Supported devices - Moto X Pure, Samsung Galaxy J7, Honor 7 Octa Core, Sony Xperia, Asus zenphone max pro m1, Asus zenphone max pro m2, Asus zenFone Selfie, Samsung Galaxy J7 Dual, Samsung Galaxy J5, Samsung Galaxy J2 2019 and can have more devices that have dual LED front and rear light flash. Google Playstore link Front and Back Flashlight Alternatives Apk. This Android app lets you combine either your own front and back screen flash. It has a very simple interface and a small size for anyone on any computer to use quickly. These are the same features as other apps with nothing else, but we found fewer bugs and a lag issue compared to other same app features, so you can try it out. Supported devices - Moto X Pure, Samsung Galaxy J7, Honor 7 Octa Core, Sony Xperia, Asus zenphone max pro m1, Asus zenphone max pro m2, Asus zenFone Selfie, Samsung Galaxy J7 Dual, Samsung Galaxy J5, Samsung Galaxy J2 2019 and more. Playstore Link - Download Top 10 Alternatives 2 Flash APK List Front and Rear Flashlight 1.9 Mb 2 Front and Back Flash Control 500 Kb 3 Dual Torch 2.3 Mb 4 Flash Light 3.1 Mb 5 Dual Flash 5.5 Mb 6 Selfie Flashlight 1.9 Mb 7 Front/Flash Rear 1.4 Mb 8 Dual Torch 758 Kb 9 Front and light 0.9 Mb 10 DLight 1 Mb You can see the table here. This is the top 10 alternative android app to manage as a flash light. who is selected by top users and its rating is higher than Android app. You can see above the full descriptive information from the top 3 android flash control, if you are not satisfied with this then you can also try this 10 apps. they all worked the same, but each one had some spacial and extra features. We are sure that you will be fully satisfied with this You get a solution for what you were looking for. However, if you have any questions, you can comment in the comments section. We will try to answer your question as quickly as possible, or you can also mail us. You can find our email ID on the page to contact us. Frequently asked questions to spend money on it? - I think it's a normal Android app for which you don't need to spend money or buy a pro version of the Android app. What's better? - We were given a list of all the apps above. There are some advantages in everything, there are some drawbacks. Not all features are useful for each of them. So you have to choose which app is good for you. Is it coming with a bug? We tried to find the error, but we didn't find a serious problem with the errors. Even if this is the case, developers are always trying to fix bugs in upcoming updates. So don't worry about it. Does the size of the app matter? - I don't think so the size of the Android app matter so much to control phones as flash light. Because this work is done by coding. If the size of the Android app is larger then you get good graphics in it, and if the size of the Android app is small, then you get a simple interface. A secure platform to download Android App Cyber crime in rapid development has jeopardized our lives in millions of ways. Especially when our lives revolve around smart devices. Currently, more than 5 billion smartphones are used in the world. The same person uses more than one smartphone and smart device. If I'm not mistaken, the beginning of your day starts with a mobile phone. Am I right? Smart devices are very useful in our lives. Most of our work is now being completed by them. In addition to being useful, technology is also a threat to us. I'll give you the same advice that you shouldn't make any mistakes in using it. So you'll never have any problems. Viruses can also enter your phone through the Android app. You have a lot of personal files in your phone as well as your banking information. Don't download any Android app from anywhere and use a secure platform. The Google Play Store is a secure platform. You can easily download any app from it.
