Follow Frederica Freddy Riley throughout her struggles with her relationship again, out again with the namesake Laura Dean. The novel was first published by First Second Books on May 7, 2019. Laura Dean, a young adult and lesbian teenager, includes topics about teen and queer lesbian sexuality. Laura Dean received critical acclaim for universal media books and publications that praised Tamaki and Valero-O'Connell's work on the novel, as well as its dynamics. The writing and narrative of the novel were praised by critics, with many publications calling the dialogue authentic. Valero-O'Connell's work was also received positively, with her criticism of Laura Dean praising her visual storytelling and the use of colour. The story also received praise for the diversity and relativity shown by its characters. The novel received multiple industry awards and was included in several year-end lists of publications on the best comics and novels of 2019. The plot Laura Dean keeps breaking with me is set in Berkeley, California. [3] She follows Frederica Riley, or Freddy, a 17-year-old lesbian from a mixed East Asian and white background, as she struggles in her relationship with his girlfriend, Laura Dean. [5] Portrayed as a popular and aloof cool girl, Laura continually breaks up with Freddy, only to begin their romantic relationship again whenever the former wishes. [7] While focusing on a way to avoid a new breakup, Freddy inadvertently distances himself from his social circle, which includes Buddy, Eric, and his best friend Doodle, repeatedly neglecting his friendships with them. [5] Distressed by her relationship struggles, Freddy seeks answers as to why Dean continues to break up with her. Freddy receives relationship advice from Seek-Her, a local media that Doodle recommended; of Wine, a potential crush of it; and Anna Vice, a relationship advisory columnist. [4] After continually and inadvertently estranging himself from his friends, Buddy strongly suggests to Freddy that he should talk to Doodle. After that, Doodle admits to Freddy that she became pregnant after having sex with a married man, and that she intends to have an abortion. [11] Freddy plans to with Doodle at her abortion clinic appointment, and tells Laura she won't be able to see her in it Freddy later receives a text from Laura about an emergency. As a result, Freddy visits Laura and is told there is no emergency. Rather, Laura explains that by her birthday, she wanted to see Freddy, despite her previous certainty that Freddy's absence would be fine. Freddy is taken back, and as people begin to show up at Laura's house, Freddy leaves to go to Doodle's appointment. After the appointment, Freddy consoled Doodle at the latter's home. Freddy finally receives an email response from Anna Vice, who advises Freddy to wonder what his love for Laura offers in terms of being a better person. Ultimately, Freddy visits Laura after her birthday party, where she breaks up with Laura. Shocked and angry about it, Laura bids farewell and curses Freddy as she is crying. The novel ends with visuals of Freddy and Doodle dancing in their dance paired with a final email from Freddy to Anna Vice, where she expresses her choice to be things other than Laura Dean's ex-girlfriend. Development and publication In April 2016, Mariko Tamaki and Rosemary Valero-O'Connell announced that they were collaborating on Laura Dean Keeps Breaking Up with Me.[12] It was the first collaboration between Tamaki and Valero-O'Connell. [3] Valero-O'Connell told the Los Angeles Times that earlier in December, First Second editor Calista Brill had sent him an email asking if he had an interest in trying to be the artist of Tamaki's next book, which he agreed to. [12] As a teenager, Valero-O'Connell was inspired by Tamaki's work to start working on his own comics. [5] When asked if there was any specific inspiration for Laura Dean, Tamaki stated that she always liked the idea of an ex-girlfriend story, about the girl who escaped and then appears a week later with a smile as if nothing happened, and added that many of her relationships when she was younger were not fairies-tale girl-meets-girl , girl-finds-true-love-type stuff. They were a disaster. [12] He added that the TELEVISION series My So-Called Life and Freaks and Geeks, as well as the John Hughes films, influenced the development of the novel. [12] In a 2019 online interview with the Canadian Broadcasting Corporation (CBC), Tamaki stated: I didn't want [Laura Dean still breaking up with me] to be just a story where the goal is just to find love and love is achieved, then that's the end of the story. I wanted to look at love and relationships and then complicate them. When I was a younger person, especially a younger queer person, all I wanted were stories about relationships. All I wanted were love stories. [13] The cover of the book was revealed in September 2018. [14] Although he originally requested a 2018,[12] First Second Books published the novel on May 7, 2019. [2] Valero-O'Connell sold his work for the graphic novel as a fundraiser for Bernie Bernie 2020 presidential campaign. [16] Style and themes A coming-of-age queer story, many media outlets noted the queer themes present in the novel. [17] In particular, media publications noted the presence of a dynamic cast of LGBT characters. [4] Although Laura has been cited as a charismatic or enigmatic appeal,[4][8] the novel also depicts her as the catalyst for a bad and abusive romantic relationship with two girls. [20] Laura Dean, subphras involving Freddy's friends help address other issues faced by queer teenagers and sexually active young women. [5] Literary media publications have also highlighted the setting for the novel in Berkeley, with the city depicted as friendly. [4] Valero-O'Connell stated that she and Tamaki toured Berkeley and the San Francisco Bay Area in order to look at architecture and look at places and take stock of the world in which these people live, and developed characters to feel like people [she] knew and as people who existed in [her] life, in the world and specifically in the bay area. [21] Due to Valero-O'Connell's California glow depiction of the novel's city environment, Quill & Quire compared the novel's atmosphere to that of the TV drama The L Word. [3] Of the novel's visual aesthetic, several publications pointed to the splash of pink accents to go along with the novel's black-and-white coloration. [4] Valero-O'Connell's art was also compared to the style often seen in manga works. [22] Tamaki stated that during his Berkeley scouting, Valero-O'Connell continued to take succulent photos. [21] This was translated into the novel's artwork, as visually abundant plant life is another key motif in the novel. [7] Brendan Kiely of The New York Times wrote that lush foliage and plant life bursting from the bottom, sometimes even moving forward in the foreground, suggests that life is growing, even thriving, around Freddy. [7] Oliver Sava of The A.V. Club also wrote that lush vegetation adds an element of natural beauty to the panels while evoking different emotional responses. [5] Reception Tamaki (above) and (below) received praise from critics for their work on the novel. The novel received widespread critical acclaim. [17] Tamaki's writing was praised, with several publications describing the characters in the novel and dialogue as realistic and authentic. [3] Valero Valero [24] the artwork also received praise, with its coloring and use of space noted by outlets. [24] The Toronto star wrote [Tamaki and Valero-O'Connell] showed that a story about a queer lovelorn teenage girl, published in an YA book, can be relatable to anyone who has ever had a bad relationship. [20] Kiely wrote that Tamaki and Valero-O'Connell undermined the rocky romance, preventing them from placing themselves in melodrama with endearing moments between the girls' other friends and flashes of humor, adding that the author-illustrator duo singing heart narrative with real, honest emotion that will resonate with anyone trying to figure out love. [7] Quill & Quire also praised the collaboration of the two, writing Tamaki and Valero-O'Connell have developed a sophisticated narrative dynamic, involving scant dialogue that pushes the narrative forward while detailed illustrative attention to body language and facial expressions provides emotion. [3] Forbes writer Rob Salkowitz wrote that Laura Dean's inclusion of a depoliticized and infused depiction of gender-fluid teen culture in the 2010s makes the novel a step forward in LGBTQ graphic literature. [22] Katie Bircher of The Horn Book Magazine praised the writing of the novel, as she opined that Freddy's insightful and painfully honest first-person storytelling [...] is balanced with a dialogue full of witty banter and warm moments of friendship. [4] Mallory Yu of NPR wrote that Tamaki's dialogue feels natural and is delivered by infinitely relatable characters. [24] Also praising the novel's dialogue, Quill & Quire wrote that he feels more authentic than most YA teenagers, with characters holding backs, without risking too much, worried about saying evil. Valero-O'Connell matches verbal outings and stops with a multi-panel style that acts as a form of visual editing. [3] Sava of club A.V. also praised Tamaki's writing, stating that she excels when she is writing stories about young women discovering her strength in times of crisis, and Laura Dean keeps breaking with me falls right into her creative sweet spot. [5] While receiving Laura Dean positively, Sava found the subject with an element of the novel's narration, writing: A puzzling element of Laura Dean is the hallucinatory dialogue that Freddy feels, usually of her mutated teddy animals, but sometimes of environmental elements such as a pin-up lady printed on a shower curtain [...] the dialogue conceived and the The lines themselves are external verbalizations of the characters' feelings, but they are not necessary when the work is so good in the of these inner states. [5] From the artwork, Sava wrote the visual narration is precise and reflective, and it is clear that the artist has spent a lot of time designing spaces that feel lived and characters that personalities. Lush arrangements of vegetation are a key visual motif, adding an element of natural beauty to the panels while evoking different emotional responses. [5] Quill & Quire praised the work to paint in the novel's illustrations, writing the pages are predominantly black, white and gray except for splashes of the most beatific shade of peach-pink, which perfectly accentuate the bittersweet quality of this story of headache and high school friendship, and added that this singular [color] becomes a comfort [3] In her review of the novel, Kirkus Reviews also praised the use of color in the novel, writing that Valero-O'Connell's art is realistic and expressive, bringing the characters to life through dynamic grayscale illustrations with millennial rose reflections. [6] Laura Dean Awards and Honors Keeps Breaking Up with Me won the 2019 Harvey Award for Best Children's Book or For Young Adults. [25] The novel was also nominated for the Harvey Prize for Book of the Year. [26] In addition, at the 2019 Ignatz Awards ceremony, Laura Dean won three awards: the novel won for best graphic novel and best story, and Valero-O'Connell's work on the novel won her the best artist award. [27] Laura Dean was a three-time honored at the 2020 Eisner Awards, with Valero-O'Connell winning the best penciller/inker award or the penciller/inker team, tamaki winning the best writer award (for Laura Dean, along with her work on Archie and Harley Quinn: Breaking Glass), and the best publishing book for teens. [28] The novel received a blue ribbon honor from The Bulletin of the Center for Children's Books. [23] In January 2020, Laura Dean was named the Printz Honor Book, with the American Library Association writing: Through soft color illustrations and cinematic scope, this graphic novel captures the intoxication of teenage love and the pursuit of identity. [29] Year-end lists Laura Dean were included in the lists of year-end graphic novels curated by several publications, including NPR, The Washington Post, and the CBC's online service, among others. [24] Publications related to pop culture media highlighted the novel,[30][31] particularly those addressing LGBT and feminist issues such as The Advocate and Bitch. [32] Mary Sue also included the book in her Book Club Picks in May 2019. [33] The A.V. Club placed the book on its top 20 comic book of 2019, writing: Rosemary Valero-O'Connell draws breathing characters. [The reader] can feel their nerve inhalation when they are the point of starting a tense conversation, the exhalation of a longed-for sigh. Sinuous queues of word balloons ride waves of air, reporting the pact of conversations loaded into Mariko Tamaki's script. [31] HuffPost India listed the novel early in its list of the 10 best graphic novels of 2019, writing: Mariko Mariko and Rosemary Valero-O'Connell demonstrate the firmness with which they take the pulse of this demographic but, with a tale that delights and moves in equal measure.
