ABOUT OUR PARTNER & CO-PRODUCER: ENRICH in the USA, an initiative of the European Commission.
For detailed contact: **Sebastien Torre** +1 (619) 382-844 and info@eaecouncil.com

We have partnered with European agencies for six years, previously EAEC and now with ENRICH. The European Commission's ENRICH in the USA initiative, started in April 2017, is establishing a Network of European Research and Innovation Centers and Hubs throughout the United States that will act as a central contact point for European research and innovation actors - clusters, universities, R&D labs/centers, researchers, start-ups, Small and Medium Enterprises (SMEs) - seeking to grow and reinforce collaboration across the Atlantic. The ENRICH in the USA West Coast Centre, was officially opened by EAEC in January 2018 in San Francisco, CA. Its location at The Vault, 415 Jackson, St, CA 94111, has close proximity to the largest and oldest innovation and entrepreneurship ecosystem (SF Bay / Silicon Valley) in the heart of San Francisco, which is a valuable asset for any R&I actor from the EU seeking to establish a first presence in the United States.

TESTIMONIAL FROM INVESTOR WHO ATTENDS EVENTS:

Here is a testimonial from Michael Gibstine, Managing Director, San Francisco, [Hanover International](#).
"I work in Silicon Valley and attend many venture forums and investment summits. If you select one event to attend this year, I highly recommend Angel Launch events, either Silicon Valley Funding Summit in Las Vegas or Silicon Valley Investing Summit on Oct 1 in San Francisco."

The events are impeccably organized with well crafted, thoughtful agendas addressing emerging tech trends; excellent speakers from top tier investment firms, VCs, corporate brands, and angels; and high-level networking opportunities with demo tables. I have had follow up discussions with many high-quality startups or advanced growth companies seeking capital. I highly recommend this summit to any person, company or agency that wants to bolster its connections to Silicon Valley; network with investors; meet high growth startups looking to expand their offices; and learn how to emulate Silicon Valley in your region."
