1503 Tombstone of Nostradamus 1566

I was privileged to be among the visitors from around the world who in 2003 commemorated the 500th anniversary of Nostradamus, in Salon-Provence / France.

I visited his tomb in the Collegiale Saint-Laurent paying my respect. It was an unforgettable moving moment, bringing home his lost Dream Book, revived and preserved from extinction, as my gift in his honor, -----ever so grateful.

On the 2nd day in July 2003.
