FUNCTION

- 1) Recording with stickers
- 2) Recording without stickers
- 3) Playback audiobooks
- 4) Play music

File management

You can think of it as a USB drive; you can copy & paste files just like a USB drive, just like Penfriend.

Buttons

All the reader's buttons can be customized as you wish.

The system audio

The system audio can be customized simply by replacing the corresponding system audio MP3 by the users.

The stickers and other consumables

We have software that lets users create their own stickers, which can be printed on an ordinary laser printer or sent to a professional printer.
