Comprehensive Practice for Computer-based other FE Discipline FE Other Discipline Practice Problems contains over 320 problems with multiple options that will strengthen your knowledge on topics covered by the NCEES Other FE Discipline exam. These problems are designed to be solved in an average of three minutes to demonstrate the format and complexity of the exam, and to help you focus on individual engineering concepts. Like the exam, the problems are grouped by engineering. The solutions are clear, complete and easy to use. Step-by-step calculations use equations and item from the NCEES FE Reference Handbook to help increase your familiarity with the exam reference provided. Units are carefully identified and carefully executed in all calculations. FE Other Discipline Practice Problems can be used by themselves for independent problem-solving practices, or it can be used in conjunction with the FE Other Discipline Review Guide. This book follows the FE Other Discipline Review Guide in the chapter sequence, nomenclature, terminology and methodology, so you can easily find clear explanations for where you need more support. Both products are part of a comprehensive PPI review program available on feprep.com. Topics covered by ChemistryDynamicSequity, Power, and MagnetismEngineering EconomicsThis and Professional PracticesFluidic Mechanics and Dynamics of Gases and LiquidsSeng, Mass, and Energy TransferInstruction and Acquisition Of DataMateria ScienceMathematics and Advanced Engineering MathematicsSecurity and StatisticsSecurity, Health, and EnvironmentStaticsStreng Materials Review of the Amazon.com Work out the problems and you will definitely pass (of course you should know a little bit about the technique as well). Don't just read solutions, work through problems and then check solutions... or work as much of the problem as you can and then move on to a solution for help. The author tells you that you should supplement this book in order to fully prepare for the test, but I don't think it's necessary at all. (Published September 29, 2017) highly recommended. I also purchased a hands-on test from... The Amazon Customer Review is bought in conjunction with the Lindeburg Review Guide and the TI-36X Pro Calculator. Passed the test my first attempt, highly recommended. I also purchased a hands-on test from the NCEES site, I did 60 on it, but still passed the real test when I took it in the morning. (Published on 12/11/2015) a good review of GUAN liked everything (Published on 6/3/2015) List price: \$158.00 Save: \$120.92 (77%) In the warehouse. Rent from RentU Performed by Amazon Execution Amazon (FBA) is a service we offer to sellers that allows them to store their products in centers Amazon, Amazon, We directly package, ship and provide customer service for these products. Something we hope you especially enjoy: FBA items are eligible for free shipping and . If you're a salesperson, Amazon's performance can help you grow your business. Find out more about the program. Add to the cart deadline: December 16, 2020 Rent Details FREE return delivery at the end of the semester. Access codes and add-ons are not guaranteed with rent. The PE School has been providing a review of classes since 2004 and is a respected supplier from Ohio: \$1,000 early poultry, The \$1,300 regular price review classesLive web classes or self-walking classesAll 7 disciplines taught by Professional Publishing Inc. has been around since 1975, and comes with great reviews and is based in California: \$1,260-\$2,200 depending on the disciplineLive web classes or self-driving classesAll 7 Disciplines Coursera and Georgia Tech course gets a lot of attention, and has a paid version. It's rated very well and the level of training is good. The \$50 version provides access to assignments and quizzes, but instruction is available for freeSelf tempo video courses, but only offered on specific datesFE civil and FE mechanical Testmasters is one of the few commercial providers holding in-person review classes in many locations in the U.S.: \$550 student, \$1,000 early bird, \$1,100 regular. Live in person classes or live/self-developing hybrid or self-developing classes. All 7 disciplines are taught. Prepioneer is a review software founded by the EITE team: \$250 per month. Self-paced classesGeneralized for all disciplines there are very few reviews from this software, but these gentlemen are hosting a lot of training webinars and Facebook videos. Waseem Asghar has a class review for FE Electric and Computer at a very reasonable price: \$99 per monthSelf-developing classes and a review of examsAs mentioned by FE Elec and Comp Discipline only Capstone Learning Associates has a course review for all disciplines, but FE Industrial and FE Environment: \$700 Self-Paced classes know very little about this team, and there's not much for reviews online. Brightonwood, formerly Kaplan, provides a review of classes for all disciplines, but FE Chemical: \$800-\$900 depending on discipline. Self-sustaining classesFE Civil, FE Electrical, FE Environmental, FE Industrial, FE Mechanical, FE Other Disciplines. This team provides review courses in several disciplines: \$365-\$450 depending on the discipline of theSelf-paced courses FE Civil, FE Other disciplines EIT Experts conduct survey classes for several disciplines. I hesitated to include this vendor, as some reviewers say very badly about them: \$550 on-demand courses \$850 live class early bird, \$1,350 live class regularFE civil, FE FE Other disciplines only. Excel Test Prep holds a class for several disciplines as well, but one of the few providers hosting in-person classes: \$1,000 live web classes \$1,000,000 CLASSESFE Civic, FE Mechanical and FE Other disciplines only. EET conducts live web or self-developing classes: \$990 live or self-pacedFE Civic-only U of M provides FE exam class review for students: Paid for studentsIn face classesFE Civic-only Colorado school mine offers a class that is free for its students: Free for its students and \$250 for other Face classes on Monday nightOn discipline specific NCU offer a very reasonably priced course review : \$50 for students \$200 for otherSelf-evolving classesUn discipline specific Minnesota Society PE offers paid classes for most disciplines, But they're not cheap: \$750 for members \$950 for non-membersSelf tempo review classesFE Civic, FE Electrical and Computer, FE Mechanical, FE Other Discipline Cal State U offers class review for multiple disciplines: \$275 for students \$375 for others, Electrical FE, FE Civil IISE offers FE review course FE Offered in Oregon U offers a class for FE Industrial:\$100 for students \$125 for otherFE Industrial-only Pennsylvania U offers FE review course for students and alumni:\$650 students and alumni In-person classes No discipline specific Kansas State U offers class for students only (as far as we can tell) Self-Paced classes, from Montana, offers a class for its students: Free for students II offer FE review classes for most disciplines, they're pricey: \$1,000 Live web classes or self-developing classesFE Chemical, FE Civic, FE Electrical and Computer, FE Mechanical, FE Other Discipline U T offer in-person FE review classes: \$745 early bird, \$795 regular-face classes No discipline specific U from Utah offers a class overview that is free for students: FreeIn-human discipline classes Not:FreeFE Chemical is only a very well organized video set. Nevada U offers a FE class review for its students called CEE499: Paid for Students (Unknown Price)In person classesFE Civic Only This university has a class review for most disciplines: \$750 for studentsIn person classesFE Civic, FE Electrical and Computer, FE Mechanical, FE Other Discipline Florida U offers web classes for FE:\$900Live web classesOn discipline specific U Washington provides FE review classes on Monday night :\$950In-person classesNot discipline specific ASCE provides a reasonably priced FE course review: \$325 for members \$395 for non-membersself-developing classesFE Civic only FE exam is all about time, and you'll only have a few minutes to question (part of the testing theory to give you more questions than you can reasonably So don't feel bad if you don't get to them all. But understand that your biggest time saver is your NCEES approved calculator and you better know it inside and hustle. It's a good one. We have created this collection of FE Exam Calculator resources and tutorials for you fluid properties (e.g. Newtonian, non-Newtonian, Indefafatic numbers (e.g. Reynolds number, Frud number, Mach number), Laminar and turbulent flowFluid static (e.g. hydrostatic head)Energy, pulse and pulse equations (e.g. Bernoulli equation) And flow of ducts and friction loss (e.g. pipes, valves, fittings, kelp) series and parallel operations)Measuring the flow (e.g. pit tube, venturi meter, Weir)Turbomachinery (e.g. pumps, turbines, fans, compressors)Perfect gas law (e.g. non-reactive gas mixture) Real gas law (e.g., just wanted to say swamp thanks to everyone here. If you ask) It's basically problem recognition skills Skip all really difficult problems (there's a lot) the testing center is a bit confusing as it works - know where you need to park and if you need \$. Get them early. Flag difficult problems to go back to them later - the tutorial at the beginning tells you how. Don't miss it. Check your units! Sometimes it's hard. like cubic feet per minute until gpm. Focus - don't get rattled. They test to see if you can stay motivated throughout the exam and not give up. about 80% of the problems were doable. - if you have prepared in advance. Good luck! Study!
