

The main goal of the research team of the **Department of Management Theories**, Faculty of Management Science and Informatics, University of Žilina in Žilina, in the field of sports management, is to integrate the academic perspective and apply management approaches with the support of information and communication technologies in sports.

We have been intensively studying the topic of sports management for **more than 12 years**.

WE ARE DEVELOPING THE RELATIONSHIP AMONG EDUCATION, SCIENCE, AND SPORTS ON THREE LEVELS:

PREPARATION OF SPORTS MANAGERS

RESEARCH IN SPORTS

EDUCATION OF ATHLETES

As a part of **TEACHING**, we are enhancing the education of future sports managers so that they become professionals with insight into the sports environment connected with the knowledge acquired at the university. They can acquire knowledge and skills from several relevant courses, including **SPORTS MANAGEMENT 1, SPORTS MANAGEMENT 2, INFORMATION TECHNOLOGY IN SPORT**, and **SPORT PSYCHOLOGY**, project teaching, and the elaboration of final theses focused on this topic.

74 students

project teaching

178 students

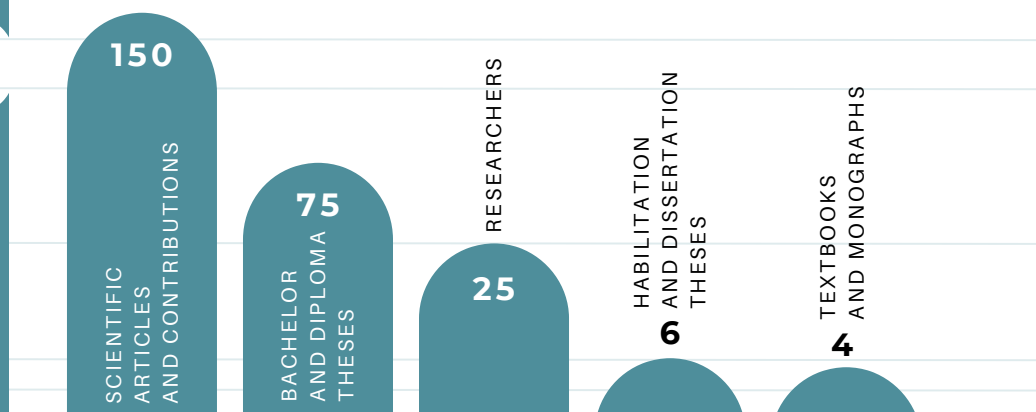

sports management course

Faculty of Management Science
and Informatics

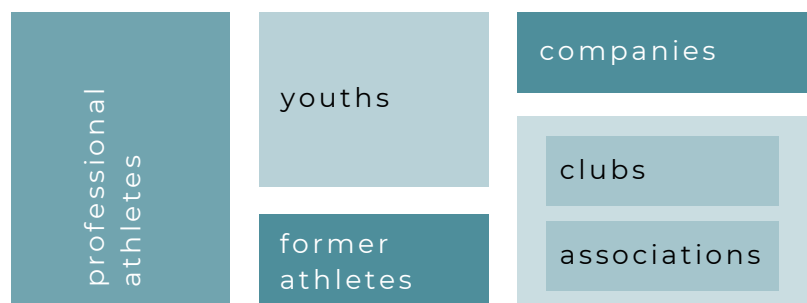

The **RESEARCH ACTIVITY** aims to improve the operation of sports organizations based on data analysis, digitalization, and managerial recommendations. We cooperate with various organizations, including leading sports associations, sports clubs, and local governments. Numerous proposals have already been implemented and have helped to make these organizations more sustainable.

As part of the current athletes' education, we prepare them for their future careers after the end of their active sports careers. We focus not only on key knowledge and skills but also on the ways of effectively transferring them to athletes. We are gradually building our e-learning portal: **www.sportman.sk**.

CAREER AFTER SPORTS CAREER

ATHLETES' EDUCATION

The **SMICEE conference** is the result of the processes leading to the overall development of sports in Slovakia. Representatives of European universities engaged in sports management can connect with representatives of Slovak and international sports organizations at this event. It is a unique platform in Slovakia.
