The publication of the Civil War premise history includes the introduction of a law on superhero registration in the United States. Mark Millar, who wrote a different story, didn't know how to have a superhero dilemma for something a little different. People thought they were dangerous, but they didn't want a ban. What they wanted was superheroes paid by the federal government as police officers and open to the public. It was the perfect decision, and no one, as far as I know, has done it before. The law requires anyone in the United States with superhuman abilities to register with the federal government as a human weapon of mass destruction, disclose their true identity to the authorities, and then receive a registration card. Characters in the Marvel Universe superhero community are divided into two groups: one favors registration as a responsible obligation and the other opposes the law on the grounds that it violates civil liberties and the protections provided by secret identities. Arguing directly with Iron Man about the law, Luke Cage (formerly the second Power Man), an African-American, compared mandatory registration to slavery. A number of villains also decided to take up arms against the law. The Act of Identity revealed the secret identities of the entire superhero community, forcing superheroes to face the public spotlight. In the final act of the storyline, the Civil War #7 was pushed back for two weeks, Civil the release is scheduled for December 20, was pushed back for two weeks, and the release was pushed back for two weeks. Unlike the previous instance, only Punisher War Journal #2 was postponed. In the final act of the storyline, the Civil War #7 was pushed back for two weeks, while Civil War #5 was released two months later in November. In addition, various tie-in books including The Civil War: Front Line mini-series and tie-in issues of other comics have been postponed for several months so as not to delay the main storyline. The 2016 film Captain America: Civil War, a free adaptation of the same storyline, was a commercial success.
