair & Grease and it runs New! It was recommended by a floor saleswoman at Orchard Supply in Sand City, CA. -Craig C. This product works absolutely amazing! No slower bath drain has given you 5 star guys with homedpot and good look. - Abel D. D. Newark I just want you to know how satisfied I am with your product. I tried a lot of other cleaners and none of them were getting rid of the harsh iron stains in my toilet bowl. I gave up hope until I saw your product in Menards and decided to try it. I'm definitely glad I did. It removes all stains! Thank you. -Sherry B. from Alma, Michigan Hi, I just want to thank you for a great product! I had a way of clogging down in the basement from my kitchen sink. I tried a heavy snake but it just seemed to pack the congestion more tightly. I thought I'd have to dis-assemble the pipe to get at it, then I saw your product (heavy duty drain opener) at Wal-Mart. I figured for only about 4 bucks I could also give it a try. I put about half a bottle in and let it sit for about 24 hours. After 24 hours I filled the sink with hot water ... still clogged I think ... then whoosh drainage like crazy!! I can't believe it, a product that really works! Save me a ton of trouble and clutter, glad I found your great product. Thanks again:) -RS Buchholz from Wilton, WI I had problems with slow drainage sinks as there is everyone. Use repeated various sewer cleaners which are best NO Good. After a few bottles it might finally drain. However, I found your product at Wal Mart. Back home and using an app and my astonished drain unfolded and flowed freely!!!! Three thumbs up for your product. made a believer/client out of me. -Ray M. from Texas I would like to e-mail you directly and extend my praise to you and your company for the professionalism and dedication of our customers. I recently bought 2 gallons of your main Line Cleaner to assist with a drain backup issue I had in my home. I saw the Money Back Guarantee card on the bottle but honestly held out little hope that your product wouldn't work that it would be worth pursuing. After using the product according to the instructions and doing a second treatment my main supplement remained clogged and it took a second visit by a plumber to do the trick. In no way however I feel your product is inferior. However I sent my receipt to take advantage of your assurance, assuming it could be a useless gesture. Yesterday, check your refund appears in my mail. I was surprised at the kind of customer dedication and willingness to stand behind a promise that appears to be a lost art in many corporations, but clearly not at Instant Power Corporation. I would also like to tell you there are now 2 new bottles of your product in the floor and I will use them over a period of 3 months to keep my mainstream clean going forward. Also, over the weekend, I recommended your product line to a friend who has experienced similar problems with his drain and in case your product works as ad saves him a big bill from a Again, my praise for your service and willingness to stand behind your product. You have made a long-term client out of me and I will not hesitate to recommend your product to friends and family. Continue to be successful in the future. Patrick C. from Baltimore, MD I am writing to THANK YOU to create a product that WORKS! I can't begin to tell you how much money I've wasted on other brands. Keep up the great work! A very satisfied user for the first time and now the customer. - Roses K. Dear Sir/Madam, Hair Clog Remover is a great product. I had a bathroom sink stopped for about 6 weeks. I tried two of the famous brands nationwide advertised on TV and didn't work. I tried to solid drain and plunge it and nothing worked. Eventually I had to put a small basin under the aspect in case I forgot and turned on the. I supported themselves and got out of work so I couldn't afford a plumber. I have long hair and I am very careful not to let my hair go down the shower drain but somehow the bathroom sink has been clogged. Last night I was at Wal-Mart in Milford, CT and I was looking at the products opening the drain, not them I planned to waste money anymore. I saw a red bottle that said Hair Clog Remover and it had a guarantee so I thought I would try it. I put it in the sewer and leave it for 3 1 / 2 hours although the instructions say that overnight is the best. Then I ran hot water for about 5 minutes. I was surprised that it worked. This is the first time I have seen your product in any store. I'm happy to have your product in my store. Sincerely, -Sally Anne H. I would like to send an testimony about the Cleaner Mainstream. Where am I going to do it so PEOPLE can see it??? I LIKE THIS TOOL!!! There was a nightmare that I really thought would run me hundreds of dollars (actually did cost me \$100 when I made the mistake of calling my home warranty company and they sent a shyster plumber that was absolutely nothing!!). Buy Main Line Cleaner as it offers a 100% cash back guarantee. I followed the instructions (had to use 3 gallons in my kitchen drain, bathroom sink and bathtub/toilet). After let it sit for 10 hours, I did what some other reviews say to do and actually boiled water to run down the drain. I also had to put some big plunges into the bathtub and toilet but after about 8 large pots of boiling water and tuberculosis, it started running slowly at first, then there it went!!! The toilet is now flushed without hearing it gurgling in the sink or backing up in the bathtub. I can run water in the kitchen without filling the bathtub and can bathe without dirty bathing at the same time!! I'm still running boiling water down for a short time just to make sure it was clear but I could actually go home with a smile on my face instead of going home worried about this will cost me. I really thought maybe a small creature could have somehow crawled in line when it was too cold here to keep warm causing all of a sudden to happen right after the first freeze but anything that was stopping the water flowing seemed to be a distant memory!! THANK YOU IMMEDIATELY ELECTRIC!! Nancy B. I just want to let you know, this tool (Heavy Duty Drain Opener) really works. I was very skeptical, as other products do not. So when I saw your 100% guarantee, I bought it, tried and it works just like said. Thank you so much! -Bonnie B. from Orange Park, FL I went to Home Depot and looked at what was available and since our clogged shower drain seemed to be the worst case ever for us, we chose your Main Line product... Do not really want to use chemicals at all, but feel we have no choice ... other than to call a plumber, which I definitely do not want to do ... We don't have a slow drainage system - there's been a complete stop - there's no drainage... so I emptied himself out from the bathroom floor and then sucked up from the pipe as far as I could... and then I poured into the liquid ... can not empty it all in one go, but was surprised to see the level of sinking and allowed more until the container was used up ... Let it sit overnight ... The morning after I boiled the water and poured in - two large pots ... did not back up ...! Then I took the hose and forced the water down the drainage - not a hint of resistance or backup ... The problem has been solved! Now I do not need to call the plumber's brother except to tell him this product works!!!!!! Gunnar About every year or two we would have a backup in our mainstream and tried different chemical treatments, but none of them worked. My brother is a plumber and will have to solid nearly 100 ft. mainstream which usually takes 2 hours each time to release congestion. He suspects there is a belly in the line somewhere that can accumulate grease, debris, toilet paper, and other things that would normally break quickly. My wife read about this product (cleaner mainstream) and I bought 2 gallons to try. I poured a whole gallon at night and in the morning poured about 4 gallons of boiling water followed by hot water. After a few minutes it backs up again. I waited another 10 minutes and checked, to my surprise the water had receded. Next is 10 minutes of hot water and clear lines. Now I do not need to call the plumber's brother except to tell him this product works!!!!!! Mark B. I bought sanitary tank cleaners through QCI online and it is, by far, the most incredible cleaner ever. I was really surprised how this product cleans the tank for clean sparkle. What a great product. Thank you. -Jackie T. from Camano Island, WA I just want to say thank you so much for your product. I had a congested mainstream in my house for about 4 days and nothing worked, I came to your product crashes me when I was looking to try and fix my self problems before calling a plumber, and deciding what heck I have to lose. I bought your product for just 10.00 at Wal-Mart, poured it down the drain waiting 8 hours and flushed it with boiling hot water, and to my SURPRISE I could run the water again. So I just want to say THANK YOU SO VERY MUCH. I will tell everyone about this product. and if I ever go through this problem again your product, I'll try it first. THANK YOU THANK YOU THANK YOU!!!!!!!!!!!! Jamie H. from Fulton, N.Y. I have a shower without fail to stop draining around once a month, I tried solid, tap water with an electric tip to try and blast it open, NOPE. The first time I used the heavy duty drain opener I poured about 1/2 of the bottle (the tutorial says 1/4 will work, no it says guaranteed to work! I believe it!!!) I leave it in all night & in the morning turn on the hot water & let my lo & behold it drain immediately. This is a great !!! -Russell P. from Pasadena, TX I live in a 48-year-old house in suburban Maryland with pipes that are not what they used to be. My bathroom tube has troubled me for ages but I have been able to keep the bathtub and toilet clear and work smoothly with occasionally pouring bleach. The bathroom sink began clogging about 6 months ago, although I shaved in the bathroom, and it continued to get worse. I tried Drano and Liquid Plumber with little success so I decided to get a friend with a snake to clear the pipe. He went out of town for Spring Break so it was time to try a gallon of Main Line Cleaner as a last resort. There was a money back guarantee so I figured I had nothing to lose. I follow the religious instructions and holy cow-it works beautifully. I used boiling water from the kettle instead of just hot water to get the job done because other clients reported better results with boiling water. P.S. Please give your chemistry a fat boost. They deserve it! Leo H. From a woman with thick hair that 'sheds' regularly - thank you for an easy-to-use, effective product. I didn't know my drain could run too fast! Will recommend to friends and family. -Kristen W. from Sartell, MN I bought MANY clogs of products. This is the best product that works quickly and best ever. Left it overnight as indicated on the bottle and wow the first thing in the morning cleared it up. Never in the past experienced any active product. I have also suggested to family and friends not to buy any other. Just wanted to share my experience! Instant Power -Susie O. from Chula Vista, CA Wow... Not responding to a guaranteed money back but I write to let your company know that yes and this product action works!!! Immediately! Once I Pour The Drain Opener (Hair Clog Remover) Remover) kitchen sink, in seconds the water has gone down and has not been clogged. Thank you for a great job. -L. Watkins- Scotch Plains, N.J. No refunds are required here! I tried your Hair Clog Remover and it worked like a charm. I tried Drano 3 times but without success. Your product I use only once and the bathtub is drained -G. Kramp- Fairview Park, OH I'm a grump. I write so many companies to let them know I think their products are pretty junky. I justify this by praising folks who give things that are good, without or tastes as it should. Instant Power ensures your hair & fat drain opener did the trick & opened my clogged bathroom sink drain like grease lightning! -A. Norton- Menlo Park, CA My husband and I would like to say thank you very much for this product. For years it seemed, we had a very slow drain in the bathtub.. so slow that sometimes it will not get out just by using the shower for several hours. We tried EVERYTHING under the sun, short of separating each pipe from the shower. We came across your product with an inland sticker that guarantees operation or is free. This of course caught our attention and after reading it and comparing it to a few other things we bought from you. We had to treat congestion 2 or 3 times just to be safe, then follow the instructions and by the 3rd treatment the drain actually works normally! I'm glad we came across this product that I'm willing to keep buying your product in the future and I'll definitely share my experience with others who might be looking for something to try. -Karen D. from Baltimore, MD I don't want my money back, but just want to write and ask you to please forward this to anyone you think will appreciate my thoughts. I bought your Instant Power Hair Clog Remover this morning at Wal-Mart... sweep all over the sewer cleaners, which in my mind, are all about the same, which means they don't really work. Anyway, the card on your product caught my eye: MAKE SURE TO WORK OR IT'S FREE. Wow... what a deal. I must tell you that this is absolutely the best product I have used in bath drains... Best, hands down! Follow the instructions, 1 and 1 / 2 hours later, the drain flows freely. I love this stuff! Thank you for the bright yellow card on your product. I can't try it, without that. -Sandy R. from Phoenix, AZ Congratulations and cheers!!! I'm not asking for my money (\$7.00) back. When I bought a bottle of Instant Power Hair Clog the other day, I thought for sure I'd get my money back! Didn't happen! Nice surprise, after two easy applications, it really works! A former advertising executive and mercy information, this tool belongs to the TV. The rally works! and Instant Power Hair Clog is a natural. -Donny R. from Abington, PA Your product works after failure by mechanical effort. Working hours with two different species of snakes: drain and refill the entire system from the sink to the main drain with hot water, baking soda, vinegar, all kinds of soap to cut fat or whatever causes the problem; then a shop-vac from all the crevices using it to suck out water as to pressure to the line to knock anything off; Then cut into pipes to allow different areas to counter with the snake and the like, all for naught. After all that effort in despair I poured into a clean bottle of the mainstream and waited a few hours ... And be it, a well-worked tribute... Thank you for a great clean sewer! Judy B. I saw the warranty ticket on your product & tried Drano several times without results. I found out what the hell. I can try. I pretty much assumed I would be asked for a refund. I'm sure you get a lot of complaints (well, hopefully not so much) and probably few compliments. I thought I'd take a moment to send an email saying your product was working! I bought my house a few years ago & the previous owner had 2 teenage girls. The shower in the 3rd bathroom is also slow. I tried a plunger. I tried to get the drain out. I tried Drano (and various products). Nothing really helps. It will drain, just slow down. I don't like bathing in pudd. Your product (I let it put overnight as recommended) cleans it out. In fact, I think I wasted a lot of terrible water just waiting for it to back up again! Hah. Thank you for a good product. It's worth the money. -Mary F. from Idaho Instant Power Toilet Bowl Restorer is an outstanding product. We live in an area with very hard water, and there are no water softener in our homes. Hard water and lime deposited in our toilet bowls are next to impossible to escape and build quickly, especially in holes that flow under the rim limiting water flow. Instant Power is the last thing I'll try before getting a price to replace the two toilets. I was amazed at how good this product really was. Simply apply according to the instructions, stand for 15 minutes, and both toilets look and act as if they were newly installed. Great! I wish I had found this sooner. What I have found, is that the hard water deposit does not return almost as fast as before I used this product. Very recommended! -Mike from San Antonio I bought your product, Main Line Cleaner on February 4, 2013 as a last-line solution to a stubborn plumbing problem after several alternative efforts did not unsalmon the congestion. I decided to try a cleaner before I made the next step of having to solid out the line which calls for a lot of additional work to access. I applied the product as directed on the label and flushed it about 9 hours later. I'm glad to say that the lines have never been cleaner and the sink drained in record time. This product lives up to its claims and I will be very high it's for anyone to try before taking up the mechanical means of clearing a line. Looking through a large selection of sewer cleaning products, I am very pleased with my selection and easy to use. Keep up the good work. L. Smith from Mesa, AZ Instant Power's Hair Clogger Remover has been completely successful in removing a significant blockage in our bathroom sink drain. I used one of your competitive products the day before. We didn't have a good time. So I used instant power congestion and waited overnight before draining with hot water. The drain was running better, but still slow. So I use Instant Power again, and wait a day before draining with hot water again. It completely clears the congestion. Thank you for a great product! It saves us the cost of a plumber call. -Shirley G. Best Drain Cleaner (Hair and Fat) I used to use - no wonder you guarantee it! I have used this product many times - always works. I bought it at Home Depot. Better than Drano or any other drainage product! - Ronald M. from Cincinnati, OH. I just want to thank you for such a great product, the day after Christmas my bathtub and toilet have been backed up, all my sinks and toilets on the first floor will back up in the bathroom and laundry room in the basement. I mean everything was back in the bathtub and from the drain in the laundry room. I really didn't know what to do, right after Christmas and I just couldn't afford a plumber at the moment estimated at \$175-\$350.00. I searched the web and found your product (Main Line Cleaner), after reading some reviews I decided to try this, All I can say is THANK YOU, THANK YOU, THANK YOU. I searched online and read about Instant Power Main Line Cleaner. I gave directions to a Wal-Mart and bought all 3 bottles on the shelf. I poured a bottle into the upstairs shower drain and a bottle into the kitchen sink. These are 1 gallon bottles, so the liquid passes the trap. My blockage is not in the trap, it's almost 4 feet higher than that. After following the instructions; pour the solution into the basement tub and wait 8 hours, I boil 2 pots of water and pour into the bath and then run hot water. At first the water did not move, so my daughter decided to rush to the toilet and wow we heard a loud gurgle and all the water went down in the bathtub and in the laundry room. I will use your product to maintain my drain from now on. I immediately called my family and friends raving about your Mainstream cleaner. Your product is really a blessing, this can take plumbers out of the business of clogged sewers. Once again thank you and happy holidays. -Michelle from Bolingbrook, IL I just want to thank you for a product that's great! I bought clogging your hair bleach after months of a clogged bath and after many other attempts at drain cleaners. I bought the bottle on a 100% sure sighting whim me I have nothing to lose. I went home and immediately put some down my drain, waited a few hours, mitigated and BAM! no more congestion. That's great! Nothing else worked and I was about to call a plumber. And it's been clogging free for a couple of weeks already and it's so great. I just want to tell you Thank you!! -Taryn S. A few weeks ago, I had a big congestion and backup in my upstairs bathroom sink. There are 2 sinks connected to a regular sewer. After an hour of plunging, I decided to disconnect all the traps, and tried to get the snake to clog out myself before calling one of the sewer cleaning companies. I went to Home Depot to buy a snake. While there, I saw your hair products and grease eraser, clearly marked on bags guaranteed to work. I know from previous experience that most liquid drain openers don't work on clogs like this, but I figured if this didn't, at least I get my money back, and then would be convinced that nothing except a computer could fix this problem. After following all the instructions and safety precautions, I was surprised how quickly water flowed from both sinks at the same time down the drain. That's if I installed new pipes. I immediately went back to the store to buy another bottle, as I wanted to always have your product in hand. It is one of the few products made today that actually works, and with a guaranteed money back, you can't lose. Thank you for making such a great product. -Ira D. What an AWESOME product. I can't tell you how many years I've been using Plumber liquids and all their 2 favorite 2 part cleaners and it was a waste of money. So I tried Heavy Duty. At first, I thought, this is like water. It wouldn't work on my bathtub drain that was REALLY clogged -- I was in ankle deep water for weeks. Anyway, 2 glasses of Heavy Duty, wait overnight and the congestion is gone! I'm so happy w/Heavy Duty, I'll never buy anything else!!! Thank you very much - Sincerely -Denise W. from Las Vegas, NV Hello. I am writing to you to tell you how happy I am with one of your products! I had a clogged bathroom sink and a semi-clogged bathtub that I had been working on for weeks. I tried drano, vinegar and baking soda, a water snake, wire ... you name it! It didn't work and I was scared to call the plumber to fix the problem because we just couldn't afford that at the moment. So my mother lent me a bottle of Instant Power Hair Clog Remover. She said she found it to be the best thing she had ever used and fixed her tough clogs unlike anything else. It's worth a try. I put it in the sewer and let them sit overnight. In the morning, the water flows straight down on them! Yipeee ... thank you very much! I'll buy at least two (2 Liter) bottles of Instant Power Hair Clog Remover now... one to replace the one I borrowed from my mother and another for us to keep in hand just in case! I also suggest this product to all my friends. If you happen to have any coupons or save money off on this product please send them my way! I am very happy that I found your product. Thank you. -Jill from Little Falls, N.Y. For over a year our bathtub was clogged and drained painfully slowly. We tried everything from drano to all natural (baking soda and vinegar). Nothing worked, we went to walmart to get the new drano to try again and I saw your product. All I could think was that they were incredibly confident that this would work. I admit I was skeptical, mostly the cause of nothing else working. I tried it and was surprised when I went to drain and it went through. I will never use a product other than yours to remove a blockage again. -Alisha G. from My Kentucky Sewer handles the kitchen and laundry in the basement under the backup floor about every 2 years and sluggishhest times. My drain handles the kitchen and laundry in the basement under the backup floor about every 2 years and sluggish most times. 5 days later, the laundry system and kitchen sewers were backed up. I am a 48-year-old single mother with 2 children still at home and I have no money to spare. I bought your Main Line Cleaner just for a refund guarantee and I was extremely skeptical. I used a gallon cleaner at 10am this morning and at 8.45am I tried hot water but had no luck. I boiled a large pan of soup to send down the drain and I also sent down 2 teapots filled with boiling water. IT WORKED!! I really thought it wouldn't but it did and I didn't have to get the plumber back and pay more!! Connie S. from Ohio I used a bottle of your shock and within 48 hours or less, a 3-year-old seepage problem we had seemed to have been eradicated. I don't know how, but I must conclude we have clogged pipes in our filtration field that have been unclogged by your product. I tried everything known to me and a fellow consumer at Home Depot saw me go through that product offered and strongly suggested that I give Instant Power Corps Septic Shock a try.... as he walked away and commented.... and it also smells good. He's right about the smell, too. John S. from Sussex, N.J. It's no surprise that this product (clogging hair removal) is guaranteed! Recently when I decided to use this product for the first time it was the only bottle left on the shelf at my local Walmart. This must be due to the fact that every time someone else tries this product, the demand is increased! It works perfectly. I was impressed and surprised and I will never use another product to remove my sewer clogs! Thanks Kim O. thanks for a great product in the main product line. I'm a hardware collaborator at Walmart in the hardware department and I had a problems at my home like everyone else I used other products without getting any results I picked up a bottle at work and read it, so I thought I would try it and see if it worked not necessary to say that I was impressed and my wife was happy. After using it, I will recommend it to all my clients who come up with tribute issues. Once again Thank you Germaine J from Missouri Congratulations... It is very rare that a company will put such a guarantee on a product, and to be completely honest, that's exactly why I bought it. If this product doesn't work, I'm just wasting a moment, but will get my money back! I was completely shocked by the complete delivery of your product offer. I have snaked, used other products and established an acceptable low flow back... but Main Line Cleaner in a single application actively opened our congestion and my drain is running as it was just installed! I am very impressed and satisfied with your marketing and especially the effectiveness of your product. Great product. I have been an environmental inspector/appraiser since the mid-1980s and constantly run through clogs and slow drains. I would highly recommend your product to all my customers and customers. Again I want to say Thank you for an offer product as it is advertised!! Nick M. Amazing! I've been struggling with a slow drain in my bathroom sink for years... I've tried Drano & Liquid Plumber in many of their recipes and although sometimes they reduce slow drain problems, it's never finished enough to allow what I'll consider a free flow again. Yesterday I bought your product at Wal-Mart and allowed it to process in my sink overnight, as I was once again experiencing a slow drain. This morning I was absolutely impressed with the result! I can't even get water to swim in my sink when the water is running full blast!! I'm impressed!! I'll pass on my positive view of your product at every opportunity! Thanks so much for helping me with this little problem, but very annoying! Tammy Andover, KS. Someone he might be interested in; I almost never found a product that lives up to its advertising. But this product absolutely does not! I had a very slow bath drain and tried everything I could think of, including top fluid drainer. Nothing works. In despair I went to Home Depot to see what else I could buy. A gentleman who works for that store told me to try your product. I kept saying I tried the liquid, but he just assured me I didn't try the liquid. Honestly, I don't even know as I type this how much this product costs I was very disappointed I paid and immediately tried it at home. Apply it before I go to bed, wake up the next morning, take a shower, and the neighbors can hear my screams of joy. IT WORKED! While I'm sure it's no surprise to all of you, I have a criticism. Why don't you More of this product? I've never heard of it. This should be in everyone's house, like a smoke detector or fire extinguisher. People need to know about this. In tight economic times, people can't always afford a plumber. I give you full permission to use my name in any testimony to this product. I'll go back to Home Depot and tell the manager to give that seller a raise, and I'll say as many people where I work on this product. Considering I teach at a college where 40,000 staff, students and faculty work, I'll do my part to get the word out. Now if I only have some ads or print ads to point to... hints. Thanks for a great product, Don Perry LaPorte, Tx. 77571 I just wanted to write your company and tell you what a great product you have. My bathtub was running slowly and eventually clogged. The water won't go down to it at all. I thought about calling a plumber to solid line, but that would be expensive and I couldn't afford it around the holidays. I bought a huge bottle of a Max Strength competition product, and a small bottle of your hair and fat product. I had standing water in the bath, so I used competitor products first as it could be used with standing water. I poured half a bottle, waited 30 minutes and nothing. I poured into the other half and the bathtub slowly started going down, but it took at least 6 hours for 1/4 of the bath to drain. I took a shower the next day and the water backed up again and did not go down at all. I used a vac shop to get water out of my bathtub and pour in about 2 glasses of your product. I let it sit for 12 hours and flushed it with hot water. The water is finally falling! I think I'll use the other half of your bottle to be safe before I go to bed. Now the drain bath is better than it has in years! You great product saved me time and money and I can't thank you enough. After the holidays, I'll run out and buy some clean lines of yours to make sure that everything is flowing great. Thanks again and I hope everyone at your company has a great holiday season. Chris A. To Whom It May Concern: I just want to compliment your company on a very good product in Hair and Fat Drain Opener. We moved into a house and had a very stubborn drain problem on a shower/bath. After bathing for 15 minutes, it will take about 30 minutes for it to drain. We tried snaking it and we tried four of our competitors' products, but the problem didn't improve. After the first application of hair and grease Drain Opener, the drain cleared completely and has continued normal drainage for six months since then. Thank you for export and make a quality product available. - Lana F. I have never written in praise of a product for a company before but after using your Toilet Bowl Restorer, you, can't wait to get in touch with you and let your company know how satisfied I am with this product! Rarely does a product work as well as advertise, you don't! I was shocked to discover a new looking toilet after using your product! Thank you, for once I felt like I got my money worth and then some! -Kimmy B. I've used all the brands of the drain opener on the market and this, Dissolves Hair & Grease Drain Opener, is on top of each brand! There was never any opener in this good tribute. -Ida P. To whom it may be interested - I do not normally do this, but in this case I have no choice but to comment on your product - 'Main Line Cleaner'. My problem WAS: The water would be back into my kitchen sink when the washing machine emptied it loaded with water - after washing and after washing. Solution #1: I bought some Drano products and used them as directed. There are no noticeable results. However, I'm sure Drano is a good product - it just doesn't do what I need it to do. Solution #2: I bought similar products sold as Liquid Plumber - the same result and again, I'm sure Liquid Plumber is a good product - it just doesn't solve my problem. Solution #3: The 'for sure solution' - I call my plumber. He came to the house; did a job of plucking propellers; lost \$150 and left within an hour of his arrival. Finally - problem solving - OR WAS IT? Within two weeks my slow running tribute was back and just as bad as before. After these three methods did not solve my problem, I gave up and decided that I must have a big problem so I will live with it as long as I can. Then recently, while walking through WalMart I discovered . . . The 'REAL FOR SURE SOLUTION': . . . a white gallon jar labeled 'Main Line Cleaner'. I said to my wife, 'I'm going to try this . . . can't hurt anything.' So I bought the Main Line Cleaner vase. That night before I went to bed, I ran hot water from the tap into the sink for about a minute, then I poured half a bottle of Main Line Cleaner into the sink drain and told the family 'don't use it until morning'. The next morning around 7:00 a.m. I ran hot tap water into the sink for about a minute then poured the other half of main line cleaner's bottle into the sink drain. This application I left for about two hours then flushed with hot tap water. It has been more than two weeks and the water from the washing machine does not back up into my sink anymore. Thank you very much!!! It is so refreshed to buy a product that not what it says it will do. Oh by the way - the statement on the bottle says 'satisfaction guaranteed'. That's good enough to make me try it. Again, THANKS! A very satisfied customer - PS: I bought a 'backup' but did not have to use it. -Charles L, Oxford, MS I was washing my dishes in a plastic tub and dumping the down to the toilet in the last 3 weeks. Why? Because Drano couldn't handle the blockages in my kitchen, and I didn't have money for a licensed plumber. I bought a gallon of Main Line Cleaner and the problem was gone while I was sleeping. Woo-hoo!! - Bob S. I was skeptical about this product that could erase my tough hair clogging in my bathtub. I tried everything and could not pass but I found sure to work, so I thought why not? This morning the congestion is gone, I am impressed, and will recommend this to everyone. Thanks for saving me a plumber bill, you rock guys. - Vicky O. I just want to take the time to tell you that your product, Heavy Duty Drain Opener, is amazing. It fixed a blockage on a side line, and did it quickly. It is nice to use a product that actually does what it says. -Ray B. Well, I think I'll be sending my receipt for a refund. However, yours is the first product that has worked for us since moving to this house 2 years ago. The brand openers cannot match your product. -Brad C. I've been having trouble with my bathroom sink since moving in 2 1/2 years ago. I went to the store and bought Instant Power Hair Clog Remover. It worked GREAT! I've tried other drainage cleaners before and this is the best I've ever tried. -Sylvia M. I picked up a bottle of makeup remover that clogged your hair a long time ago and has since run out. It worked great, and I wasn't able to find it. I've tried many other brands and none of them have worked half as well as yours. Please any information about where I can find it (any particular store that carries your product) will be greatly appreciated! A very satisfied customer! -Maurice P. I think your instant electric hair & Grease Drain Opener is amazing!!!! I was introduced to it a few years ago and it worked fine every time. Just have to tell you. Sincerely, -Helen E. Instant Power Hair Clog Remover removes all congested hair drains from years of construction. I bought Drano last night. I went home according to the instructions and nothing. I remember seeing your product ... I also noticed your guarantee or money back. I think wow this stuff has to work. So I went home according to the instructions. What happens next is amazing. The water's down as usual. I just wanted to say thank you. Very pleased customer, -Diego F. F.
