Parasitologia humana neves 13 pdf

The 13th edition of the book of human parasitology, which crosses generations of students. tradition and scientific and didactic reliability of his marks was concern of the author to maintain, as in previous editions of best practices of didactic structuring and scientific renewal. There is also his concern about the correct definitions of words, we have parasitological and basic concepts. Human Parasitology is a book full of creativity and whose didacticism establishes a bridge between parasitic diseases and the instability of socio-economic conditions of the population. From this point of view, questions arise: why are parasitic diseases associated with poverty, hunger, illiteracy, social injustice? The relevant answers are given in the content and exhibition discourse of the text: the dynamics of parasites is a combination of biological and social factors, they are an economic continuation.
