THE TEAM

With Aglaé, the science serves the beauty of the plants. Our unique expertise is as between the design office and the laboratory researches.

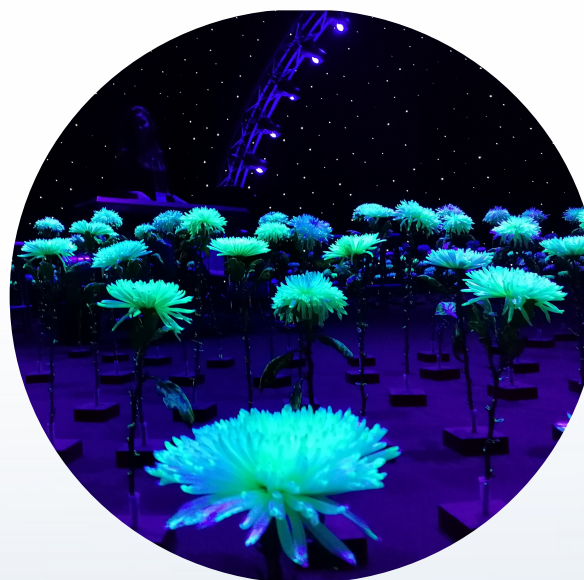

We are a dynamic and creative team, composed of researchers and designers who work together to make you live the most beautiful luminous experiences.

OUR ACTIVITIES

R&D

A unique, nutritive and biodegradable serum, sublimates natural flowers with a surprising luminescent effect.

Scenography

We stage our technology through original and custom installations.

Know-how

Our know-how combines plant transformation and our mastery of black light.

OUR REALISATIONS

Cédric Villani sur le plateau de TEDx

L'ORÉAL

Aglaé x Altitude Infrastructure

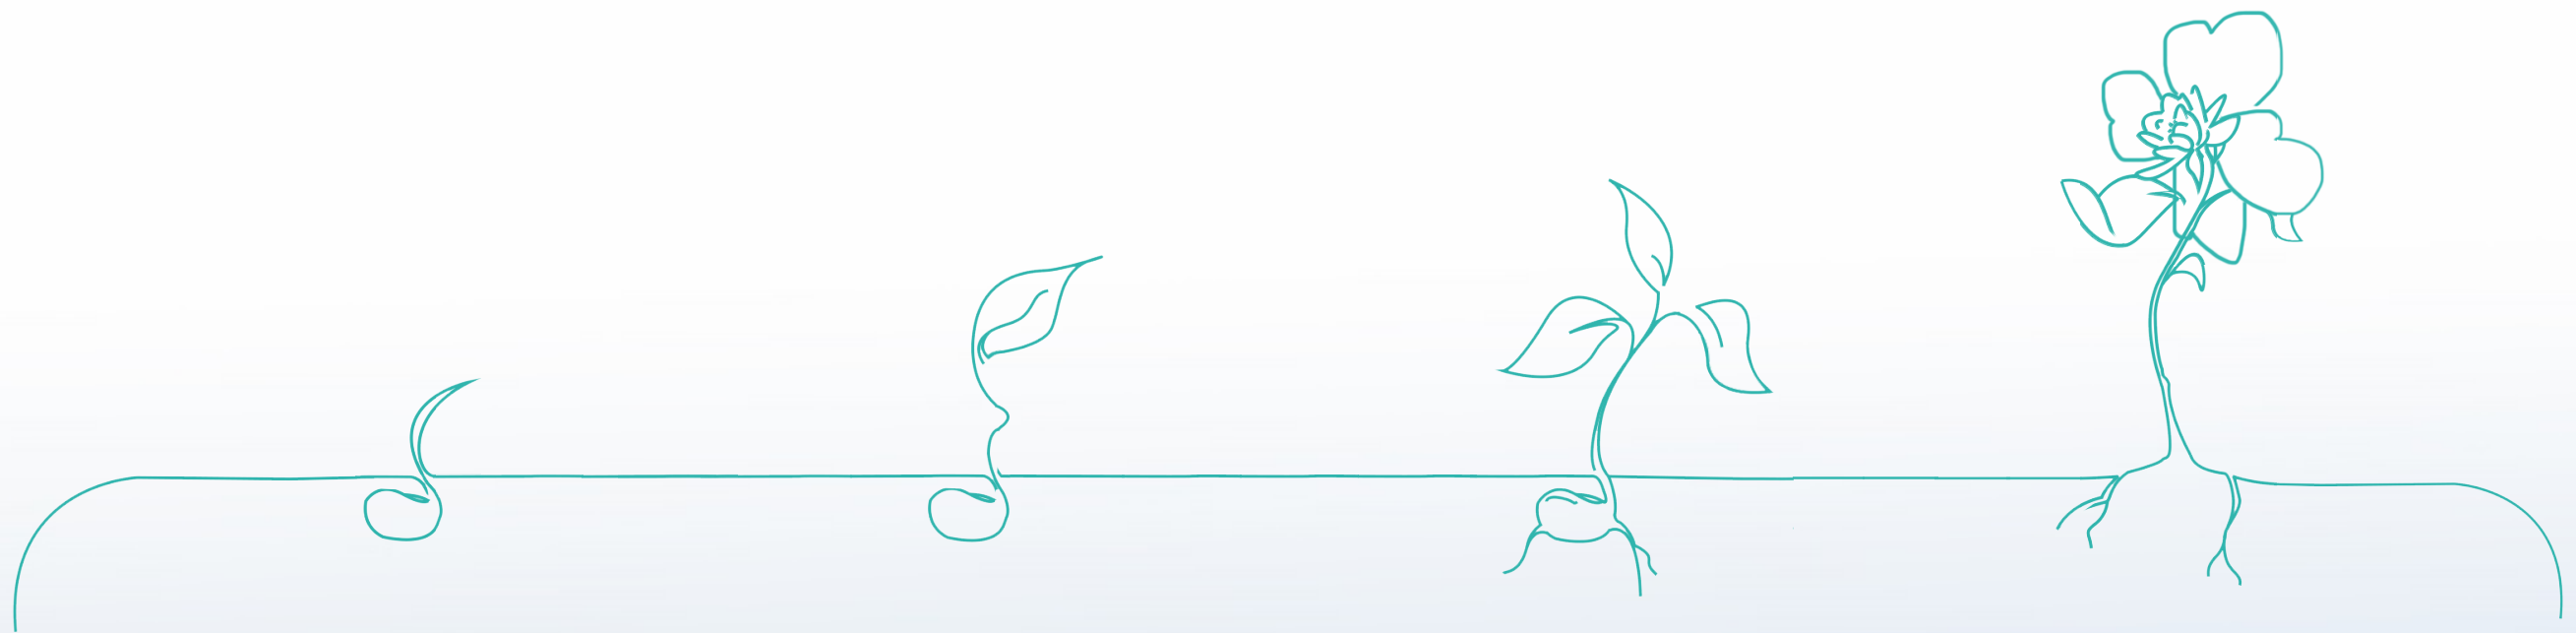

ARMADA DE ROUEN

When the night, the luminescence appears...

HOW DO WE PROCESS ?

Survey quote

We determine together the needs of the event

Design & scenography

Our team imagines a custom scenography.

The flowers' transformation

Transformations are made the day before installing.
Then, the luminescent effect persists throughout the lifetime of the plant.

Installation on the day

We create the floral decoration in situ and we oversee the lighting installation of black light.
