"ag fás le chéile"

ETHOS STATEMENT

"The voyage of discovery is not in seeking new landscapes but in having new eyes."

Marcel Proust

The vision of our school is to build a community which is enriched with practical and daily expressions of hope, freedom, justice and love. We strive to impart to all pupils the knowledge, the attitudes and the skills which will enable them to face the future with confidence and self-esteem. This will be enhanced by a characteristic spirit which is positive and life-giving and is in harmony with the Christian vision of education.

Each child will be enabled to achieve their full potential and to develop their individual gifts and talents so that they can become productive members of society and lead a full and rewarding life. It is hoped that they will foster respect and responsibility for themselves and for others.

"To have a vision without a task is a fantasy;

to have a task without a vision ends in despair;

to have no task and no vision is to be lost;

to have a vision and a task is to reach our goal."
