**Dean's Honours**

University of Waterloo, Waterloo, ON, Canada

04/2023

## Leadership

### Program Leadership Council

Schulich School of Medicine & Dentistry, London, ON

*September 2025 – Present*

- Advocate for student body as representative on matters related to medical education innovation and improvement
- Proposed multiple collaborative solutions to increase the variety of OSCE cases and increase engagement between students and faculty on projects

### Associate Director of Government Affairs & Advocacy

Canadian Federation of Medical Students, Ottawa, ON

*July 2025 – Present*

- Directing a 70+ member national team across advocacy portfolios, including National Day of Action (NDoA) (engaging 60+ MPs and Senators), Health Policy (3–5 annual position statements), and Political Advocacy Training (10+ sessions nationwide).
- Designed and implemented the conversion of the NDoA from a once-per year event into a multi-year integrated advocacy campaign
- Co-authored the guideline on planning and implementing the NDoA, standardizing its quality and efficacy
- Chair the Government Affairs & Advocacy Committee roundtable with 20+ reps across each school, supporting their nearly 24+ yearly advocacy initiatives
- Organized and hosted the 2025 and 2026 National Days of Action with 70+ medical students from across the country attending and meeting with over 50 MPs and Senators
- Advocated for EHR interoperability to the Prime Minister's Office, the Parliamentary Secretary to the Minister of Health, Senators, and MPs
- Vetted and selected candidates for numerous leadership roles within the Government Affairs portfolio

### Chair & Associate Chair Schulich Government Affairs and Advocacy Committee

Schulich School of Medicine & Dentistry, London, ON

*September 2024 – Present*

- Led a team of 10 students in organizing and hosting Schulich's first Municipal Day of Action in nearly a decade, connecting 20+ medical students with the Mayor, 15+ city councillors, London's Medical Officer of Health, MPs, and MPPs
- Guided these 20+ students in advocating for social a housing program for unhoused community members with high ER visiting frequency
- Organized and implemented a speaker series and advocacy training session for Municipal Day of Action attendees
- Directed the development and dissemination of HPV-focused newcomer health education pamphlets for distribution across local clinics
- Organized and hosted a nationally accessible Longitudinal Advocacy Training Series session at Schulich

### Schulich Class Council Charity Committee

*February 2025 – June 2025*

- Researched and identified charitable organizations that aligned with Schulich Med class values to raise money for
- Identified funding sources for the fundraising initiative

### Medical Education Day of Action Committee

Canadian Federation of Medical Students, Ottawa, ON

*February – April 2025*

- Collaborated with a 10-student team to the produce a medical school report card on 25 metrics surrounding policies, costs, programs, clerkship structure, and more to facilitate medical student-led advocacy initiatives

- Presented deliverables and expectations at the MEDoA conference to health advocacy leaders and 30+ nationally represented student delegates

### **Governance Committee**

Canadian Federation of Medical Students, Ottawa, ON

*September 2024 – August 2025*

- Designed midterm report guidelines for the CFMS Board of Directors, emphasizing leadership transparency and objective reporting of expenditure, project deliverables, and timelines
- The midterm reports are distributed to every medical school in the country and accessible to all medical students

## **Research & Employment**

### **Research Associate**

Canadian Association of Radiologists

*01/2023 – 09/2024*

Ottawa, ON, Canada

- Synthesized evidence and drafted recommendations for 7 updated primary care diagnostic imaging guidelines that are now informing the Canadian national clinical standards
- Mapped international guidelines to the Canadian clinical context
- Collaborated with a national panel of expert physicians to refine and finalize guideline recommendations
- Leveraged AI-assisted screening tools before their mainstream adoption to efficiently review thousands of records while maintaining rigorous study selection

### **Research Associate (Independent)**

Cochrane Response

*01/2022 – 01/2023*

London, United Kingdom

- Executed title/abstract screening, full-text review, and data charting for systematic reviews on chronic low-back pain interventions and COVID-19 vaccines commissioned by the World Health Organization
- Coordinated with an internationally represented team to execute and deliver project milestones within established timelines

### **Clinical Receptionist & Patient Care Coordinator**

Toronto Endoscopy Clinic

*12/2020 – 09/2021*

Toronto, ON, Canada

- Designed and conducted an internal, clinic-wide study on endoscopy preparation alternatives, resulting in improved patient experience
- Optimized patient flow through proactive schedule coordination and close collaboration with physicians and the interdisciplinary care team
- Supported clinical operations in collaboration with medical staff by preparing examination rooms and equipment, obtaining informed consent, and addressing patient concerns
- Managed patient scheduling, processed physician billing, and assisted clinic inventory procurement and organization
- Managed receipt and delivery of patient health records throughout circle of care

### **Research Assistant**

Knowledge Synthesis Research Group, Ottawa Hospital Research Institute

*01-04/2019; 09-12/2019*

Ottawa, ON, Canada

- Curated large datasets and conducted preliminary analysis for network meta-analyses
- Co-developed data coding methods
- Designed screening and data extraction forms to expedite a project timeline
- Refined writing proficiency while drafting manuscripts for numerous systematic and rapid reviews
- Co-authored a now widely-cited paper establishing a definition for rapid reviews

## **Committees & Societies**

### **Canadian Medical Association Ambassador**

Canadian Medical Association, Ottawa, ON

*October 2025 – Present*
