Our key to success is selling parts that fit and work the same as the originals. That's why so many mechanics make us the best choice for spare parts. Product Description All Racing Carburetor Repair Kits DB Electrical is proud to offer original carburetor repair kits for All Balls Racing carburetors. All balls are considered to offer the most versatile and efficient line of mechanical parts for powersports vehicles. All Ball Racing kits are based on the assumption that you should spend less time repairing and more time on the ride. Therefore, these assemblies contain all the components needed to perform a specific type of repair. Why waste time sourcing parts here and parts when you can get everything in one convenient set? The All Balls Racing expert team supplies all the parts you need to complete the repair and get back into action on the road or trail. Reasons to choose all Racing Carburetor Repair Kits balls include all O-rings, gaskets, nozzles, needle, screw mixture, float bowl screws, float valve needle and socket. The needle stream and other streams pressed into the streams are not included in the set. (Note: specific parts vary depending on the set depending on the needs of the vehicle model.) OEM stream sizes are included in the set. NBR rubber material is used on all o-rings and rubber seals. NBR has excellent resistance to ethanol used in Fuels. The kits contain all the necessary ingredients to repair the carburetor. ATV models with two carburetors include components for repairing both carburetors. For off-road use only your satisfaction satisfaction Ensured - Each product is covered by db electrical's one-year warranty provides exceptional value for products that we lag behind with our total trusted one-year warranty. Yes, you have a whole year to make sure your purchase meets your expectations.
