Stunning deck I have several tarot decks, and this is my favorite. The artwork is sublime, and the

LWB is wonderful.

It really resonates. Love that there are feminine counterparts to typically masculine cards. Love these cards Great customer support too. Love the images on these cards. These are beautiful cards and amazing art. The only issue is that the cards are not too thick. Other than that, recommended! The cards are difficult to shuffle because of the way they were printed. All the cards were cut image face up so it's easier to shuffle evenly image side up. The uneven shuffling is also caused by the silver gilding and gloss finish which makes it difficult riffle shuffle the deck. There's 83 cards so it's best to shuffle image side up and broken up in small stacks of cards.

So far the gilding is holding up. The gloss finish does make the cards a bit slippery to handle and the cards themselves are thinner than other decks. It seems they traded sturdy cards for gloss and gilding. The imagery is stunning which is why I'm keeping it. Tarot of Mystical Moments Beautiful, amazing cards! Thank you! Absolutely gorgeous deck. Absolutely beautiful deck. The box that it came in gorgeous. The silver foil on the edges beautiful. The cards are larger which I tend to like. Other than that they are beautiful. There are lots of details to interpret your own story to them which I absolutely love. Well done! Only registered users can write reviews. Please log in or register. Get the App.

Each illustration is poetic and magical and the quality of the deck is perfect. Really well priced too! Great gift for my friends who love art. Catrin Welz-Stein has created an artistically beautiful tarot deck that celebrates the physical plane feminine in all its occult diversity. She even made the four kings and The Emperor feminine she later added five additional cards which provide masculine interpretations of those cards for traditionalists. She admits the project was daunting. She struggled to make the Smith-Waite Tarot symbolism her own. The end result is a series of illustrations that are impactful, insightful, and seductive. The women in these cards are powerful. They wear their strength along with their vulnerability.

They are content within themselves even as they reach out to readers. Welz-Stein has honored Pamela Colman Smith by connecting with her strength of spirit and bringing that energy of determination into current times. She has made the most popular, traditional tarot her own. The production quality is very high with this deck - good cardstock, sturdy box, silver gilding that stays on the cards, a decent booklet, flexible archetypes and a gloss finish that makes the images pop. Now, as to the tarot itself. Having said that, this is an unusually intuitive deck that makes itself really clear quite quickly. This is a deck that lends itself very well to personal work and with its highly intuitive aspect, reads situations with a high degree of accuracy without a lot of arcane symbolism to decipher as well.

Books Kinokuniya: Tarot of Mystical Moments – Kit / Welz-stein, Catrin ()

I collect old images and illustrations and put them together in Photoshop. Using digital medium I have far more creative possibilities and I can work much faster than on the Canvas. That Nine of Pentacles! Love it. They appeal to the same sensibility. Like that Four of Cups, right? I mean, wow. Those who enjoy a definitively more feminized otherworldly-spectral aesthetic will adore Tarot of Mystical Moments. I read in a review of this deck I would totes give credit if only I could remember where I read it! I see that. By the way you may have noticed that the bottom card captions are color-to-element coordinated. Upon first impression, I thought the artwork was soft and gentle, and I mean, the mollifying of The Devil card in this deck certainly gave me that impression. And yet some of these illustrations are oddly uneasy to look at, and emotionally challenging. Like both the Eight of Swords and Nine of Swords! And all those eyes on the nude body in the Nine of Swords is weirdly distressing.

The original intention of the artist was that all the Kings and The Emperor cards were changed to female figures, but with publication of the deck, added the male versions. It works. Due to the high-gloss finish, the cards still feel quite sturdy, and will hold up to ordinary wear and tear. I will say that the complaints about production quality that I read in some reviews surprised me. To me, the quality was just fine. I personally like decks that stray from the traditional Rider-Waite system but it should at least adhere to its fundamentals. The images are amazing but most of them not all have ZERO to do with each card's meaning. We have "evolved" to a higher existence to see beyond our current form!

If we put other ethnicities or cultures of people on this plane of existence into our Tarot decks, it is because it has a depth of meaning for a user to

see more clarity as to what the querent is asking about. What is disappointing about this Tarot deck is this annoying "need" for "white people" to inject their bizarre obsession with "gender identity" OR authors who "force" their ideology into their works. This deck is polluted with it. I have more "male queens" in my life than I do female "kings". It makes no sense honestly. I NEED a "spiritual tool" that conveys "meaning" and depth regardless of the skin color or gender of their characters. And it is obvious that the author is anti-male because once again No black men. I mean If you're going to go Black at least do both genders! Just sayin That's how I know this is not done to aid in the depth of the cards. Only white people "need" diversity to satisfy their twisted EGO. As a Black Woman, it's insulting, to say the least!

Tarot is a spiritual TOOL period.. The author is traditionally an Oracle deck creator. Oracle decks came into existence recently onto the divination scene. They have been around for a long time but were not popular until recently. I feel like the author needs to do more "study" on Tarot and create images that honor it. Stunning deck I have several tarot decks, and this is my favorite. The artwork is sublime, and the LWB is wonderful. It really resonates. Love that there are feminine counterparts to typically masculine cards. Love these cards Great customer support too. Love the images on these cards. These are beautiful cards and amazing art. The only issue is that the cards are not too thick. Tarot of Mystical Moments is a very beautiful, bright and colorful deck. Moreover, it is filled with inner meaning and idea.

These cards are fabulous and mysterious. They don't reveal their meaning right away. It takes time to think about their images, the sensations they evoke, and your own feelings. Catrin's art is made in the technique of collage and are full of vivid images as if they came from dreams and fantasies. These cards trigger powerful emotions and are able to awaken your feelings and intuition. I think this approach is both unusual and refreshing. There is some inclusivity of representation, in terms of culture and body types, which also makes this not your average deck. It is unapologetically female-oriented, which I definitely appreciate — in fact, the deck is not your usual 78 cards, but instead an card deck. Why, you ask? Because all the traditional cards represented as male are re-imagined as female — think female King of Cups, etc.

Emperor and all 4 King cards. The owner of the deck can choose to leave out either gender representation or leave them all in, at their discretion. As with most decks produced by US Games Systems, the quality of the deck is top-notch. I waited so long to put this deck in my hands, I nearly cried upon seeing their beauty. Such a perfect tarot deck. The lining of the cards a radiant silver. Never have I seen such a magnificent deck. Catrin is one of my all time favorite artists but this one far surpassed any expectations I could have had.
