ULTRA LONG-RANGE
SNIPER RIFLE

DXL-4

SEVASTOPOL

CALIBER .408 CT/.375 CT

MAXIMUM EFFECTIVE RANGE (TESTED) 2300+ M

TECHNICAL ACCURACY 0.45 MOA/13.5 MM BETWEEN CENTERS (5 shots at 100 m)

OPERATING TEMPERATURE RANGE -45/+65°C

MUZZLE VELOCITY 900+ m/s **LENGTH** 1400 mm (1076 mm with folded stock)

TRIGGER PULL adj. 500-1500 g **HEIGHT** 210 mm

BOLT HANDLE right **WIDTH** 43 mm

BOLT ACTION right **WEIGHT** 8500 g

MAGAZINE 5 rounds **BARREL LENGTH** 780 mm

WE'VE DEVELOPED NEW ULTRA LONG-RANGE SOLUTION BASED ON DXL LINE: FOR COUNTER-SNIPER, SPORTING AND HUNTING TASKS.

DXL is a unique long-range precision rifle built on a modular aluminium alloy frame. It combines the advantages of the classic design (absorption and rigidity). But at the same time it is made of aluminium that is highly appreciated by many shooters. Due to this we are certain that we've taken the best of the two systems. This rifle shows more than impressive precision, surprisingly big combat range and works very well in most extreme conditions.

For those who'd like to take it even further our single version DXL-4 S is worth trying: with standard right port, microport and dual port.

Our LOBAEV Hummer Barrels benchrest-grade stainless steel barrel completes the picture. Standard (basic) contours are also recommended, but length is somehow more flexible than with TSVL.
