Log In Body Works is a beautifully equipped, comfortable and affordable 24-hour gym. It has first-line equipment for all needs, from the most specific (people in surgical recovery, athletes doing their moderation work, strength athletes with specific needs, special, teams, etc.) to the most general. The person who wants a stress-free, clean and friendly environment while looking for better health or getting fit will find it a great place as well as the pregnant lady who needs safety. I'm a power lifter and the gym has everything an athlete needs, including opening his doors to our competitions. Great place for a workout! Friendly management, clean, willingness to take offers, all inclusive, 24 hours and low fees are advantageous. They also have an extra store with low prices. I highly recommend this gym, at least go check it out. The new owners really turned this place around. Don't spend your money it's a small gym with not many free weights. I think coaches got their accreditation from the back of a cereal box. The owner doesn't like people dropping weights at all. If he can hear them fall, he comes

out and tells you how much everything you use or harmful costs to replace. The only positive thing is 24-hour access. Unless you're... A girl who only wants a treadmill and a tan, this gym is not for you.
