Natalia of New York, NY Verified Reviewer Verified Buyer Original review: July 3, 2020Based on a person's situation, American High School might be a good option. The costs are affordable, but the quality of education is mediocre. I wish they had more differentiation as far as how they learn their courses. I'm a teacher myself, and I don't think there's enough connection to real-world situations. It's easy for kids to get lost in the curriculum, just reading a book and not being able to apply what they've learned to the real world. Simply reading a textbook and taking a review are not enough to prepare you for college and for you to be able to apply what you have learned. However, I do like that you have the opportunity to review to improve your grades. My daughter is doing pretty well, but she sometimes struggles to stay focused because just reading a book and watching a video can become really boring. I hope they would take on more projects to diversify it a bit and give them more practical experience. I didn't really like the social environment at my zone school and that's why I chose to do online education. But I don't know if we're coming back next school year. I like Brianna. She's amazing. If I have any questions about how my daughter is doing, whether she's on track or what she needs to do to stay on track, I'll call. There's a lot of work. I feel like it's a lot stricter than a regular school and my daughter has never done this before. But Brianna is really cool and helpful. Read Kelly's full review of Rockford, IL. Verified Reviewer Verified Buyer Original review: July 2, 2020My son had problems in public school and he had a really difficult few years with depression. I thought to get him out of that scene, it would be better for him to do online schooling. American High School's price was great and is a lot cheaper than many others I found. I like that because I'm a single mom with two kids. My mom had to pay for this for me, but she won't be able to pay for it for too long. So I have to take over. It's 85 a month and I can afford to do it, which I'm pretty grateful I'm surprised that American High School's price is so cheap because of the way they set everything up online and we're able to chat with the teachers. I can always call our counselor, day or night, and she's there to help us. Also, everyone is pretty there and I really like it. Our interactions with their school reps were great and I love them there. They're so nice, they answer all our questions, and they're always there to help when we need them. My son did seven classes with them, including PE, algebra, and social studies. But he stopped for a bit because of the summer, so next month we'll get back on the ball and start rolling again. He's really enjoying it. It was really hard to treat the kids every time we fly. We looked at websites and read all the reviews. I also ask my daughters about what they thought about three different options. They said they liked one. The enrollment process was simple. We are very new to this kind of thing and the beginning was a bit confusing for us. But months later, we felt comfortable. The interactions with the teachers are really good. My seven-year-old isn't that social a person, but she said she was fine. If she's confused, she'll just text them. She has a website and is in direct contact with them every day. We are very happy with the school. June 15, 2020 American High School comment Thanks Graciela! We are very happy and happy that your daughters like our program. We strive to make it as easy as possible to enroll and our teachers and counselors work very closely with all of our students, because that is the most important part of online education. The staff, administration, and everyone at American High School appreciate you taking the time to provide this valuable feedback. Thank you. American High SchoolAdministrationBecca of Providence, RI Verified Reviewer Verified Buyer Original review: June 1, 2020My stepdaughter was in traditional high school, and it was her ninth-grade year, and she failed every academic class. She really wanted to take health careers into career and tech at the school that was in my area. They would make her a 10th grader, even though she had failed in the 9th grade, they would double her classes so she could still be a 10th grader. But if they did, she couldn't have had a health career. In order for her to have a health career, we decided to teach her at home. I watched online schooling and I really liked them and I liked their price. They weren't too bad in comparison some of the others, because it is quite expensive, the homeschooling costs for them. American High School is on the cheaper side. As of now, with COVID, her final year now in the healthcare career, she had to get her CNA license. She was almost there. They went to the nursing homes. But then, that was cut off, and she wasn't able to do the CNA test, and she lost out on that. This has gone crazy because she should go back next year for her EMT license. That costs a lot to do out-of-pocket and school plans to pay for almost everything. This one's going to be huge. But if they're not going to do it, why am I paying \$2,000 a class to have her home? I don't know if I want to pay for that for the next two years if they do this again next year and keep all the kids at home. It's really scary and she doesn't want anything to do with it. She doesn't want to do this lesson at home, learn nothing. The last few months she got 80s and 100s on everything, but she didn't really learn anything. She wasn't in a class with the bed, the sink, and all the different medical equipment. Right now, to have her make videos, and she has to pretend to wash her hands and pretend to put you in a chair. Pretending not to go and it's going to make us crazy. But they are really excellent. I really like American High School. All my worries have nothing to do with it. American High School is very on-the-ball, for the most part, especially its counselors. They are very great and helpful. When you need them, you just email or call them, and they get back to you as soon as they can. They're always there. Sometimes it takes 24 hours to get a hold of someone. But they're in Florida. I'm in Rhode Island. And school is seven days a week for them. I don't know any of their own schedules. They usually posted them, though, for the kids. Most counselors can even help you through most of the things you think you need your teacher, but you don't. They have a lot of knowledge. You work at your own pace, or you participate in a class with the teachers. She tends to work at her own pace and doesn't go on actual classes herself. She really dragged her feet in the beginning. Then, all of a sudden it pulled out her ass, just cranking right through it. It was great. They went from one assignment a month to five a day. My stepdaughter wasn't going to abandon anything to an honorary student either. After her ninth grade was over, they offered her to go to honor classes, and that's something she would never have been offered in regular high school. Read the full review June 15, 2020 American High School response BeccaThanks for feedback. American High School strives to keep our online education offering affordable for parents. I'm glad you found the tuition, your range. It's great that your daughter is able to do both her academic curriculum for 9th grade and health career. Doubling her coursework does not seem practical or realistic to ensure her success. We are glad you chose us and will continue to work hard to keep her on track to graduate. American High SchoolAdministrationIstvan of Newark, NJ Verified Reviewer Verified Buyer Original review: May 28, 2020We weren't happy with what our daughter got at the private school and in the area where we live, a public school isn't really safe, so we tried something different. It was a lot of fun with the representative of American High School. Every time I call, they call me back. We can talk honestly and help them. And it looks like our daughter is doing much better. Last year, she got behind and stopped and they asked me for an extra \$1000, but I was happy to pay because it helps her. June 15, 2020 American High School response IstvanI am just glad we were there in the assist. Making decisions like this can't be easy, and we're just glad she's enjoying her online teaching experience at American High School. The counselors try and keep the students on assignment to complete their courses on time, but sometimes they get behind, so we'll keep trying to stay motivated and work to complete her studies. American High SchoolAdministrationAixa of Bridgeport, CT Verified Reviewer Verified Buyer Original review: July 8, 2020I live in Bridgeport, Connecticut and the school system on the public schools is not that good. My son was going to a high school that he doesn't like at all. They go through district, so he said he wanted to go online education. We took that as our other choice and he started looking and he found American High School. We talked to Brianna and Pedro and he came in. It was a first time for us so sometimes if we have a problem or any concern, we call Brianna or Pedro or someone there and they help us really quickly. So far, we have no problem with it. It's been very good. July 8, 2020 American High School comment Thanks Aixa! We are so happy to have Joel as one of our students. If you ever need anything, let us know. Thank you for participating in American High School and being part of our school community! Michelle van Elgin, IL Verified Reviewer Verified Buyer Original review: June 27, 2020My daughter is going to American High School and we chose to enroll there because she had severe anxiety and we needed time to work on that. The counselor in high school had us a few recommendations and American High School was one of Since we signed up there, it's helped. She got better grades in online school than she did in high school. Also for her courses, she has more of a variety to choose from versus what she had to at school. She really likes that, and I like that, too. She's taking forensic science now. She mainly took the electives – cosmetics, theatre, film. Looking at the cost and quality of education, I think it's perfect. The cost can be much higher and it is not. I don't like having to pay for it. But I have to do what I have to do. Michelle van Fayetteville, NC Verified Reviewer Verified Buyer Original review: June 12, 2020American High School was the best option for us. The cost isn't that bad. My daughter, Mariah, found it. When doing research, she chose the school she wants to go to. We tried it out and liked it. It worked well, so we went through with it. The enrollment was good. The school staff checks Mariah and sends me e-mail. They'll send me her progress report and let me know about her grades. They're good. Mariah learns a lot. She's been supporting Ash and Bs. She likes it. June 15, 2020 American High School response Thank you Michelle for your review. American High School is very happy that your daughter is doing well and continues to excel. American High SchoolAdministrationAj of Asheville, NC Verified Reviewer Verified Buyer Original review: June 1, 2020The schoolwork was very in-depth, I feel learned enough to pass the classes however, the tests where very tricky and specific, often leads to incorrect answers. The teachers where nice, I didn't have much contact with them, and had to review most things from myself. G. of Ca, CA Verified Reviewer Verified Buyer Original: May 29, 2020We were looking for a good online school and I was recommended by someone to American High School. Both my grandchildren took classes there. I don't think the staff communicated much as they should. I'm a teacher myself and I know how to keep teachers in touch with parents. I don't think this school does that. They used to do enough, but when they had to make the switch, they made some changes, and unfortunately they weren't good changes. The way it was with my first granddaughter was perfect because I got messages when she was doing homework. I got the whole book from them, I felt like I was a part of everything. But with my other granddaughter, I. I. left out in the cold. The learning experience has been good, but the assessment system is difficult because they have it based on percentage factor. There's a young lady, Brianna, and she's been great. She's been the mainstay of that place. She's going to keep in touch with us. She's doing her best to make sure we get what we need. She's really running herself ragged to make sure we get all the help we need and trying to get things done. But one young lady can't run the school alone. We need everyone connected. And any counselor assigned to a child must be the one who seeks contact, not the ambassador, but the real counselor. I don't think they did it right there. But it's not a bad school. Read beaverdam's full review Althea, VA Verified Reviewer Verified Buyer Original review: May 28, 2020I think content should include more educational videos and interactive content. Some content, especially the end of unit projects in social studies and science, takes my child a lot longer than the lesson indicates it should and my child needs a lot of help with it. While she's doing well with them, I feel she's above her grade level in trouble. Nerlande G of Gretna, LA Verified Reviewer Verified Buyer Original review: May 27, 2020I am in American High School, I am studying for international baccalaureate. I like it, there are some courses that are really important and interesting, but it's so hard work because we have to do different topics and there's a lot of work for each, so I don't have much free time. To be honest I really love AHS, it makes me strong and always take my time in learning many things that can help me for my life, I'm really enjoying it and I appreciate all my teachers doing it. May 29, 2020 American High School comment NerlandeThank you for the wonderful comments. I recommend you to study for the International Baccalaureate. I know it is extremely rigorous and demanding. We're glad you're from American High School, despite the heavy workload with IB classes and AHS classes, but you'll see that it will be worth it at graduation. Keep up the good work and I will let the teachers know that you appreciate and enjoy the courses and their help. Greetings, American High SchoolAdministrationJames of Cut Bank, MT Verified Reviewer Reviewer Buyer Original review: May 27, 2020As parents of a student who switches from regular high school classes to Online classes, we received no guidance in helping our son to switch. Almost a year of time has been wasted. He is now beginning to understand the difference and is beginning to learn. For almost a year, he clocked more or less hours. Just in the last few days he has actually learned something and enjoy his lessons. We even wasted an extra \$14.95 a month on a tutor he never used because he couldn't find instructions and he's not one to ask for. At first we would make a call every week then no calls until about February when there was a problem with my credit card. Once that was picked up never another conversation. Skyler had to call a few times for his sign on information when we had a computer problem, but no one from the school calls. Evens of Brooklyn, NY Verified Reviewer Verified Buyer Original review: May 26, 2020Why I m sure I am sure I can say I had a very good experience with American High School because when I call as a consumer I always find someone very polite and ready to answering and helping students. For the courses, the system is very easy to use. If I have a problem, the teachers are always there to respond and help. I think American high school is doing very well. Thanks a lot. May 27, 2020 American High School response EvensWe are really committed to helping all of our families and students to ensure that you get the support you need as you complete your online coursework.
