files I need to create a bootable DVD for Mac OS X Lion for a friend to fix his Mac. I know the above is not possible for Mac OS X 10.6. I need to create the DVD so he can install Lion on his Mac. Is there a way to get a retail DVD from Apple? I have tried to look for it but I can't find one. A: Installer discs were discontinued in Snow Leopard. They are no longer made. Snow Leopard DVD Mac OS X Lion Retail DVD You can create a disk image from a Live CD. This can be a CD, DVD, or even a USB flash drive. This DVD won't boot on your friend's machine, but you can use the image to fix his machine. Here's a handy guide. How to make a Bootable Live CD in Linux - A guide The final step is to burn the disc. There are lots of different programs out there. Here's a list of commonly used CD/DVD burning programs. Wondershare Multisession DVD-R : Wondershare Burn : InfraRecorder : CDBurnerXP : Q: Xpath: How to select the first child of the first element with a certain attribute? I have the following HTML code: The first div has an attribute 'class' equal to 'active'. I would like to select the element with the id equal to 'first-div'. I have tried the following: `document.evaluate('//*[id="first-div"]/parent::div', document, null, XPathResult.FIRST_ORDERED_NODE_TYPE, null).singleNodeValue` 520fdb1ae7
