Not bad for the money. You can also find this in your local library. Finally, I like the commercials for this series. Too bad the deal has changed. The new one (starring Randy Quaid) is the style of FBI, such as in Star Trek: The Next Generation. Better than the previous ads, but the style is different. So many faces, so many names, so many stories. What do you remember? Let's all look at it together. With a little luck, we'll even learn something along the way. The Wire: The Fast, the Furious, and the Fanciful What do you remember about TV's The Wire? We know there was no such thing as high concept these days, and it's no big mystery who hated the season finale. Still, what about the rest of the season? Did you like it? Why? What did you like and dislike about it? Did you think the characters were well-developed? Were you satisfied? If you're reading this, you probably have a lot of opinions about The Wire. I'd like to talk about the characters. Did you like how they were portrayed? If you hated the show, were you bothered by how badly it was portrayed? In a previous post, I talked about the characters of The Wire, and what I liked. Bubbles: What I liked was how much the characters of The Wire were developed. Bubbles seemed to be constantly changing, and sometimes we didn't know who he was until he'd shown up. The episodes kept giving you different twists on his

personality. What I liked was that there were very few clichés. You don't expect to see someone like Bubbles on TV. The only problem was that the show used that cliché. We see someone who is completely outside the law, with no respect for anyone but himself. We don't expect to see a character like that on TV. Bubbles would often say, "You know, I'm basically a good guy. I just want to do the right thing. I don't wanna get killed and go to Hell. No one's gonna see it that way." The most surprising thing about Bubbles was that he could actually be considered a good guy. He was the opposite of everything you'd expect to see on the streets, and he did the right thing.
