

Alexander Nikolaevich Paramonov

THE SUNRISE PROGRAM

(Written by Vincent Gillespie. Revised on September 3, 2026.)

Background

As Alexander Paramonov has stated, the powers-that-be¹ planned to create a third world nuclear war and to destroy all or most of humanity. Alexander has come into this world as a matter of Divine Intervention to thwart these demonic plans and to instead lead humanity into a New Golden Age, a *Bright New World* in which truth, justice, harmony, wisdom, abundance and happiness will predominate.

And how will Alexander accomplish all this? He has created the “Sunrise Program,” which will implement many major projects and changes, including (but not limited to) the replacement of the current fiat money financial system with a new, gold backed financial system for the world.

Components of the Sunrise Program

Some of the components of the *Sunrise Program* are:

- *Suncoin*. An asset backed crypto coin called *Suncoin*. Each *Suncoin* token is backed with 0.25 grams of System Balance Banking Gold RA M0 M1 (XAU). *Suncoin* is the native token of the *Golden Era Blockchain* (see below). *Suncoin* will function as a basic means of facilitating transactions between and for the *Sovereign Cooperatives* (see below) in the *Sunrise Program*.
- *GoldenEra Blockchain*. This is a decentralized, asset-backed digital financial infrastructure created to support *Program Sunrise* and guide the global transition from fiat instability to a system grounded in real, sovereign value. Only verified real-world assets – such as gold, commodities, and reserves of *Sovereign Cooperatives* –

¹ The “powers-that-be” are the super rich, Satanic people who exert great influence and control over entire nations from behind the scenes. Such people would include the Rothschilds, the Rockefellers and others.

- may be tokenized on the *GoldenEra Blockchain*.
- *GoldenEra Wallet*. A new, secure crypto coin wallet called *GoldenEra Wallet*.
 - *GoldenEra Scan*. This is the official blockchain explorer for the *GoldenEra Blockchain*. It is an easy, transparent, and reliable way to see what's happening throughout the blockchain.
 - *Gold backed reserve currencies*. The *SunRise Program* includes three gold backed reserve currencies for the world: the Golden Soviet Ruble, the Golden Pecu and the Golden Dollar. Each unit of each of those currencies is backed by one gram of System Balance Banking Gold RA M0 M1 (XAU).
 - *Sunpay*. A new payment system called *Sunpay* which allows people to send money anywhere in the world. (This system is completely separate from the current VISA / Mastercard / American Express / SWIFT system.) This payment system can be used as a debit card or an app on one's phone.
 - *GoldenEra Exchange*. A decentralized crypto currency exchange which will enable seamless trading between *SunCoin*, other *GoldenEra Blockchain* based asset-backed tokens, and other digital assets. This ensures liquidity, transparency, and global interoperability.²
 - *Ra Media*. Ra Media is the main regulator of the entire world media space. It has become crucial to have a centralized body that oversees and regulates media content to protect the interests of both consumers and content creators. The primary goal of *Ra Media* is to safeguard the integrity of media content and ensure that it adheres to legal and ethical guidelines.
 - *Sovereign Cooperatives*. *Sovereign Cooperatives* are created in countries around the world. Each of these cooperatives gets funded with an enormous sum of the new gold backed money. They will fulfill an important role in completely rebuilding society in a much better form after the collapse of the current fiat based financial system (and the world as we know it). See a more detailed discussion about these *Sovereign Cooperatives* in the next section below.
 - *More*. There are also a number of other components of the *Sunrise Program*.

As evidenced by the above points, the *Sunrise Program* is a comprehensive program designed with the full intention of replacing the current fiat based financial system with an entirely new and better gold backed financial system. The *Sunrise Program* is in the process of creating a *Bright New World* which will be superior to our present world. (There is much more to say about the *Sunrise Program*. A more detailed discussion of the components of that program can be found in a report titled: *The Sunrise Program and the Global Financial System*. Click [here](#) to read it.)

Sovereign Cooperatives

Through the *Sunrise Program* about 200 special *Sovereign Cooperatives* (comprised largely of ordinary citizens) have been created (as of the date of this writing) which are located in many countries throughout the world. Those cooperatives work in coordination with a central

² Note that all of these gold (or other asset) backed crypto currencies, gold backed paper currencies, *SunPay* payments, and gold backed reserve currencies will be readily interchangeable.

organization called the *Sovereign International Treasury Monetary One* (“M1”) (of which Alexander is the Secretary General and Chief Treasurer) and they are funded with enormous sums of the new gold backed money which are provided by an organization called the *Sovereign International Consumer Cooperative – Light Great Russia* (for which M1 is the treasury).

The *Sovereign Cooperatives* will also have the lawful right to issue their own gold backed currencies.

And (in general) each co-op member gets a monthly stipend (denominated in the new gold backed money) plus enough money to buy a home for himself.

The present fiat based financial system will soon collapse and – with the help of these cooperatives – this new gold backed financial system will then replace the old system. Then these cooperatives, with input from M1, will use their enormous funds to rebuild the world as a much, much better place. They will create the excellent *Bright New World* (which is already here now in its early stages).

And the powers-that-be will have no control over humanity, and no place, in the *Bright New World*.

About the *Bright New World*

Furthermore, I, Vincent Gillespie, declare that (to the best of my knowledge and understanding) this *Bright New World* is literally the advent of the long promised Kingdom of God.³ Alexander is already ruling and will rule as the physical and spiritual King in the *Bright New World*.

Christ is, and will be, there as well, but not as most Christians would imagine it. Christ is actually a state of consciousness which is within each of us, *Christ Consciousness*. And as people who succeed in getting into the *Bright New World* spiritually evolve and progress they will draw closer and closer to *Christ Consciousness*.⁴

Readers with a Christian mindset may bristle at the notion that Alexander Paramonov is actually bringing in the Kingdom of God which Christ spoke of. This probably just does not seem like what most Christians have been expecting. I (Vincent Gillespie) viewed a Christian video years ago which portrayed the return of Christ. It showed Christians in white robes with their hands held together in front of them as a sign of obeisance while they were being miraculously raised up into the sky. Many Christians may have a similar expectation regarding the return of Christ.

However, *that was just someone’s fantasy*. Christians should bear in mind that Christ (or the Divine Powers) has (have) no obligation whatsoever to make the advent of the Kingdom conform to their expectations.

Furthermore, Christ repeatedly warned that the coming of the Kingdom will be at a time when you do not expect it. KJV Matthew 24:44 (“Therefore be ye also ready: for in such an hour as ye think not the Son of man cometh.”). KJV Luke 12:40 (“Be ye therefore ready also: for the Son of man cometh at an hour when ye think not.”) It is my understanding that, ready or not, the time of the advent of the Kingdom of God is **NOW**.

³ The fact that the Bible does not foretell about Alexander Paramonov guiding us into the Kingdom of God does not mean that it cannot be so and it does not foreclose the possibility that Alexander is working closely with Christ to bring about the Kingdom of God.

⁴ I am explaining this to the best of my understanding. I am largely relying here on how this issue was explained to me by someone from M1.

Additionally, Christians should remember that Christ warned that *many* (not just “some”) Christians will not make it into the Kingdom of God even though they will believe that they are good Christians who would surely be welcomed into the Kingdom. KJV Matthew 7:22-23 (²² “Many will say to me in that day, Lord, Lord, have we not prophesied in thy name? and in thy name have cast out devils? and in thy name done many wonderful works? ²³ And then will I profess unto them, I never knew you: depart from me, ye that work iniquity.”) I suggest that that prophecy from Christ should serve as a clear and serious warning which should cause the reader to take pause and carefully consider his response here.⁵

Question: And what must one do to enter into this *Bright New World*?

Answer: As I understand it, there is going to be a difficult transition period when the current financial system breaks down (which will happen very soon). And, as I understand it, due (in part) to the nature of events that will be happening and circumstances that will be present, most people will (in essence) be swept away and into lower worlds of suffering. But the members of each *Sovereign Cooperative* will receive (in essence) a steadying hand, a lifeline, which will help them and increase their chances of successfully making it through to the *Bright New World*.

One should accept the helping hand that is presently extended to us from above, from the Divine, and not reject it, by: (a) quickly joining an M1 backed *Sovereign Cooperative* in one’s own country⁶; and then (b) getting to work helping to bring in and build the coming *Bright New World*. By taking these two steps one will be participating in the *Sunrise Program* and one will be on a track leading to entrance into the coming *Bright New World*.⁷

⁵ See an important related discussion in a separate article titled *Confirmation of the King of Kings*, and in an *Introduction* to that article (which was written by this author). The *Introduction* can be accessed through a link on the home page of the website www.firstamendmentcafe.com; and that *Introduction* contains a link to the subject article.

⁶ I, Vincent Gillespie, am the Chairman of the Board of Directors of the *Freedom for All Consumer Cooperative*, which is based in New Hampshire, USA. You could join my co-op. (Email me at explodingbee@gmail.com.)

Or else, if you are not in the USA, find a *Sovereign Cooperative* in your country, if there is one. (If you are having trouble finding one in your country you could ask M1 by emailing them at secretary@monetaryone.org.) (Note: You actually don’t have to live in the same country as that of a *Sovereign Cooperative* in order to be a member of it. But it would be preferable to be in the same country because that way if there comes a need to do anything in person it would be easier to do so.)

Or else get a group of at least 5-10 people together and apply to M1 to start your own *Sovereign Cooperative*.

⁷ It stands to reason that in addition one should be a decent, upstanding and ethical person (to be worthy of entering the *Bright New World*). One should maintain basic rules of ethics. One should: not kill; avoid harming others verbally or physically; speak truthfully and not deceitfully; not commit adultery or otherwise harm others sexually; and not steal from or cheat others. One should also overcome harmful addictions one might have, including but not limited to: alcohol, drugs conducive to delusion, gambling and watching porn.

Concluding points

I am presenting this extraordinary message to my fellow citizens as well as I reasonably can. I know it sounds incredible and it may sound “too good to be true.” But, unbelievable as it may seem, this message is real and true. I am telling you the truth to the best of my knowledge and understanding.

My job here, as I see it, is to put the message out there. I cannot force people to open their minds to this message and join *Sovereign Cooperatives*. How you respond to this message is up to you.

I will also add that some of the members of my cooperative (see fn) (as of the time of this writing) are not entirely sure if this message is real and true. But their approach (at least in part) is that they think it might be true and just in case it is they are willing to participate in the process and be a member of the cooperative.

My view is that such an attitude is acceptable. One need not be absolutely and totally convinced that this message is true in order to be a member of a cooperative. One can “hedge one’s bets” and join “just in case” this extraordinary message is correct. The upside is astronomical, while the downside (or cost) is modest.⁸ (Furthermore, as one reviews documents and videos relating to this program, and as one becomes more familiar with it, I think one’s confidence in it will likely grow.)

//////////**END**//////////

⁸ The costs of being a member of a *Sovereign Cooperative* are modest. In my cooperative, the *Freedom for All Consumer Cooperative*, there is a \$10 nonrefundable application fee to join. And one is expected to participate in video conference meetings (via Zoom) when we have them. I estimate that we have been having such meetings in my cooperative on average about once per month and that the meetings last an average of maybe an hour and 15 minutes or so (but the frequency and lengths of the meetings vary; and the frequency could increase). One will have to supply identifying information, including an image of one’s driver’s license (or other state or federal ID), one’s address, email address, name, date of birth and phone number. (One does not need to supply a Social Security number.) Those are all the costs I can think of for being a co-op member. (Once one becomes a co-op member and once the co-op become properly established each member is expected to find a way to contribute to the creation of the *Bright New World*. Each member can contribute with whatever skills, talents and/or abilities he has.)
