

# How to clear up pairing status of a pair of shin guards?

(Updated 4 August 2022)

This procedure is for unpairing a pair of shin guards from its previous user (in case the user's device is not available anymore). This procedure is based on iOS 15.5 and INSAIT JOY app (iOS version v3.7.1 and above).

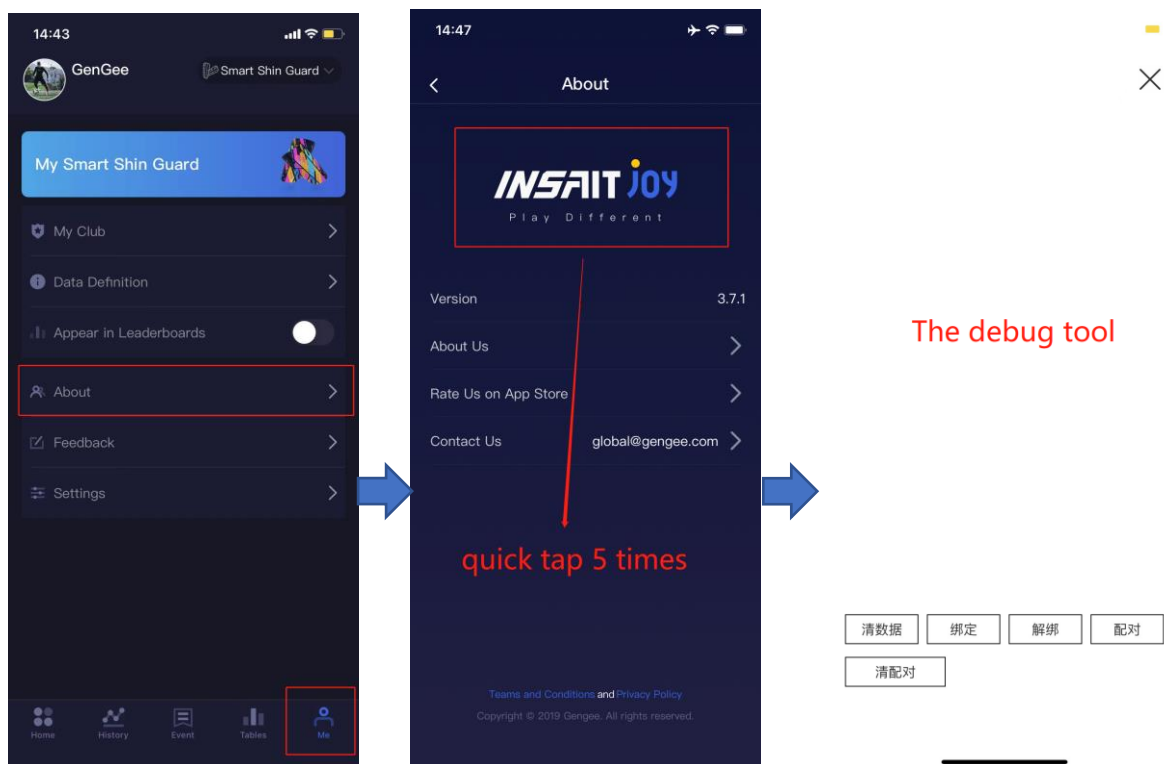

**Tools needed:** iPhone, with INSAIT JOY app (iOS version, **v3.7.1** and above)

## Step 1. Login

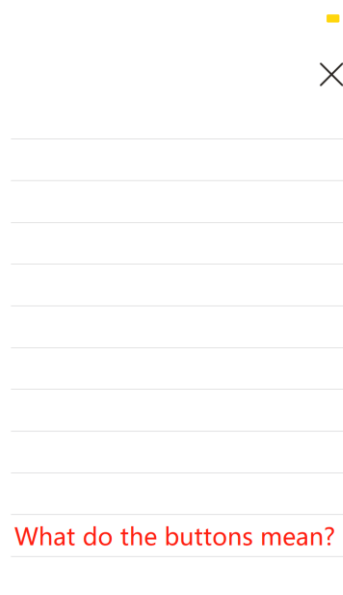

1. Turn on Bluetooth
2. Open INSAIT JOY app. Switch to **Smart Shin Guards**

## Step 2. Open up the hidden tool

1. Go to **Me** and enter **About**.
2. Quick tap the **INSAIT JOY Logo** 5 times to open up the hidden testing tool

## What do the buttons mean?

<b>1. Clear</b> Clear up all data in the player tracking modules	<b>2. Pair</b> Pair the player tracking modules to this phone	<b>3. Unpair</b> Unpair the player tracking modules with the previous user	<b>4. Pair the modules</b> Pair a Left module with a Right module
<b>5. Unpair the modules</b> Unpair a Left module from a Right module	<b>6. Turn off “30-step” setting</b>		<b>7. Turn on “30-Step” setting</b>

Note: sometimes you may not see button 6 and 7.

### Step 3. Clear up pairing status (Updated 21 JUL 2022)

1. Open up the player tracking modules (both left and right). We recommend only one pair at a time.
2. Tap “Clear” to clear up all data in the player tracking modules.
3. Tap “Pair” to pair the modules to this account first.
4. Wait until a green notifier pops up, then tap “Unpair” to unpair the modules.
5. Wait until a green notifier pops up, then turn off the modules and proceed to the next ones (if any).

L JOY SG07(b: 1, p: 1)

R JOY SG07(b: 1, p: 1)

1. You should be able to see both modules here.

Tap to select both of them.
