WHERE WE'RE HEADED

Our Vision

To improve the lives of those in less privileged, vulnerable and underserved communities in America and other parts of the world, like Africa.

Through community development, outreach, education and empowerment, we envision strong communities that will positively impact future generations.

OUR OBJECTIVES

- Promote **gender equality** and **body positivity**
- Empower **women and persons with disabilities** to achieve positive life goals
- Provide **culturally and socially appropriate programs** that improve quality of life for community members

JOIN THE MISSION

Get Involved

We would like to partner with the Office of the Mayor of New York, community leaders and organizations to assist vulnerable groups in America, Africa and around the world where help is needed.

Our target is simple: **independent living, education and self-reliance** for every person we serve.

Empowering lives. Building communities.

WHAT DRIVES US

Our Mission

To address the challenges faced by those in vulnerable and underserved communities, with a special focus on the **girl-child**, **women**, getting **boys off the street** to go to school and learn technology skills or any profession of their choice, and **persons with disabilities**.

Our programs empower individuals to realize their full potential, improving quality of life and standard of living.

TOOLS & RESOURCES WE PROVIDE

- Financial literacy
- Business education and development
- Health education
- Parent and family support
- Drug and alcohol prevention
- Advocacy

WHO WE SERVE

Persons with disabilities (blind, visually impaired, physically challenged, deaf, hard of hearing, deaf-blind, mental health), homeless people, women and girls, older people, and the vulnerable in society.

OUR PROGRAMS

What We Do

1 **Skills Empowerment**
Fashion and design, welding, mechanics, bead making, telephone repair, technology skills, and farming (poultry, fishery and crop).

2 **Education & Scholarships**
Scholarships and educational materials, and getting boys and girls off the street and into school.

IN PARTNERSHIP WITH

Stemdup Institute, Inc.

Together, we are working to help our communities grow stronger and get more children into school. Through STEM education, we aim to close the educational gap between students in affluent and under-resourced school districts.

3 **Free Medical Outreach**
Health outreach to benefit persons with disabilities and prevent preventable blindness.

4 **Advocacy & Awareness**
Seminars, workshops and enlightenment programs, and educating the public to end abuse and rape of the girl-child and women.
